INTRODUCTION

The applicant filed the Master Application on September 7, 2006. (Exhibit 1)

The Hearing Examiner (Examiner) made a site familiarization visit on April 10, 2007 in the morning.

The Department of Planning and Development Services (PDS) gave proper public notice of the open record hearing as required by the county code. (Exhibits 19, 20 and 21)

A SEPA determination of nonsignificance was made on February 27, 2007. (Exhibit 11) No appeal was filed.

The Examiner held an open record hearing on April 11, 2007, the 77th day of the 120-day decision making period. Witnesses were sworn, testimony was presented, and exhibits were entered at the hearing.

PUBLIC HEARING

The public hearing commenced on April 11, 2007 at 9:00 a.m.

1. The Examiner indicated that he has read the PDS staff report, reviewed the file and viewed the area and therefore has a general idea of the particular request involved.
2. There was no opposition to the proposal at the open record hearing.
3. Applicant asked if it could pay the County for some road improvements instead of being required to construct them, where the County had an improvement project. This possibility will be explored and determined during engineering review.

The hearing concluded at 9:09 a.m.

NOTE: The above information reflects the information submitted to the Examiner summarizing the statements that were made at the hearing. However, for a full and complete record, verbatim audio tapes of the hearing are available in the Office of the Hearing Examiner.

FINDINGS, CONCLUSIONS AND DECISION

FINDINGS:

1. The master list of Exhibits and Witnesses which is a part of this file and which exhibits were considered by the Examiner, is hereby made a part of this file, as if set forth in full herein.
2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Protection Act (SEPA) evaluation with its recommendation and conditions. This report is hereby adopted by the Examiner as if set forth in full herein.
3. No comments were received from the public.
4. The project would comply with park mitigation requirements under Chapter 30.66A SCC (Title 26A SCC) by the payment of \$1,244.49 for each new single-family home.
5. The DPW reviewed the request with regard to traffic mitigation and road design standards. This review covered Title 13 SCC and Chapter 30.66B SCC (Title 26B SCC) as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions. (Exhibit 20)
6. School mitigation requirements under Chapter 30.66C SCC (Title 26C SCC) have been reviewed and set forth in the conditions.
7. A Type 3 stream and associated wetland is located on the site, which will remain undisturbed and protected as a Native Growth Protection Area (NGPA) in accordance with Chapter 30.62 SCC (Chapter 32.10 SCC) Critical Area Regulations.
8. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC (Title 24 SCC).
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished. Any existing on-site septic systems shall be abandoned.
10. Public water and sewer service will be available for this development as well as electrical power.
11. The property is designated Urban Low Density Residential (ULDR 4-6 du/ac) on the General Policy Plan (GPP) Future Land Use Map (FLUM) and is located within an Urban Growth Area (UGA). According to the GPP, the ULDR designation covers various subarea plan designations which would allow mostly detached housing developments on larger lot sizes. Land in this category may be developed at a density of 4-6 du/ac and one of the implementing zones is the R-7,200 zone which is the case here.
12. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC (Title 19 SCC) as well as the State Subdivision Code, RCW 58.17. The proposed plat complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable

water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.

13. The proposal has been evaluated by PDS for compliance with the lot size averaging provisions of SCC 30.41A.240 and SCC 30.23.210. This proposal is consistent with these provisions.
14. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
15. The aerial photograph (Exhibit 9) very clearly and effectively shows the location of the proposal and how it would fit into the surrounding area.
16. School children will be picked up by a bus at the entrance to the subdivision.
17. Any Finding of Fact in this Report and Decision, which should be deemed a Conclusion, is hereby adopted as such.

CONCLUSIONS:

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their effect upon the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to certain conditions.
3. The request is consistent with the GMACP; GMA-based County codes; and the type and character of land use permitted on the site and the permitted density with the applicable design and development standards.
4. The request should be approved subject to compliance by the applicant with the following Conditions:

CONDITIONS

- A. The preliminary plat received by PDS on January 26, 2007 (Exhibit 12) shall be the approved plat configuration. Changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:
 - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.
 - ii. The plattor shall mark with temporary markers in the field the boundary of all Native Growth Protection Areas (NGPA) required by Chapter 30.62 SCC, or the limits of the proposed site disturbance outside of the NGPA, using methods and materials acceptable to the county.

- iii. A final mitigation plan based on the *Critical Areas Study and Buffer Averaging Plan* prepared by Wetland Resources dated January 10, 2007 (Exhibit 17) shall be submitted for review and approval during the construction review phase of this project.

C. The following additional restrictions and/or items shall be indicated on the face of the final plat:

- i. "The lots within this subdivision will be subject to school impact mitigation fees for the Northshore School District No. 417 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for one existing parcel. Lot 1 of Phase I shall receive credit."
- ii. "The dwelling units within this development are subject to park impact fees in the amount of \$1,244.49 per newly approved dwelling unit pursuant to Chapter 30.66A. Payment of these mitigation fees is required prior to building permit issuance; provided that the building permit has been issued within five years after the application is deemed complete. After five years, park impact fees shall be based upon the rate in effect at the time of building permit issuance".
- iii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$2,427.41 per lot for mitigation of impacts on county roads paid to the county,

\$284.52 per lot for mitigation of impacts on the City of Mill Creek streets paid to the city.

The developer of this subdivision has elected to defer these payment obligations to a time preceding building permit issuance. Notice of these mitigation payment obligations shall be contained in any deeds involving this subdivision or the lots therein. Once building permit has been issued all mitigation payments shall be deemed paid.

- iv. All Critical Areas shall be designated Native Growth Protection Areas (NGPA) (unless other agreements have been made);

"All NATIVE GROWTH PROTECTION AREAS shall be left permanently undisturbed in a substantially natural state. No clearing, grading, filling, building construction or placement, or road construction of any kind shall occur, except removal of hazardous trees. The activities as set forth in SCC 30.91N.010 are allowed when approved by the County."

D. Prior to recording of the final plat:

- i. Construction of urban standard frontage improvements on 35th Ave SE and 180th Street SE Avenue SE shall have been completed.
- ii. Native Growth Protection Area boundaries (NGPA) shall have been permanently marked on the site prior to final inspection by the county, with both NGPA signs and adjacent markers which can be magnetically located (e.g.: rebar, pipe, 20 penny nails, etc.). The plat may use other permanent methods and materials provided they are first approved by the county. Where an NGPA boundary crosses another boundary (e.g.: lot, tract, plat, road, etc.), a rebar marker with surveyors' cap and license number must be placed at the line crossing.

NGPA signs shall have been placed no greater than 100 feet apart around the perimeter of the NGPA. Minimum placement shall include one Type 1 sign per wetland, and at least one Type 1

sign shall be placed in any lot that borders the NGPA, unless otherwise approved by the county biologist. The design and proposed locations for the NGPA signs shall be submitted to the Land Use Division for review and approval prior to installation.

iii. The final wetland mitigation plan shall be completely implemented.

E. In conformity with applicable standards and timing requirements:

i. The preliminary landscape plan (Exhibit 14) shall be implemented. All required detention facility landscaping shall be installed in accordance with the approved landscape plan.

F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Preliminary plats which are approved by the county are valid for five (5) years from the date of approval and must be recorded within that time period unless an extension has been properly requested and granted pursuant to SCC 30.41A.300.

5. Any Conclusion in this Report and Decision, which should be deemed a Finding of Fact, is hereby adopted as such.

DECISION:

The request for a approval of a **PRELIMINARY PLAT** is hereby **APPROVED**, subject to compliance by the applicant, with the **CONDITIONS** set forth in Conclusion 4, above.

Decision issued this 17th day of April, 2007.
