FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all of the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.

2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Policy Act (SEPA). That report is hereby adopted by the Examiner as if set forth in full herein unless otherwise stated below.
3. The applicant, Legacy Homes NW, Inc., filed an application for approval of a nine-lot short subdivision as a planned residential development (PRD) on approximately 1.76 acres in Mill Creek's urban growth area. Mill Creek's Senior Planner, Cari Hornbein, complements the applicant for providing usable open space for the benefit of residents (Exhibit 21).
4. The project would comply with park mitigation requirements under Chapter 30.66A SCC by the payment of \$1,244.49 for each new single-family home.
5. Vehicular access to the proposed development is via a new public street within the subdivision connecting to 161st Street SE and Strumme Road. The proposal would generate 86 average daily vehicular trips, of which approximately six would be a.m. peak-hour trips and eight would be p.m. peak-hour trips. The DPW reviewed the request with regard to traffic mitigation and road design standards. That review covered Title 13 SCC and Chapter 30.66B SCC as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions.
6. School mitigation requirements under Chapter 30.66C SCC have been reviewed and set forth in the conditions. All levels of public school students will be served by a bus stop at 161st Street SE and Sunset Road. No offsite walkways are needed for the safety of the students.
7. Single-family residential development lies to the north and west. A Seattle City Light transmission line easement lies on the east. On the immediate south is the proposed 14-lot plat of Sunset Pointe (05-126770), also a planned residential development subdivision.
8. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC.
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished.
10. Public water and sewer service will be supplied to this development by the Silver Lake Water District (Exhibit 23). Electricity will be supplied by Snohomish County PUD No. 1 (Exhibit 24).
11. The subject property is designated Urban Low Density Residential (ULDR: 4-6 du/ac) on the GPP Future Land Use map, and is located within an Urban Growth Area (UGA). It is not located within a mapped Growth Phasing Overlay. According to the GPP, the Urban Low Density Residential designation covers various sub-area plan designations, which allow mostly detached housing developments on larger lot sizes. Land in this category may be developed at a density of four to six dwelling units per acre. Implementing zones include the R-7,200, which is the case here.

12. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
13. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their relationship to the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to certain conditions.
3. The request is consistent with the (1) GMACP, GMA-based County codes, (2) the type and character of land use permitted on the site, (3) the permitted density, and(4) the applicable design and development standards.
4. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC (Title 19 SCC) as well as the State Subdivision Code, RCW 58.17 and with the Planned Residential Development provisions of SCC 30.42B. The proposed subdivision complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.
5. Any conclusion in this report and decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a 9-lot Planned Residential Development Subdivision on 1.75 acres **CONDITIONALLY APPROVED**, subject to the following conditions:

CONDITIONS

- A. The Preliminary Short Plat, received by Planning and Development Services (PDS) on April 13, 2007 (Exhibit 13A) shall be the approved short plat configuration. Changes to approved preliminary short plats are governed by SCC 30.41B.310. The PRD Site Plan received by PDS on April 13, 2007 (Exhibit 13A) and Detailed Landscape and Recreation approved per condition B. i., below, shall constitute the PRD Official Site Plan. Changes to the PRD Official Site Plan are governed by SCC 30.42B.220.

- B. Prior to initiation of any further site work, and/or prior to issuance of any development permits by the county;
- i. A detailed landscape, tree retention and recreational facilities plan shall have been submitted to and approved by PDS. The plan shall be prepared in general conformance with Exhibits 13C & 13D and with all required landscape standards for perimeter, streetscape and open space treatment.
 - ii. The civil drawings submitted to and approved by PDS shall be consistent with the significant tree retention plan and show how the trees earmarked for preservation are to be protected during construction.
 - iii. A bond or other guarantee of performance shall have been submitted to and accepted by PDS to assure compliance with the provisions of SCC 30.42B.125(5)(b) and SCC 30.42B.210(3) (PRD development and landscaping).
- C. The following additional restrictions and/or items shall be indicated on the face of the final plat:
- i. SCC Title 30.66B requires the new lot mitigation payments in the amounts shown below for each single-family residence building permit:
\$2,427.43 per lot for mitigation of impacts on county roads paid to the county,
\$563.34 per lot for mitigation of impacts on Mill Creek roads paid to the city.

Notice of these mitigation payment obligations shall be contained in any deeds involving this subdivision or the lots therein. Once building permit has been issued all mitigation payments shall be deemed paid.
 - ii. 15 feet of property shall be dedicated on the west side of the right-of-way centerline of Sunset Road, to total 35 feet.
 - iii. 16 feet of property shall be dedicated on the north side of the existing right-of-way of Strumme Road, to total 51 feet.
 - iv. Dedication of additional right-of-way that is tangent to the ultimate right-of-way on Strumme Road and Sunset Road with sufficient right-of-way to construct a 35-foot radius curb return is required.
 - v. All development within the plat is to be consistent with the PRD Official Site Plan approved under file number 06-130607 SP.
 - vi. All open space shall be protected as open space in perpetuity. Use of the open space tracts within this subdivision is restricted to those uses approved for the planned residential development, to include any critical areas and their buffers, open play areas, sport courts, tot lots, trails, drainage facilities, picnic tables, benches, and required landscape improvements as shown on the approved site plan and the approved landscape plan. Covenants, conditions and restrictions as recorded with the plat, and as may be amended in the future, shall include provisions for the continuing preservation and maintenance of the uses, facilities and landscaping within the open space as approved and constructed.

- vii. The dwelling units within this development are subject to park impact fees in the amount of \$1,244.49 per newly approved dwelling unit, as mitigation for impacts to the Nakeeta Beach park service area of the County parks system in accordance with SCC 30.66A. Payment of these mitigation fees is required prior to building permit issuance, provided that the building permit is issued by January 9, 2012 (5 years after the completeness date of the subject application). After this date, park impact fees shall be based upon the rate in effect at the time of building permit issuance.
- viii. The lots within this subdivision will be subject to school impact mitigation fees for the Everett School District to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for 1 existing lot. Lot 1 (containing the existing single family residence) shall receive credit.
- ix. In accordance with SCC 30.42B.150(1)(d), floor plans and street elevations of the proposed single family homes in the plat shall be designed to reduce the visual impact of the garage doors and emphasize the entry living space.

D. Prior to recording of the final plat:

- i. The applicant shall submit to PDS covenants, deeds, and homeowners' association bylaws, and other documents guaranteeing maintenance of landscaping, commonly owned tracts and common fee ownership, if applicable, and restricting use of the tracts to that specified in the approved PRD Official Site Plan. Membership in the homeowners association and payment of dues or other assessments for maintenance purposes shall be a requirement of home ownership. The documents shall have been reviewed by and accompanied by a certificate from an attorney that they comply with Chapter 30.42B SCC requirements prior to approval by PDS.
- ii. Site improvements and landscaping depicted on the approved site and landscape plans shall be installed, inspected and approved unless PDS approves deferral until building occupancy and a bond or other guarantee of performance is submitted to and accepted by PDS.
- iii. Urban standard frontage improvements shall be constructed along the property frontage with 161st Street SE, Sunset Road, and Strumme Road unless bonding of improvements is allowed by PDS, in which case construction is required prior to any occupancy of the development. [SCC 30.66B.410]

E. Prior to occupancy of any unit in the PRD:

- i. The applicant shall provide a maintenance bond for required landscape improvements, in an amount and form satisfactory to PDS.

Preliminary short plats which are approved by the county are valid for five (5) years from their effective date and must be recorded within that time period unless an extension has been properly requested and granted pursuant to Section 30.41B.300

Decision issued this 13th day of July, 2007.
