**INTRODUCTION**

The applicant filed the Master Application on April 7, 2005. (Exhibit 1)

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 17, 18 and 19)

A SEPA determination was made on August 29, 2005. (Exhibit 16) No appeal was filed.

The Examiner held an open record hearing on October 20, 2005, the 117<sup>th</sup> day of the 120-day decision making period. Witnesses were sworn, testimony was presented, and exhibits were entered at the hearing.

**PUBLIC HEARING**

The public hearing commenced on October 20, 2005 at 3:31 p.m.

1. The Examiner announced that he had read the PDS staff report, reviewed the file and viewed the area and therefore was generally apprised of the particular request involved.
2. The applicant, Spadafora Development, LLC, was represented by Don Miller of GWC Consulting. Snohomish County was represented by Darryl Eastin of the Department of Planning and Development Services and by Norm Stone of the Department of Public Works.

3. Vicinity resident Gerald Willets testified to concern about the impact of such lot density on homes such as his and his neighbors' homes. His comments echoed some of the same concerns expressed by letters of record submitted pre-hearing by other citizens of Winesap Road, including Mr. Eltinge, the Bueings, McCaslands and others. Mr. Miller responded that the requested zoning and density implements the comprehensive plan and is consistent with the Growth Management Act and that no homes will be located under the electric power lines which cross the subject site. A boundary line adjustment was in process at the date of the hearing to resolve any issue of property lines or fencing concerning the Bueings.
4. The hearing concluded at 3:58 p.m.

**NOTE:** The above information summarizes the information submitted to the Examiner at the hearing. However, for a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

## **FINDINGS, CONCLUSIONS AND DECISION**

### **FINDINGS OF FACT**

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Protection Act (SEPA). That staff report is hereby adopted by the Examiner as if set forth in full herein.
3. The request is for a rezone of 6.92 acres from R-9,600 to R-7,200 in order to construct a 31-lot subdivision using lot averaging. Average weekday vehicle trips are 287, with 23 being a.m. peak hour trips and 30 being p.m. peak hour trips.
4. The project would comply with park mitigation requirements under Chapter 30.66A SCC (Title 26A SCC) by the payment of \$1,244.49 for each new single-family home.
5. The DPW reviewed the request with regard to traffic mitigation and road design standards. This review covered Title 13 SCC and Chapter 30.66B SCC (Title 26B SCC) as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions.
6. School mitigation requirements under Chapter 30.66C SCC (Title 26C SCC) have been reviewed and set forth in the conditions.
7. There are no critical areas on-site or within 100 feet of the subject property.

8. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC (Title 24 SCC).
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished. Public water and sewer service and electrical power will be available for this development.
10. The property is designated Urban Low Density Residential (ULDR 4-6 du/ac) on the General Policy Plan (GPP) Future Land Use Map (FLUM) and is located within an Urban Growth Area (UGA). Land in this category may be developed at a density of 4-6 du/ac and one of the implementing zones is the R-7,200 zone which is the case here.
11. The proposed use (single-family detached development) is essentially compatible with existing single-family detached developments on larger lots. Because the property is within a UGA, policies were adopted to promote urban densities of development. A comparison with the present lower density character of much of the area is inappropriate since the present density of development in much of the surrounding area is inconsistent with both the adopted comprehensive plans and the present zoning.
12. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC (Title 19 SCC) as well as the State Subdivision Code, RCW 58.17. The proposed plat complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.
13. Chapter 30.42A covers rezoning requests and applies to site-specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) the proposal is consistent with the comprehensive plan;
- (2) the proposal bears a substantial relationship to the public health, safety, and welfare; and
- (3) where applicable, minimum zoning criteria found in Chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements generally and should be approved.

14. The proposal has been evaluated by PDS for compliance with the lot size averaging provisions of SCC 30.41A.240 and SCC 30.23.210. This proposal is consistent with these provisions.
15. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
16. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

## **CONCLUSIONS OF LAW**

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to conditions specified below herein.
3. The request is consistent with the (1) GMACP, GMA-based County codes, (2) the type and character of land use permitted on the site, (3) the permitted density, and(4) the applicable design and development standards.
4. The request is for a rezone and therefore must comply with Chapter 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan. Because no evidence was submitted contrary to the requirements of Chapter 30.42A, the application is presumed to meet these requirements.
5. The conclusions of law immediately above herein are entered with awareness of the public concerns expressed in this record. However, the higher density infill in lieu of sprawl implements the applicable law and policies.
6. The request should be approved subject to compliance by the applicant with the following conditions:

## **CONDITIONS**

- A. The preliminary plat received by the Department of Planning and Development Services on September 7, 2005 (Exhibit 20) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.

  - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.
- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
  - i. "The lots within this subdivision will be subject to school impact mitigation fees for the Northshore School District No. 417 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for two (2) existing parcel(s). Lots 1 and 2 shall receive credit."

The election to postpone payment shall be noted by a covenant placed on the face of the recorded plat and included in the deed for each affected lot within the subdivision.
- ii. Construction of urban standard frontage improvements on Winesap Road shall have been completed.

E. In conformity with applicable standards and timing requirements:

- i. A revised detention pond landscape plan and revised targeted drainage plan shall be provided that indicate a minimum six-foot wide Type A landscape screen or living fence between the detention pond fence and lot 20 in accordance with SCC 30.25.023(3).

F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

- 7. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.
