

REPORT and DECISION of the SNOHOMISH COUNTY HEARING EXAMINER

DATE OF DECISION: December 21, 2005

PLAT/PROJECT NAME: *SKY RAIDER*

APPLICANT/
LANDOWNER: Hank Robinett, Robinett Investment Company

FILE NO.: 05 116609

TYPE OF REQUEST: 11-lot Rural Cluster Subdivision of 38.87 acres

DECISION (SUMMARY): APPROVE subject to conditions

BASIC INFORMATION

GENERAL LOCATION: The northwest quarter of the northwest quarter of Section 24, Township 32N, Range 4E, WM, in Arlington

ACREAGE: 38.87 acres

DENSITY: .28 du/ac (gross)
.31 du/ac (net)

NUMBER OF LOTS: 11

AVERAGE LOT SIZE: 55,610 square feet

MINIMUM LOT SIZE: 44,296 square feet

OPEN SPACE: 54% of the site on 21.10 acres

ZONING: R-5

COMPREHENSIVE PLAN DESIGNATION:

General Policy Plan Designation: Rural Residential-5 (1 du/5 ac)
Subarea Plan: Northwest
Subarea Plan Designation: Rural (1 du/2.3-5 ac)

UTILITIES:

Water: Individual wells
Sewage: On-site sewers

SCHOOL DISTRICT: Stanwood

FIRE DISTRICT: No. 14

SELECTED AGENCY RECOMMENDATIONS:

Department of:

Planning and Development Services: Approve subject to conditions

Public Works: Approve subject to conditions

INTRODUCTION

The applicant filed the Master Application on March 14, 2005. (Exhibit 1)

The Hearing Examiner (Examiner) made a site familiarization visit on December 5, 2005 in the morning.

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 22, 23 and 24)

A SEPA determination was made on September 13, 2005. (Exhibit 21) No appeal was filed.

The Examiner held an open record hearing on December 6, 2005, the 169th day of the 120-day decision making period. Witnesses were sworn, testimony was presented, and exhibits were entered at the hearing.

PUBLIC HEARING

The public hearing commenced on December 6, 2005 at 9:00 a.m.

1. The Examiner indicated that he has read the PDS staff report, reviewed the file and viewed the area and therefore has a general idea of the particular request involved.
2. Mr. Ry McDuffy and Mr. Ryan Larsen appeared on behalf of the applicant and indicated that they accepted the PDS staff report and had no objection to the conditions.
3. Mr. Paul MacReady appeared on behalf of PDS.
4. No one appeared in opposition.

The hearing concluded at 9:08 a.m.

NOTE: Audio tapes of this hearing are available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS:

1. The master list of Exhibits and Witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file, as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Protection Act (SEPA) evaluation with its recommendation and conditions. This report is hereby adopted by the Examiner as if set forth in full herein.
3. The request is for approval of a preliminary Rural Cluster Subdivision (RCS) of 38.87 acres for 11 single-family lots.
4. Access to the new lots would be from Rose Road.
5. The site is outside of the Urban Growth Area and is surrounded by large, single-family residential lots on the north, south and west, across Rose Road. All of this property is zoned R-5.
6. The county received two public comment letters. However, no one appeared in opposition to the request. Response to these issues was made by the Department of Public Works (DPW) and PDS.
7. The project would comply with park mitigation requirements under Chapter 30.66A SCC (Title 26A SCC) by the payment of \$811.29 for each new single-family home.
8. The DPW reviewed the request with regard to traffic mitigation and road design standards. This review covered Title 13 SCC and Chapter 30.66B SCC (Title 26B SCC) as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions. (See Pages 3-6, Exhibit 37)
9. School mitigation requirements under Chapter 30.66C SCC (Title 26C SCC) have been reviewed and set forth in the conditions.
10. A Type 4 stream flows south through the center of the property and another Type 4 stream flows westerly through the northeast portion of the site and joins the first stream along the northern boundary. Four Category 3 wetlands are associated with the streams and these streams and wetlands would be protected by a Native Growth Protection Area (NGPA) in accordance with Chapter 30.62 SCC entitled Critical Area Regulations.
11. Stormwater runoff would be collected by a storm drainage system consisting of ditches, a 12-inch pipe and catch basins and then be directed to a 1.10 acre tract containing a combined detention pond with dead storage for water quality. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC (Title 24 SCC).
12. The Snohomish County Health District has no objection to this proposal.

13. Water will be provided by private wells and individual septic systems.
14. The property is designated Rural Residential on the GPP Future Land Use Map and is located outside of any Urban Growth Area. The requested Rural Cluster Subdivision is consistent with the GPPs Rural Residential designation of the property and the eleven lots proposed are consistent with the density provisions. (SCC Title 30 GMA-based zoning regulations)
15. The proposal complies with the provisions of Section 30.41C.010 by clustering the lots on the most buildable and least environmentally sensitive portion of the site while retaining approximately 54% (on 21.10 acres) of the property in restricted open space; the proposal is considered preferable to traditional lot-by-lot development through its efficient use of the most buildable portion of the site together with the retention of environmentally sensitive areas in permanent open space tracts; the use of the clustering concept provides greater compatibility with the surrounding development by providing buffers between adjoining properties; the use of the clustering concept has reduced the need for impervious surfaces resulting in the protection of groundwater and potential water pollution from erosion and other drainage-related problems; the project complies with Snohomish County's Critical Areas Regulations, thereby minimizing the loss of the county's environmentally sensitive areas.

In this regard, the staff has correctly analyzed the effect of the Rural Cluster Subdivision on page 8 of the PDS staff report. (Exhibit 37)

16. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC (Title 19 SCC) as well as the State Subdivision Code, RCW 58.17. The proposed plat complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.
17. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
18. The aerial photograph (Exhibit 13) very clearly and effectively shows the location of the proposal and how it would fit into the surrounding area.
19. Any Finding of Fact in this Report and Decision, which should be deemed a Conclusion, is hereby adopted as such.

CONCLUSIONS:

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to certain conditions.

3. The request is consistent with the GMACP; GMA-based County codes; and the type and character of land use permitted on the site and the permitted density with the applicable design and development standards.
4. The request is for a Rural Cluster Subdivision, and by clustering the 11 lots, it allows for the preservation and maintenance of the streams, wetlands and buffer areas, thereby providing an attractive area, generally for the placement of homes.
5. The request should be approved subject to the following Conditions:

CONDITIONS

- A. The revised preliminary plat/rural cluster subdivision received by PDS on June 28, 2005 (Exhibit 19) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:
 - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.
 - ii. The platlor shall mark with temporary markers in the field the boundary of all Native Growth Protection Areas (NGPA) required by Chapter 30.62 SCC, or the limits of the proposed site disturbance outside of the NGPA, using methods and materials acceptable to the county.
 - iii. A final mitigation plan based on the *Critical Areas Study and Wetland Mitigation Plan* prepared by Wetland Resources, Inc. dated February 8, 2005 (Exhibit 8) shall be submitted for review and approval during the construction review phase of this project.
- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
 - i. "The lots within this subdivision will be subject to school impact mitigation fees for the Stanwood School District No. 401 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for one existing parcel. Lot #1 shall receive credit."
 - ii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$1,961.85 per lot for mitigation of impacts on county roads paid to the county,
\$344.52 per lot for mitigation of impacts to WSDOT roads paid to the county,
\$209.68 per lot for mitigation of impacts on the City of Arlington streets paid to the city. Proof of payment to the city is required,
\$114.84 per lot for mitigation of impacts on the City of Stanwood streets paid to the city. Proof of payment to the city is required.

These payments are due prior to or at the time of building permit issuance for each single family residence. Notice of these mitigation payments shall be contained in any deeds involving this subdivision or the lots therein. Once building permits have been issued all mitigation payments shall be deemed paid.

- iii. Thirty feet of right-of-way shall be dedicated to Snohomish County, parallel and adjoining the existing right-of-way along the parcel's frontage on the east side of Rose Road.
- iv. All Critical Areas shall be designated Native Growth Protection Areas (NGPA) (unless other agreements have been made) with the following language on the face of the plat;

"All NATIVE GROWTH PROTECTION AREAS shall be left permanently undisturbed in a substantially natural state. No clearing, grading, filling, building construction or placement, or road construction of any kind shall occur, except removal of hazardous trees. The activities as set forth in SCC 30.91N.010 are allowed when approved by the County."
- v. The following statement shall appear on the face of the plat and be recorded with the final plat restrictions, as required by Snohomish Health District;

For Proposed Wells:

"Well protection zones are shown in the Snohomish Health District records for lots of this plat. The well protection zones are not based on actual constructed wells. The well protection zones may require revision if the well cannot be located as proposed. If moved, the 100 foot radius well protection zone shall not extend beyond the subdivision exterior boundaries without written consent and recorded well protection covenant from the affected property owners. After installation of any water well to serve lots within this subdivision, all owners and successors agree to maintain 100 foot well protection zones in compliance with current state and local well siting and construction regulations, which, at a minimum, prevent installation of drainfields within the well protection zone. The revision of the well protection zone location is a private matter between the affected lot owners and does not require a plat alteration."

D. Prior to recording of the final plat:

- i. The dwelling units within this development are subject to park impact fees in the amount of \$811.29 per newly approved dwelling unit pursuant to Chapter 30.66A. Payment of these mitigation fees is required prior to building permit issuance; provided that the building permit has been issued within five years after the application is deemed complete. After five years, park impact fees shall be based upon the rate in effect at the time of building permit issuance.
- ii. Rural frontage improvements shall be constructed along the parcel's frontage on Rose Road to the specifications of the DPW.
- iii. Pedestrian facilities shall be constructed to the specifications of the DPW throughout the development.
- iv. A temporary cul-de-sac shall be constructed at the end of Road C.
- v. Native Growth Protection Area boundaries (NGPA) shall have been permanently marked on the site prior to final inspection by the county, with both NGPA signs and adjacent markers which can be magnetically located (e.g.: rebar, pipe, 20 penny nails, etc.). The platlor may use other permanent methods and materials provided they are first approved by the county. Where an NGPA boundary crosses another boundary (e.g.: lot, tract, plat, road, etc.), a rebar marker with surveyors' cap and license number must be placed at the line crossing.

NGPA signs shall have been placed no greater than 100 feet apart around the perimeter of the NGPA. Minimum placement shall include one Type 1 sign per wetland, and at least one Type 1 sign shall be placed in any lot that borders the NGPA, unless otherwise approved by the county biologist. The design and proposed locations for the NGPA signs shall be submitted to the Land Use Division for review and approval prior to installation.

- vi. The final wetland mitigation plan shall be completely implemented.
- vii. An access, utilities and drainage easement, Auditor's File Number 200305200962, shall be relinquished or relocated before the recording of final plat.

E. In conformity with applicable standards and timing requirements:

- i. The preliminary landscape plan (Exhibit 25) shall be implemented. All required detention facility landscaping shall be installed in accordance with the approved landscape plan.

F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this recommendation excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

- 6. Any Conclusion in this Report and Decision, which should be deemed a Finding of Fact, is hereby adopted as such.

DECISION:

The request for a Rural Cluster Subdivision consisting of 11 lots is hereby APPROVED, SUBJECT TO COMPLIANCE by the applicant, with the CONDITIONS set forth in Conclusion 5, above.

Decision issued this 21st day of December, 2005.

Robert J. Backstein, Hearing Examiner

EXPLANATION OF RECONSIDERATION AND APPEAL PROCEDURES

This decision of the Hearing Examiner is final and conclusive with right of appeal to the County Council. However, reconsideration by the Examiner may also be sought by one or more parties of record. (The Examiner's action on reconsideration would be subject to appeal to the Council.) The following paragraphs summarize the

reconsideration and appeal processes. For more information about reconsideration and appeal procedures, please see Chapter 30.72 SCC and the respective Examiner and Council rules of procedure.

Reconsideration

Any Party of Record may request reconsideration by the Examiner. A Petition for Reconsideration must be filed in writing with the Office of the Hearing Examiner, 2802 Wetmore Avenue, 2nd Floor, Everett, Washington, (Mailing Address: M/S #405, 3000 Rockefeller Avenue, Everett WA 98201) on or before **January 3, 2006**. There is no fee for filing a Petition for Reconsideration. **“The petitioner for reconsideration shall mail or otherwise provide a copy of the petition for reconsideration to all parties of record on the date of filing.” [SCC 30.72.065]**

A Petition for Reconsideration does not have to be in a special form but must: contain the name, mailing address and daytime telephone number of the petitioner, together with the signature of the petitioner or of the petitioner’s attorney, if any; identify the specific findings, conclusions, actions and/or conditions for which reconsideration is requested; state the relief requested; and, where applicable, identify the specific nature of any newly discovered evidence and/or changes proposed by the applicant.

The grounds for seeking reconsideration are limited to the following:

- (a) the Examiner exceeded his jurisdiction;
- (b) the Examiner failed to follow the applicable procedure in reaching his decision;
- (c) the Examiner committed an error of law or misinterpreted the applicable comprehensive plan, provisions of Snohomish County Code, or other county or state law or regulation;
- (d) the Examiner’s findings, conclusions and/or conditions are not supported by the record;
- (e) newly discovered evidence alleged to be material to the Examiner’s decision which could not reasonably have been produced at the Examiner’s hearing; and/or
- (f) changes to the application proposed by the applicant in response to deficiencies identified in the decision.

Petitions for Reconsideration will be processed and considered by the Hearing Examiner pursuant to the provisions of SCC 30.72.065. Please include the county file number in any correspondence regarding this case.

Appeal

An appeal to the County Council may be filed by any aggrieved Party of Record. Appeals shall be addressed to the Snohomish County Council but shall be filed in writing with the Department of Planning and Development Services, 5th Floor, County Administration Building, 3000 Rockefeller Avenue, Everett, Washington (Mailing address: M/S #604, 3000 Rockefeller Avenue, Everett, WA 98201) on or before **January 4, 2006** and shall be accompanied by a filing fee in the amount of five hundred dollars (\$500.00); PROVIDED, that the filing fee shall not be charged to a department of the county and PROVIDED FURTHER that the filing fee shall be refunded in any case where an appeal is dismissed in whole without hearing under SCC 30.72.075.

An appeal must contain the following items in order to be complete: a detailed statement of the grounds for appeal; a detailed statement of the facts upon which the appeal is based, including citations to specific Hearing Examiner Findings, Conclusions, exhibits or oral testimony; written arguments in support of the appeal; the name, mailing address and daytime telephone number of each appellant, together with the signature of at least one of the appellants or of the attorney for the appellant(s), if any; the name, mailing address, daytime telephone number and signature of the appellant’s agent or representative, if any; and the required filing fee.

The grounds for filing an appeal are limited to the following:

- (a) the Examiner exceeded his jurisdiction;
- (b) the Examiner failed to follow the applicable procedure in reaching his decision;
- (c) the Examiner committed an error of law or misinterpreted the applicable comprehensive plan, provisions of Snohomish County Code, or other county or state law or regulation; and/or
- (d) the Examiner's findings, conclusions and/or conditions are not supported by the record.

Appeals will be processed and considered by the County Council pursuant to the provisions of Chapter 30.72 SCC. Please include the county file number in any correspondence regarding this case.

Staff Distribution:

Department of Planning and Development Services: Paul MacReady
Department of Public Works: Andrew Smith

The following statement is provided pursuant to RCW 36.70B.130: "Affected property owners may request a change in valuation for property tax purposes notwithstanding any program of revaluation." A copy of this Decision is being provided to the Snohomish County Assessor as required by RCW 36.70B.130.
