The Snohomish County Sheriff's Office Major Crimes Unit has removed two names from the list of people reported missing as a result of the 530 Slide. Future updates to the list will be dependent on whether detectives have gathered sufficient information to add new names to the list, or if additional victims are recovered from the debris field and are identified by the Snohomish County Medical Examiner's Office.

The release of information is limited to name, age and city of residence. Detectives have carefully reviewed each of these cases based on available information and conversations with family members. It is presumed that the people on this list are missing in connection with the landslide. Anyone who should not be on this list is asked to call the Sheriff's Office tip line immediately at (425) 388-3845.
