INTRODUCTION

The applicant filed the Master Application on January 18, 2006. (Exhibit 1)

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 16, 17 and 18)

A SEPA determination was made on August 22, 2006. (Exhibit 15) No appeal was filed.

The Examiner held an open record hearing on October 25, 2006, the 82nd day of the 120-day decision making period. Witnesses were sworn, testimony was presented, and exhibits were entered at the hearing.

PUBLIC HEARING

The public hearing commenced on October 25, 2006 at 9:02 a.m.

1. The Examiner announced that he had read the PDS staff report, reviewed the file and viewed the area and therefore was generally apprised of the particular request involved.
2. The applicant, The McNaughton Group, was represented by Cher Anderson. Snohomish County was represented by Ed Caine of the Department of Planning and Development Services.
3. No member of the general public attended the hearing. Residents of two vicinity homes had submitted pre-hearing written comments expressing concern about their shared access with the proposed plat and about driver’s sight distance at 180th Street SE. Those issues were addressed by a July 27, 2006 re-submittal of the application.

The hearing concluded at 9:13 a.m.

NOTE: For a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Policy Act (SEPA). That staff report is hereby adopted by the Examiner as if set forth in full herein.
3. The request is for a rezone of 4.3 acres from R-9,600 to R-7,200 in order to construct an 18-lot subdivision using lot size averaging. Average weekday vehicle trips are 153, of which 12 are a.m. peak-hour trips and 16 are p.m. peak-hour trips.
4. The eastern half of the subject site is a utility easement for Puget Sound Power & Light and for Olympic Pipeline Company. The latter notes (Exhibit 23) that the proposed subdivision is "very close" to Olympic's 16-inch and 20-inch high pressure pipelines and asks to be kept informed about the project. The proposed subdivision is within the City of Mill Creek's Urban Growth Area. That City expresses an interest in pursuing an interlocal agreement or other binding mechanism with the County so that the City's recommendations (Exhibit 27) could be part of the subdivision's final design.
5. The project would comply with park mitigation requirements under Chapter 30.66A SCC by the payment of \$1,244.49 for each new single-family home.
6. The DPW reviewed the request with regard to traffic mitigation and road design standards. That review covered Title 13 SCC and Chapter 30.66B SCC as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions.
7. School mitigation requirements under Chapter 30.66C SCC have been reviewed and set forth in the conditions.
8. There are neither critical areas on site nor within 100 feet of the site.
9. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC.

10. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished. Public water and sewer service and electrical power will be available for this development.
11. The property is designated Urban Low Density Residential (ULDR 4-6 du/ac) on the General Policy Plan (GPP) Future Land Use Map (FLUM) and is located within an Urban Growth Area (UGA). Land in this category may be developed at a density of 4-6 du/ac and one of the implementing zones is the R-7,200 zone which is the case here.
12. The proposed use (single-family detached development) is essentially compatible with existing single-family detached developments on larger lots. Because the property is within a UGA, policies were adopted to promote urban densities of development. A comparison with the present lower density character of much of the area is inappropriate since the present density of development in much of the surrounding area is inconsistent with both the adopted comprehensive plans and the present zoning.
13. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC as well as the State Subdivision Code, RCW 58.17. The proposed plat complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.
14. Chapter 30.42A covers rezoning requests and applies to site-specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) the proposal is consistent with the comprehensive plan;
- (2) the proposal bears a substantial relationship to the public health, safety, and welfare; and
- (3) where applicable, minimum zoning criteria found in Chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements generally and should be approved.

15. The proposal has been evaluated by PDS for compliance with the lot size averaging provisions of SCC 30.41A.240 and SCC 30.23.210. This proposal is consistent with these provisions.
16. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
17. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to conditions specified below herein.
3. The request is consistent with the (1) GMACP, GMA-based County codes, (2) the type and character of land use permitted on the site, (3) the permitted density, and(4) the applicable design and development standards.
4. The request is for a rezone and therefore must comply with Chapter 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan. Because no evidence was submitted of noncompliance with the requirements of Chapter 30.42A, the application is presumed to meet those requirements.
5. The conclusions of law immediately above herein are entered with awareness of the public concerns expressed in this record. However, the higher density infill in lieu of sprawl implements the applicable law and policies.
6. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The requests for a preliminary plat for an 18 lot subdivision utilizing lot size averaging provisions and for a rezone from Residential-9,600 to Residential-7,200 are hereby **CONDITIONALLY APPROVED**, subject to the following conditions:

CONDITIONS

- A. The preliminary plat received by PDS on July 27, 2006, (Exhibit 13) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:

All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.

- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
- i. “The lots within this subdivision will be subject to school impact mitigation fees for the Everett School District No. 2 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for 2 existing parcels. Lots 1 and 2 shall receive credit.”
 - ii. No lot shall be allowed access to the private road on the west side of the plat.
 - iii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$1,658.80 per lot to Snohomish County as mitigation for project impacts on county road system capacity within Transportation Service Area E. Credits for certain expenditures may be allowed against said payment to the extent authorized by county code.

\$166.00 per lot for mitigation of impacts on City streets for the City of Mill Creek paid to the City. Proof of payment shall be provided.

\$67.33 per lot for transportation demand management paid to the County,

Notice of these mitigation payment obligations shall be contained in any deeds involving this subdivision or the lots therein. Once building permit has been issued all mitigation payments shall be deemed paid.
 - iv. Additional right-of-way, parallel and adjacent to the existing right-of-way of 180th Street SE shall have been dedicated to the County along the development’s entire frontage such that 40 feet of right-of-way exists from centerline of the 180th Street SE right-of-way.
 - v. The developer shall pay the County \$1,244.49 (Nakeeta Beach # 307) per new dwelling unit as mitigation for parks and recreation impacts in accordance with Chapter 30.66A SCC; provided, however, the developer may elect to postpone payment of the mitigation requirement until issuance of a building permit for that lot. The election to postpone payment shall be noted by a covenant placed on the face of the recorded plat and included in the deed for each affected lot within the subdivision.
- D. Prior to recording of the final plat:
- i. Construction of urban standard frontage improvements on 180th Street SE shall have been completed and approved by the county.
- E. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

Decision issued this 2nd day of November, 2006.
