**INTRODUCTION**

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 11, 12 and 13)

A SEPA determination was made on November 28, 2005. (Exhibit 10) No appeal was filed.

The Examiner held an open record hearing on January 4, 2006, the 44<sup>th</sup> day of the 120-day decision making period. Witnesses were sworn, testimony was presented and exhibits were entered at the hearing.

**PUBLIC HEARING**

The public hearing commenced on January 4, 2006 at 9:04 a.m.

1. The Examiner announced that he has read the PDS staff report, reviewed the file and viewed the area and therefore was generally apprised of the particular request involved.
2. The applicant, Snohomish County Fire District No. 14 was represented by Stephanie Snyder. Snohomish County was represented by Erik Olson of the Department of Planning and Development Services. No member of the general public participated by document or by oral testimony.
3. The hearing concluded at 9:07 a.m.

**NOTE:** For a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

**FINDINGS, CONCLUSIONS AND DECISION**

**FINDINGS OF FACT**

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Policy Act (SEPA). That staff report is hereby adopted by the Examiner as if set forth in full herein.

3. The request is for a rezone of .97 acre from R-5 to RB. No critical area (steep slope, wetland, or stream) is on or near the site.
4. The applicant, Snohomish Fire District No. 14, must build a new fire facility in order to serve population growth in the vicinity. To do so, the District must sell the existing old fire station and accessory building. The best use of the old facility is a business use permitted under the proposed Rural Business zoning.
5. Public roads border the site on three sides. To the east are large lots developed with single-family homes. In all other directions are single-family homes on smaller but various sized lots of the old Hillmans Birmingham Water Front Tracts. The subject site and surroundings are zoned R-5. Single-family residential subdivisions predominate.
6. The Hearing Examiner can condition or deny a rezone if there is substantial evidence in the record of the need to do so in the interest of the public health, safety and welfare. However, none of the evidence of record indicates any need for a condition upon the approval of the requested rezone.
7. Chapter 30.42A covers rezoning requests and applies to site specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) The proposal is consistent with the comprehensive plan;
- (2) the proposal bears a substantial relationship to the public health, safety, and welfare;  
and
- (3) where applicable, minimum zoning criteria found in chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements generally and should be approved.

8. There are no mitigation requirements required for parks, schools or roads and the DPW has no comments or objections but will provide its input during the short plat approval process.
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished.
10. Public water, sewer service and electrical power will be available for this development.
11. The subject property is designated Rural Residential-5 (RR-5: 1 dwelling unit per 5 or more acres). This designation identifies all lands which are currently designated as Rural on existing subarea comprehensive plans and have subsequently been zoned to Rural 5. As the result of a joint planning effort between the county and the Tulalip Tribes, the RR-5 designation also applies to certain lands on the Tulalip Reservation that were previously designated Rural Residential. This designation also includes some areas which were previously designated and zoned agriculture. It also includes lands for which the pre-GMA subarea comprehensive plan indicates a higher density but which were zoned R-5 by the county subsequent to the plan adoption date. The implementing zone in this designation will continue to be the R-5 zone.

12. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
13. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

### **CONCLUSIONS OF LAW**

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The request is for a rezone and, therefore, must be consistent with the GMACP; GMA based county codes. In this regard, the request is consistent with those plans and codes. The type and character of land use permitted on the project site is consistent with the General Policy Plan (GPP) ULDR designation of the property and meets the required regulatory codes as to density, design and development standards.
3. The request must also comply with Chapter 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan. Because no substantial evidence was submitted contrary to the requirements of Chapter 30.42A, the evidence is presumed to meet these requirements.
4. The request should be approved as submitted.
5. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

### **DECISION**

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a rezone from R-5 to Rural Business for this property is hereby **APPROVED**.

Decision issued this 19<sup>th</sup> day of January, 2006.
