BACKGROUND INFORMATION

1. The Record. The official record for this proceeding consists of the Exhibits entered into evidence (Exhibits A.1 through J.1), as well as the testimony of witnesses received at the open record hearing. The entire record was admitted into evidence and considered by the Examiner in reaching the decision herein.

NOTE: For a complete record, an electronic recording of the hearing in this case and the Hearing Log are available at the Hearing Examiner's Office.
2. Parties of Record. The Parties of Record are set forth in the Parties of Record Register and include interested parties who testified at the Open Record Hearing.
3. Public Hearing. A public hearing was held on March 27, 2013. Witnesses were sworn, testimony was presented, and exhibits were entered into the record at the hearing. Notices of the application and public hearing were issued according to the provisions of SCC 30.70.050. (Exhibits E.1, E.2 and J.1)
4. Site Visit. The Examiner conducted a site visit to the subject property on March 22, 2013.

FINDINGS OF FACT

The following Findings of Fact are supported by a preponderance of the evidence presented in the record pertaining to this matter.

1. Applicant's Request. The Applicant is requesting a rezone of a relatively small portion (0.44 acres) of the site it owns from Residential 7200 (R-7200) to Multiple Residential (MR). The remainder of the 2.33 acre site is already zoned MR. The Applicant has also submitted an application for an administrative site plan approval for a 26 unit single-family detached unit (SFDU) development on the entire site which will be processed separately as a Type 1 administrative decision rendered by the Planning and Development Services Department (PDS). Because SFDUs are not allowed in the R-7200 zone, the rezone is necessary in order for the Applicant to achieve its proposed density.
2. Site description. The subject site is currently unoccupied and is accessed off Center Road in the unincorporated Everett area. The site is long and narrow and is relatively flat; the steepest slope being approximately 15 percent. The property was disturbed in the past and no native vegetation remains.
3. Adjacent uses. The site is in an area of single-family residences, townhouses, and multi-family developments. Zoning in the surrounding areas include R-7200, MR, and T (Townhouse). Commercial zones are located approximately 1,500 feet to the west and the City of Everett limit lies approximately 2,000 feet to the west.
4. Project Chronology. The rezone application was originally submitted to PDS on September 26, 2012 and was determined to be complete as of the date of submittal for regulatory purposes. A resubmittal of the application was received on February 13, 2013. As of the hearing date, 114 days of the 120-day review period will have elapsed. The Applicant was notified that the decision will be rendered outside of 120 day review period.

5. State Environmental Policy Act Compliance. A SEPA threshold Determination of Nonsignificance (DNS) was made on March 3, 2013. (Exhibit D.1) Notice of the decision was made according to the County's regulations. (Exhibits E.1, E.2, and J.1) No appeal of the SEPA determination was filed. Accordingly, the Examiner finds that compliance with the substantive and procedural requirements of SEPA have been met.
6. Issues of Concern. Correspondence from three citizens was received by PDS (Exhibit F.1). These commenters included Myrna Spoon, Judi Johnson and Stephanie Schindler. They expressed concerns regarding possible prior contamination of the site, traffic analysis and rat control during construction. These are matters that will be addressed by PDS in its review of the 26 SFDU development proposed for the Applicant's entire site (the majority of which is not subject to the rezone currently under consideration).
7. Rezone Criteria. Chapter 30.42A SCC covers rezoning requests and applies to site-specific rezone proposals that conform to the Comprehensive Plan. The decision criteria under SCC 30.42A.100 provide that the Hearing Examiner may approve a rezone only when all the following criteria are met: (1) The proposal is consistent with the comprehensive plan; (2) The proposal bears a substantial relationship to the public health, safety, and welfare; and (3) Where applicable, minimum zoning criteria found in chapters 30.31A through 30.31F SCC are met. The Examiner considers each criterion in turn.

A. The proposal is consistent with the comprehensive plan.

- (i) In the context of the Growth Management Act, development regulations and, therefore, rezones must be consistent with and implement the Comprehensive Plan. (RCW 36.70.040) But in the context of site-specific rezones, the inquiry goes beyond mere consistency with the map designation of the comprehensive plan - as the Snohomish County Council explained in Motion 07-447, "The Comprehensive Plan is the most direct expression of public policy in the area of land use. In determining that a proposed rezone is consistent with the Comprehensive Plan, the proposal must be consistent with the policies as well as the map designation." The Examiner interprets this language, as well as the law applicable to rezones, to mean that the burden is upon the Applicant to demonstrate to the Examiner that the proposed rezone meets the applicable Comprehensive Plan policies. The subject application has been evaluated for consistency with the latest version of the GMACP. The subject property is designated "Urban High Density Residential" on the Future Land Use Map.
- (ii) The PDS analysis relating to the consistency of the requested rezone with the GMACP is set forth in Exhibit H at pages 3 through 5. The Applicant also prepared an analysis of GMACP consistency. (Exhibit I.1). Having reviewed the GMACP and the PDS and Applicant analyses relating to whether the proposed rezone is consistent with the GMACP, the Examiner concurs with said analyses and hereby adopts and incorporates by this reference Exhibits H and I.1 herein as if set forth in full. Accordingly, the Examiner finds that the proposed rezone is consistent with the County's adopted GMACP.

B. The proposal bears a substantial relationship to the public health, safety, and welfare.

The current rezone proposal does not authorize any new development or construction. The administrative site plan for the SFDU development the Applicant proposes will be subject to compliance with the County's development regulations, including provisions

relating to transportation and road impacts, drainage and land disturbing activities, project density and zoning, landscaping, parks and school mitigation, critical areas protection, compliance with fire and emergency access requirements, and provision of adequate potable water and sewage disposal. Accordingly, the Examiner finds that the proposed rezone bears a substantial relationship to the public health, safety and welfare.

- C. Where applicable, minimum zoning criteria found in Chapters 30.31A through 30.31F SCC are met.

The Examiner finds that the Applicant is not requesting any of the zones listed in Chapter 30.31 SCC and, as such, the minimum zoning criteria in Chapters 30.31A through 30.31F SCC are not applicable to this rezone request.

8. The Examiner finds that the requirements of Chapter 30.42A.100 are satisfied by the present application and the rezone should be approved.
9. Any Finding of Fact in this Decision, which should be deemed a Conclusion of Law, is hereby adopted as such.

CONCLUSIONS OF LAW

1. The Examiner has original jurisdiction over the rezone application pursuant to SCC 30.42A.020 and 30.72.020(2).
2. Rezones are not presumed valid. The proponent of a rezone has the burden of proof of showing (a) that conditions have changed since the original zoning, or that the proposed rezone implements policies of the comprehensive plan; and (b) that the rezone bears a substantial relationship to the health, safety, morals or welfare. See, *Woods v. Kittitas County*, 130 Wn. App. 573, 584, 123 P.3d 883 (2005); *Citizens of Mount Vernon v. Mount Vernon*, 133 Wn.2d 861, 875, 947 P.2d 1208 (1997). The county's regulations are consistent with the criteria expressed in case law.
3. The proposal is consistent with the comprehensive plan.

Based upon the analysis set forth in the Findings of Fact, above, the Examiner concludes that the Applicant has met this burden of proof. The proposed rezone is both consistent with the land use designation and also with the Land Use Element of the General Policy Plan.

4. The proposal bears a substantial relationship to the public health, safety, and welfare.

Based on the analysis set forth in the Findings of Fact, the Examiner concludes that the proposal bears a substantial relationship to the public health, safety and welfare.

5. Where applicable, minimum zoning criteria found in Chapters 30.31A through 30.31F SCC are met.

This Examiner concludes that Chapter 30.31 SCC is not applicable in this case as that chapter only applies to performance standard zones, resource land zones, and overlays, none of which exist in this case.

6. The Examiner concludes that the rezone should be approved.
7. Any Conclusion of Law in this Decision which should be deemed a Finding of Fact, is hereby adopted as such.
