

## Good Afternoon Planning Committee:

Thank you for attending the July 24, 2014 Snohomish County Natural Hazards Mitigation Plan (SC NHMP) Update meeting. We appreciate your valuable input on this important plan.

## August 2014 – SC NHMP Plan Update Status & Schedule

At this time the plan review, resource identification and goal and objective development have been completed. The project team is currently in the process of completing the region-wide risk assessment and developing mitigation action ideas and implementation tools. We expect this portion of the document to be completed by the beginning of September 2014.

Additionally, Snohomish County DEM is in the process of setting up a webpage for the 2015 SC NHMP update. Past meeting materials, links to maps and the current (2010) SC NHMP can be found at:

<http://www.snohomishcountywa.gov/2243/Mitigation>).

As always, please feel free to contact me with any questions.

Regards,

Dara Salmon -- Snohomish County Department of Emergency Management
