**FINDINGS, CONCLUSIONS AND DECISION**

**FINDINGS:**

- 1. Based on all of the evidence of record, the following Findings of Fact are entered:
- 2. The master list of Exhibits and Witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file, as if set forth in full herein.
- 3. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application’s consistency with adopted codes and policies and land use regulations, and the State Environmental Protection Act (SEPA) evaluation with its recommendation and conditions. This report is hereby adopted by the Examiner as if set forth in full herein unless otherwise stated below.
- 4. The school bus will stop at the entrance to the subdivision, which will be gated. Frontage improvements will provide a safe place for students waiting for the bus.

6. Any Finding of Fact in this Report and Decision, which should be deemed a Conclusion, is hereby adopted as such.

**CONCLUSIONS of LAW:**

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to certain conditions.
3. The request is consistent with the GMACP; GMA-based County codes; and the type and character of land use permitted on the site and the permitted density with the applicable design and development standards.
4. Any Conclusion in this Report and Decision, which should be deemed a Finding of Fact, is hereby adopted as such.

**DECISION:**

Based on the Findings of Fact and Conclusions of Law entered above, the decision of the Hearing Examiner Pro Tem on the application is as follows:

The requests for approval of a 17 lot **RURAL CLUSTER SUBDIVISION** is hereby **APPROVED**, subject to compliance by the applicant with the following Conditions:

**CONDITIONS**

- A. The preliminary plat received by PDS on December 4, 2006 (Exhibit 11) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:
  - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.
  - ii. The plattor shall mark with temporary markers in the field the boundary of all Native Growth Protection Areas (NGPA) required by Chapter 30.62 SCC, or the limits of the proposed site disturbance outside of the NGPA, using methods and materials acceptable to the county.
- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
  - i. “The lots within this subdivision will be subject to school impact mitigation fees for the Granite Falls School District No. 332 to be determined by the certified amount within the Base Fee

Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for 3 existing parcel(s). Lots 1 through 3 shall receive credit.”

- ii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$3,799.29 per lot for mitigation of impacts on county roads paid to the county,  
\$1,250.00 per lot for mitigation of impacts on city roads paid to Granite Falls.

These payments are due prior to or at the time of each building permit issuance. Notice of these mitigation payments shall be contained in any deeds involving this short subdivision of the lots therein. Once building permits have been issued all mitigation payments shall be deemed paid by PDS.

- iii. Duplexes are not allowed on any lot without additional DPW review.
- iv. Access to all lots is restricted to the private road.
- v. 10 feet and 20 feet of property shall be dedicated on the east side of the existing right-of-way, to total 40 feet of right-of-way east of the Jordan Road right-of-way centerline.
- vi. All Critical Areas shall be designated Native Growth Protection Areas (NGPA) (unless other agreements have been made) with the following language on the face of the plat;  
  
"All NATIVE GROWTH PROTECTION AREAS shall be left permanently undisturbed in a substantially natural state. No clearing, grading, filling, building construction or placement, or road construction of any kind shall occur, except removal of hazardous trees. The activities as set forth in SCC 32.10.110(29)(a), (c), and (d) are allowed when approved by the County."  
  
vii. The developer shall pay the County \$48.82 per new dwelling unit as mitigation for parks and recreation impacts in accordance with Chapter 30.66A SCC; provided, however, the developer may elect to postpone payment of the mitigation requirement until issuance of a building permit for that lot. The election to postpone payment shall be noted by a covenant placed on the face of the recorded plat and included in the deed for each affected lot within the subdivision.

D. Prior to recording of the final plat:

- i. Rural standard frontage improvements shall have been constructed along the property frontage with Jordan Road unless bonding of improvements is allowed by PDS, in which case construction is required prior to any occupancy of the development.
- ii. The private road shall have been constructed per EDDS 3-090, private rural subcollector road.
- iii. The gate on the private road shall be shown on the construction plans with the same queuing length and turnaround as was shown on the plan received by PDS on December 4, 2006.
- iv. Native Growth Protection Area boundaries (NGPA) shall have been permanently marked on the site prior to final inspection by the county, with both NGPA signs and adjacent markers which can be magnetically located (e.g.: rebar, pipe, 20 penny nails, etc.). The platator may use other

permanent methods and materials provided they are first approved by the county. Where an NGPA boundary crosses another boundary (e.g.: lot, tract, plat, road, etc.), a rebar marker with surveyors' cap and license number must be placed at the line crossing.

NGPA signs shall have been placed no greater than 100 feet apart around the perimeter of the NGPA. Minimum placement shall include one Type 1 sign per wetland, and at least one Type 1 sign shall be placed in any lot that borders the NGPA, unless otherwise approved by the county biologist. The design and proposed locations for the NGPA signs shall be submitted to the Land Use Division for review and approval prior to installation.

- v. Where existing conditions fail to meet the function of the Vegetated Visual Screening Buffer, as shown on the preliminary plat sheet (Exhibit 11), supplemental plantings of native vegetation shall be made. The visual screening buffer shall consist of trees planted 10 feet on center and shrubs planted 3 feet on center. A minimum of 75% of the trees shall be conifers.

E. In conformity with applicable standards and timing requirements:

- i. The preliminary landscape plan (Exhibit 11) shall be implemented. All required detention facility landscaping shall be installed in accordance with the approved landscape plan.

F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

Decision issued this 15<sup>th</sup> day of March, 2007.
