INTRODUCTION

The applicant filed the Master Application on August 16, 2006. (Exhibit 1)

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 16, 17 and 18)

A SEPA determination was made on June 21, 2007. (Exhibit 15) No appeal was filed.

The Examiner held an open record hearing on August 1, 2007, the 79th day of the 120-day decision making period.

PUBLIC HEARING

The public hearing commenced on August 1, 2007 at 1:04 p.m.

1. The Examiner stated that he had read the PDS staff report, reviewed the file and viewed the area.
2. The applicant, Richard Lord of Lord Enterprises, was represented by Jesse Jarrell of Western Engineers. Snohomish County was represented by David Radabaugh of the Department of Planning and Development Services. No member of the general public attended the hearing. Nearly one year before the hearing, vicinity resident Bruce T. Henshaw had submitted the first of two written expressions of concern about an existing access easement serving him across the subject site. The applicant's representative testified that Mr. Henshaw's easement is shown on the southern 30 feet of the property and will remain available to Mr. Henshaw. Thus, the Examiner finds there are no issues unresolved raised by the general public herein.
3. The hearing concluded at 1:23 p.m.

NOTE: For a complete record, an electronic recording of this hearing is available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.
2. The applicants, Richard Lord, filed an application requesting approval of a rezone of an acre parcel from R-9,600 to R-7,200. The purpose of the proposed rezone is to create a three-lot subdivision with two duplex dwellings on each lot. Thus, six households will be on-site instead of the current one household.

3. The Examiner's pre-hearing site visit convincingly demonstrates that the local roadways can absorb the additional traffic caused by the five additional dwellings that would be allowed by approval of the requested rezone.
4. The subject site and the surrounding community are zoned R-9,600 but for the site immediately north of the subject site which was recently rezoned to the same R-7,200 requested herein.
5. There is no critical area (steep slope, wetland, or stream) on or near the site.
6. No evidence in this record demonstrates any reason why the Hearing Examiner should condition or deny this application in the interest of the public health, safety or welfare. Because the subject site is only one acre, access and vicinity roads are adequate, and no public opposition raised concerns, the Examiner feel it is expedient and appropriate to not remand for the in-depth analysis usually required of rezones.
7. There is no mitigation required for parks, schools or roads and the DPW has no comments or objections but will provide its input during the short plat approval process.
8. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished.
9. Public water, sewer service and electrical power will be available for this development.
10. The property is designated Urban Low Density Residential (ULDR 4-6 du/ac) on the General Policy Plan (GPP) Future Land Use Map (FLUM) and is located within an Urban Growth Area (UGA). According to the GPP, the ULDR designation covers various subarea plan designations which would allow mostly detached housing developments on larger lot sizes. Land in this category may be developed at a density of 4-6 du/ac and one of the implementing zones is the R-7,200 zone which is the case here.
11. The request is consistent with Section 30.70.100 SCC which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP and GMA-based county codes.
12. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

Based on the findings of fact entered above, the following conclusions of law are entered.

1. The Examiner having fully reviewed the PDS staff report hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The request is for a rezone and, therefore, must be consistent with the GMACP; GMA based county codes. In this regard, the request is consistent with those plans and codes. The type and character of land use permitted on the project site is consistent with the General Policy Plan (GPP) ULDR designation of the property and meets the required regulatory codes as to density, design and development standards.

3. A rezone must also comply with SCC 30.42A. This is a site specific rezone that conforms to the Comprehensive Plan. Because no substantial evidence was submitted of non-compliance with the requirements of Chapter 30.42A, the application is presumed to meet those requirements.
4. Chapter 30.42A covers rezoning requests and applies to site specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provides as follows:

The hearing examiner may approve a rezone only when all the following criteria are met:

- (1) The proposal is consistent with the comprehensive plan;
- (2) the proposal bears a substantial relationship to the public health, safety, and welfare;
and
- (3) where applicable, minimum zoning criteria found in chapters 30.31A through 30.31F SCC are met.

It is the finding of the Examiner that the request meets these requirements and should be approved.

5. The request should be approved as submitted. The application was caught in a transition by which more detailed review of rezones is now required. That greater detail is clearly consistent with the law of both the State of Washington and Snohomish County but no public benefit would be gained by the remand of this simple application for additional study of non-issues.
6. Any conclusion in this decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a rezone from Residential-9,600 to Residential-7,200 for this property is hereby **APPROVED**.

Decision issued this 31st day of August, 2007.

Ed Good, Deputy Hearing Examiner
