PUBLIC HEARING

The public hearing commenced on April 3, 2007 at 1:01 p.m.

1. The Examiner announced that he had read the PDS staff report, reviewed the file and viewed the area and therefore was generally apprised of the particular request involved.
2. The applicant, Carter's Gove, LLC, was represented by Stephen Mason of Harmsen and Associates. Snohomish County was represented by Ed Caine of the Department of Planning and Development Services.
3. No member of the general public participated in this matter.

The hearing concluded at 1:11 p.m.

NOTE: For a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file, as if set forth in full herein.

2. The applicant, Carter's Grove, LLC, filed an application for a 17-lot rural cluster subdivision on approximately 57 acres zoned R-5 on the south side of 115th Avenue NE, Lake Stevens. The site is approximately one-eighth of a mile east of the intersection of 115th Avenue NE and 84th Street NE.
3. Adjacent uses are also zoned R-5 and are either undeveloped or developed as single-family dwellings.
4. The proposed subdivision will generate 163 average weekday daily trips, of which 13 are a.m. peak-hour trips and 17 are p.m. peak-hour trips. The Marysville School District requests a waiting area for students of all grades who will be served by a bus at a stop at the entrance to the development (Exhibit 21).
5. PDS Traffic reviewed the request with regard to traffic mitigation and road design standards. This review covered Title 13 SCC and Chapter 30.66B SCC as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of that review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions.
6. The project would comply with park mitigation requirements under Chapter 30.66A SCC by the payment of \$48.82 for each new single-family home.
7. School mitigation requirements under Chapter 30.66C SCC have been reviewed and set forth in the conditions.
8. There are critical areas on site consisting of a Category 2 wetland with an associated Type 4 stream and seven Category 3 wetlands. Critical areas have been provided with appropriate buffers, mitigation has been provided, and the areas will be designated as NGPA/E.
9. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC.
10. The Snohomish County Health District has no objection to this proposal because will-serve letters are of record as to water, septic drainfields and electricity (Exhibits 18 and 19).
11. The subject property is designated Rural Residential -5 on the GPP Future Land Use map, and is not located within an Urban Growth Area (UGA). It is not located within a mapped Growth Phasing Overlay. According to the GPP, the Rural Residential-5 designation applies to lands which were previously designated Rural by various subarea plans and have been subsequently zoned R-5. The implementing zone in this designation will continue to be the R-5 zone.
12. The proposed use (single-family detached development) is essentially compatible with existing single-family detached developments on larger lots. A comparison with the present lower density character of much of the area is inappropriate since the present density of development in much of the surrounding area is inconsistent with both the adopted comprehensive plans and the present zoning.

13. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC as well as the State Subdivision Code, RCW 58.17. The proposed plat complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students. A complete application for the proposed plat was received by PDS on May 31, 2005. The proposed plat as conditioned also meets the general requirements under Section 30.41A.100 with respect to health, safety and general welfare of the community as noted in this report. As proposed, the subject lots will not be subject to flood, inundation or swamp conditions. The lots as proposed are outside of all regulated flood hazard areas. As conditioned, the plat will meet all SCC 30.41A.210 design standards for roads.
14. The subject rural cluster subdivision (RCS) application has been reviewed for conformance with the RCS standards in Chapter 30.41C SCC. The applicant has provided the information required on an RCS development plan and preliminary plat, the latest versions of which were received by PDS on February 1, 2006 (Exhibit 15), and in an open space management plan (Exhibit 8) that is to be implemented by a homeowners' association. The RCS application meets all of the criteria required for preliminary approval listed in SCC 30.41C.200.
15. The request is consistent with Section 30.70.100 SCC, which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP and GMA-based county codes.
16. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their relationship to the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to conditions specified below herein.
3. The request is consistent with the (1) GMACP, GMA-based County codes, (2) the type and character of land use permitted on the site, (3) the permitted density, and (4) the applicable design and development standards.
4. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a 17-lot rural cluster subdivision on 56.7 acres is hereby **CONDITIONALLY APPROVED**, subject to compliance by the applicant with the following conditions:

CONDITIONS

- A. The preliminary plat received by PDS on January 29, 2007 (Exhibit 8 A, B, and C) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:
 - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.
 - ii. The plat shall mark with temporary markers in the field the boundary of all Native Growth Protection Areas (NGPA) required by Chapter 30.62 SCC, or the limits of the proposed site disturbance outside of the NGPA, using methods and materials acceptable to the county.
 - iii. A final mitigation plan based on the *Critical Areas Study and Buffer Mitigation Plan* prepared by Wetland Resources dated January 29, 2007, (Exhibit 7) shall be submitted for review and approval during the construction review phase of this project.
- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
 - i. "The lots within this subdivision will be subject to school impact mitigation fees for the Marysville School District No. 25 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for 2 existing parcels. Lots 1 and 2 shall receive credit."
 - ii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$3,799.29 per lot for mitigation of impacts on county roads paid to the county,

The developer of this subdivision has elected to defer these payment obligations to a time preceding building permit issuance. Notice of these mitigation payment obligations shall be contained in any deeds involving this subdivision or the lots therein. Once building permit has been issued all mitigation payments shall be deemed paid.
 - iii. Thirty feet of right-of-way shall be dedicated to Snohomish County, parallel and adjoining the existing right-of-way along the parcel's frontage on south side of 115th Avenue NE and 92nd Street NE on the final recorded plat [SCC 26B.55.060].

- iv. All Critical Areas shall be designated Native Growth Protection Areas (NGPA) (unless other agreements have been made) with the following language on the face of the plat;

"All NATIVE GROWTH PROTECTION AREAS shall be left permanently undisturbed in a substantially natural state. No clearing, grading, filling, building construction or placement, or road construction of any kind shall occur, except removal of hazardous trees. The activities as set forth in SCC 30.91N.010 are allowed when approved by the County."

- v. The developer shall pay the County \$48.82 per new dwelling unit as mitigation for parks and recreation impacts in accordance with Chapter 30.66A SCC; provided, however, the developer may elect to postpone payment of the mitigation requirement until issuance of a building permit for that lot. The election to postpone payment shall be noted by a covenant placed on the face of the recorded plat and included in the deed for each affected lot within the subdivision.

D. Prior to recording of the final plat:

- i. Rural frontage improvements shall be constructed along the parcel's frontage on 115th Avenue NE to the specifications of the DPW [SCC 30.66B.410].
- ii. Pedestrian Facilities shall be constructed to the specifications of the DPW from 115th Avenue NE to Road B [EDDS].
- iii. Native Growth Protection Area boundaries (NGPA) shall have been permanently marked on the site prior to final inspection by the county, with both NGPA signs and adjacent markers which can be magnetically located (e.g.: rebar, pipe, 20 penny nails, etc.). The platator may use other permanent methods and materials provided they are first approved by the county. Where an NGPA boundary crosses another boundary (e.g.: lot, tract, plat, road, etc.), a rebar marker with surveyors' cap and license number must be placed at the line crossing.

NGPA signs shall have been placed no greater than 100 feet apart around the perimeter of the NGPA. Minimum placement shall include one Type 1 sign per wetland, and at least one Type 1 sign shall be placed in any lot that borders the NGPA, unless otherwise approved by the county biologist. The design and proposed locations for the NGPA signs shall be submitted to the Land Use Division for review and approval prior to installation.

- iv. The final wetland mitigation plan shall be completely implemented.

E. In conformity with applicable standards and timing requirements, the preliminary landscape plan (Exhibit 8G) shall be implemented. All required detention facility landscaping shall be installed in accordance with the approved landscape plan.

F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

Decision issued this 13th day of April, 2007.
