2. The applicant, VoiceStream Wireless, was represented by Gary Abrahams. Snohomish County was represented by Paul Lichter of the Department of Planning and Development Services. No member of the public participated in this matter.

The hearing concluded at 2:12 p.m.

The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.

Unless superseded herein, the PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Protection Act (SEPA). That staff report is by this reference adopted by the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all the evidence of record, the following findings of fact are entered.

1. The applicant, VoiceStream Wireless, proposes to place a wireless communication facility (a cell phone tower) at 19103 Badke Road, Snohomish. The project includes a 160-foot monopole with associated radio cabinets in a shelter building sheathed in cedar siding and painted to match the existing residence. Additional landscaping is proposed around the equipment building.
2. No issues of concern are raised by public agencies or neighbors.
3. The General Policy Plan (GPP) Future Land Use Map (FLUM) designation is Rural Residential and the property is zoned R-5. The proposed utility use is an allowed conditional use in the R-5 zone.
4. Section 30.42 SCC provides standards regarding conditional use permits and upon a review of this request the proposed use meets those standards. The PDS staff has correctly reviewed the application of this request to Chapter 30.42C.100 SCC.
5. Chapter 30.25.040 SCC provides the standards for landscaping. This request is for modification from these landscaping requirements under Chapter 30.25.040 SCC. Upon a review of these Sections, this request will meet those standards.
6. The proposed use would not have any adverse affects on critical areas or wildlife habitat when reviewed under Chapter 30.62 SCC nor is a Habitat Management Plan required in this location.
7. With regard to radio frequency radiation exposure limits and CFR 47 § 24.52 RF Hazards (FCC Limits), the ground level power density would have to be many times greater (a thousand times greater) to reach the maximum public exposure limits established by the Federal Telecommunications Act. The County, under the terms of this Act, is therefore precluded from considering any further health impacts.
8. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report except to amend a condition concerning painting as agreed at the hearing.
2. The request is in compliance with the Conditional Use Permit standards and the existing zoning classifications of R-5 and is an allowed utility use. It is therefore consistent with the Growth Management Act Comprehensive Plan (GMACP) and the land use regulations of Snohomish County.

3. The request will provide additional and better service for telecommunications facilities in this area, which will therefore furnish better service to the citizens of Snohomish County.
4. SCC 30.22.110 allows “Electromagnetic Transmission and Receiving Facilities” in the R-5 District as a conditional use. The subject site is so zoned. The County Council at that Code Section also allows such a facility as a conditional use in the following zones: R-9,600, R-8,400, R-7,200, T, LDMR, MR, NBFS, RD, RRT-10, R-5 (as noted above), RB, RFS, F, F&R, A-10, MC, SA-1, RC, RU, R-20,000, R12,000 and WFB. In every other zoning district, such facility is permitted outright. In no zoning district is such facility prohibited. In view of such broad authorization for the location of “cell towers” by the County Council, there is a rebuttable presumption that the County Council intended to permit the tower height typically needed in order for such a facility to meet its intended purpose. By logical extension, the County Council is presumed to have known that such typical heights for the facilities would cause them to be visible. Thus, visibility alone is not a basis for denial of an application.
5. The request should be approved subject to compliance by the applicant with the following conditions:

CONDITIONS

- A. The site plan(s) marked Exhibits No. 3A-3Q shall be the official approved plan(s) for this project. Any discrepancy between the content of the official approved development plan(s) and the performance standards of the SCC shall be resolved in favor of the standards contained within the SCC. Revision of official approved development plan(s) is regulated by SCC 30.42C.110.
- B. The co-location of additional carriers on this facility for whose antennas do not pose a significantly greater visual appearance than those shown on the approved plans, shall constitute a minor revision to this conditional use permit as allowed by SCC 30.42C.110.
- C. The pole, all exposed antennas and all attachments (including mounting hardware) shall be painted a dark green color to blend in with the surrounding natural vegetation.
- D. In the event that the FAA requires the tower/structure to be lighted or marked, all lighting and marking shall be done per the FAA’s specifications. All lights shall be shielded from the ground below to the maximum allowed.
- E. The applicant shall file with the County Auditor the required Land Use Permit Binder (LUPB) on a form provided by the Department.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

6. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The requests for a Conditional Use Permit and Landscape Modification for a Wireless Communications Facility are hereby **CONDITIONALLY APPROVED**, subject to compliance by the applicant, with the CONDITIONS set forth in Conclusion 5, above.

Decision issued this 3rd day of March, 2006.

Ed Good, Deputy Hearing Examiner

An aggrieved party need not file a petition for reconsideration but may file an appeal directly to the County Council. If a petition for reconsideration is filed, issues subsequently raised by that party on appeal to the County Council shall be limited to those issues raised in the petition for reconsideration. [SCC 30.72.070]

An appeal must contain the following items in order to be complete: a detailed statement of the grounds for appeal; a detailed statement of the facts upon which the appeal is based, including citations to specific Hearing Examiner findings, conclusions, exhibits or oral testimony; written arguments in support of the appeal; the name, mailing address and daytime telephone number of each appellant, together with the signature of at least one of the appellants or of the attorney for the appellant(s), if any; the name, mailing address, daytime telephone number and signature of the appellant's agent or representative, if any; and the required filing fee.

- (d) The Hearing Examiner's findings, conclusions and/or conditions are not supported by substantial evidence in the record. [SCC 30.72.080]

Appeals will be processed and considered by the County Council pursuant to the provisions of Chapter 30.72 SCC. Please include the County file number in any correspondence regarding the case.

The Land Use Permit Binder, which must be executed and recorded as required by SCC 30.42C.200, will be provided by the department. The Binder should **not** be recorded until all reconsideration and/or appeal proceedings have been concluded and the permit has become effective.
