INTRODUCTION

The applicant filed the Master Application on January 13, 2006. (Exhibit 1)

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 17, 18 and 19)

A SEPA determination was made on July 28, 2006. (Exhibit 16) No appeal was filed.

The Examiner held an open record hearing on August 23, 2006, the 83rd day of the 120-day decision making period. Witnesses were sworn, testimony was presented and exhibits were entered at the hearing.

PUBLIC HEARING

The public hearing commenced on August 23, 2006 at 10:03 a.m.

1. The Examiner announced that he has read the PDS staff report, reviewed the file and viewed the area and therefore was generally apprised of the particular request involved.
2. The applicants, Todd and Gill McNeal, were represented by Jake Libaire of Higa Burkholder Associates. Snohomish County was represented by Paul Lichter of the Department of Planning and Development Services.
3. No member of the public attended the hearing. However, a pre-hearing letter was submitted by a vicinity resident. Writer Robert P. Sperber asserts that this is an attempt to "...sardine 10 homes and associated parking..." on less than an acre is a mistake and is a "...mini-city jammed into this space." He points out that there are no sidewalks and many children walking to school.
4. The hearing concluded at 10:13 a.m.

NOTE: For a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Policy Act (SEPA). That staff report is hereby adopted by the Examiner as if set forth in full herein.
3. The request is for a rezone of .92 acres from R-7,200 to LDMR. No critical area (steep slope, wetland, or stream) is on or near the site.
4. The applicants, Todd and Gill McNeal, via their agent, Jake Libaire, testified that the requested rezone will increase the density of the site from the five dwelling units to ten units.
5. The issues raised by concerned residents about to public safety for drivers and walkers and related concerns will be addressed at the development proposal stage. The Hearing Examiner can condition or deny a rezone if there is substantial evidence in the record of the need to do so in the interest of the public health, safety and welfare. However, no evidence supporting conditioning or denial is presented in this record.
6. The subject site and the surrounding community are zoned a mixture of R-7,200 and LDMR. Single-family residential subdivisions predominate.
7. Chapter 30.42A covers rezoning requests and applies to site specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) The proposal is consistent with the comprehensive plan;
- (2) the proposal bears a substantial relationship to the public health, safety, and welfare;
and
- (3) where applicable, minimum zoning criteria found in chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements generally and should be approved.

8. There are no mitigation requirements required for parks, schools or roads and the DPW has no comments or objections but will provide its input during the short plat approval process.
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished.

10. Public water, sewer service and electrical power will be available for this development.
11. The property is designated Urban Medium Density Residential (UMDR 6-12 du/ac) on the General Policy Plan (GPP) Future Land Use Map (FLUM) and is located within an Urban Growth Area (UGA). According to the GPP, the Urban Medium Density Residential designation "covers various sub-area plan designations which allow a combination of detached homes on small lots, townhouses, and apartments in low density, multifamily residential developments. Land in this category may be developed at a density of 6-12 du/ac and one of the implementing zones is the LDMR zone which is the case here.
12. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
13. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The request is for a rezone and, therefore, must be consistent with the GMACP; GMA based county codes. In this regard, the request is consistent with those plans and codes. The type and character of land use permitted on the project site is consistent with the General Policy Plan (GPP) ULDR designation of the property and meets the required regulatory codes as to density, design and development standards.
3. The request would allow for 10 residences instead of the five allowed as now zoned.
4. The request is for a rezone and therefore must comply with Chapter 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan. Because no substantial evidence was submitted contrary to the requirements of Chapter 30.42A, the evidence is presumed to meet these requirements.
5. The request should be approved as submitted.
6. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a rezone from Residential-7,200 to Low Density Multiple Residential for this property is hereby **APPROVED**.

Decision issued this 5th day of September, 2006.

Ed Good, Deputy Hearing Examiner
