The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 11, 12 and 13)

A SEPA determination was made on August 1, 2005. (Exhibit !) No appeal was filed.

The Examiner held an open record hearing on August 24, 2005, the 51st day of the 120-day decision making period. Witnesses were sworn, testimony was presented, and exhibits were entered at the hearing.

PUBLIC HEARING

The public hearing commenced on August 24, 2005 at 1:00 p.m.

1. The Examiner indicated that he has read the PDS staff report, reviewed the file and viewed the area and therefore has a general idea of the particular request involved.
2. Ms. Debbie Rothfus, Peak Engineering, appeared on behalf of the applicant and stated that they agree with the PDS staff report.
3. Mr. David Radabaugh, PDS, appeared and stated that this is an implementing rezone and that PDS needed to change a citation in Exhibit 28.
4. No one appeared in opposition to the request.

The hearing concluded at 1:07 p.m.

NOTE: The above information reflects the information submitted to the Examiner summarizing the statements that were made at the hearing. However, for a full and complete record, verbatim audio tapes of these hearings are available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS:

1. The master list of Exhibits and Witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file, as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State

Environmental Protection Act (SEPA) evaluation with its recommendation and conditions. This report is hereby adopted by the Examiner as if set forth in full herein.

3. The request is for a rezone from R-8400 to LDMR and there will be a 3-lot administrative short plat. There is direct access to an existing public road.
4. The proposed developed is subject to the comprehensive plan under which it is designated Urban Medium Density Residential (6-12 du/acre) over approximately the eastern third of the site and Urban High Density Residential (12-24 du/acre) over approximately the western two-thirds of the site. The property is also located within the Paine Field area and is designated Multiple Residential (9-24 du/acre) with an Environmentally Sensitive Area Overlay.
5. The immediate area is designated Urban High Density Residential (12-24 du/ac). Single-family residences are the most common use with property to the west, north and east being zoned R-8400. The adjacent property to the south is part of the *Red Oaks* property and is zoned PRD-LDMR.
6. Chapter 30.42A covers rezoning requests and applies to site specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) The proposal is consistent with the comprehensive plan;
- (2) The proposal bears a substantial relationship to the public health, safety, and welfare; and
- (3) Where applicable, minimum zoning criteria found in chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements generally and should be approved.

7. There are no mitigation requirements required for parks, schools or roads and the DPW has no comments or objections but will provide their input to the short plat approval.
8. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished.
9. Public water and sewer service will be available for this development as well as electrical power.
10. The subject property is designated Urban High Density Residential (UMDR: 12-24 DU/Ac) on the GPP Future Land Use map, and is located within an Urban Growth Area (UGA). It is not located within a mapped Growth Phasing Overlay. According to the GPP, the Urban High Density Residential designation “allows high density residential land uses such as townhouses and apartments generally near other high intensity land uses. Land in this category may be developed up to a maximum density of 24 dwelling units per acre. Implementing zones include the MR, PRD-MR, LDMR, and PRD-LDMR zones.” PDS finds the requested rezone to be consistent with the General Policy Plan’s Urban Medium Density Residential designation of the property.
11. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.

12. Since this request involves rezoning only, any details or conditions which would normally come from DPW will be done at the time of administrative plat approval and are not required here.
13. The request for a rezone was based upon the information and impacts submitted in the Determination of Nonsignificance.
14. Exhibit 5 is an aerial photograph which very clearly shows the property itself and the surrounding area and its compatibility in this area.
15. Any Finding of Fact in this Report and Decision, which should be deemed a Conclusion, is hereby adopted as such.

CONCLUSIONS:

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The request is for a rezone and, therefore, must be consistent with the GMACP; GMA based county codes. In this regard, the request is consistent with those plans and codes. The type and character of land use permitted on the project site is consistent with the General Policy Plan (GPP) ULDR designation of the property and meets the required regulatory codes as to density, design and development standards.
3. The request would allow for an administrative decision for a short plat application which will create three lots in an area of single-family homes.
4. The request is for a rezone and therefore must comply with Chapter 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan and since no evidence was submitted contrary to the requirements of Chapter 30.42A, the evidence is presumed to meet these requirements.
5. The request should be approved as submitted.
6. Any Conclusion in this Report and Decision, which should be deemed a Finding of Fact, is hereby adopted as such.

DECISION:

The request for a Rezone from R-8400 to LDMR for this property is hereby APPROVED.
Decision issued this 8th day of September, 2005.

Robert J. Backstein, Hearing Examiner
