QUARTERLY BUDGET REPORT: MARCH, 2010

This report will provide a first quarter 2010 financial update for Snohomish County fiscal operations.

General Overview

The prolonged national recession and its impacts upon the regional economy continue to affect Snohomish County. While the economy may be able to avoid a double-dip recession, no significant recovery is anticipated in 2010. The County government has continued to make pragmatic decisions recognizing that the level of economic activity and related revenue streams represent a new economic base rather than a temporary downturn.

General Fund

On April 14th of 2010, the County Council passed a budget revision ordinance which reduces 2010 General Fund budgeted revenues by \$3.6 million to reflect the most recent financial trends. In addition to reducing General Fund revenues, the budget revision also reduced General Fund budgeted expenditures by \$6.5 million.

The net result of this action is a budgeted \$2.9 million 2010 increase to General Fund fund balance, a first step towards increasing General Fund reserves to targeted levels. The action insulates the County from having to make additional reductions later in the year should County revenues experience further shortfalls. The following fund balance worksheet includes these budget revisions.

FIGURE 1: GENERAL FUND ENDING BALANCE RECONCILIATION

**Includes Budget Revision Ordinance passed by Council April 14, 2010 and projected 2010 annexation budget revisions.*

YTD Revenue

Figure 2 on the following page reviews General Fund revenue projected yearend variances as compared to the 2010 modified budget including the recently passed budget revision. The reductions in revenue were results of the extended economic slowdown. These primary 2010 budgetary modifications are referenced the top of page 5.

Total Revenue Modifications	<u><u>\$ (3,784,108)</u></u>

YTD Expenditures County General Fund expenditures have been held down by management spending restraint. First quarter salary and wage expenditures were 24.1% of modified appropriations (as measured after the recent budget revision). A year ago, salary expenditures were 24.4% of appropriations before mid-year adjustments. 2010's low percentage of salary expenditures makes it highly probable that the General Fund will achieve well in excess of the 0.5% under-expenditures anticipated in the 2010 adopted budget. The Finance Department will continue to monitor this under-expenditure and report its status as a regular element of this budget report.

5-Year Trend Figure 3 represents the County General Fund five-year projection of revenues, expenditures and fund balance. The projection is based upon the current modified budget and embraces County leadership statements that the level of current resources represents a new and lower base rather than a temporary downturn of County revenues and resources and that the County must rebuild the level of General Fund fund balance. In general, the projection does not reflect specific strategic plans or trend changes occurring on a year-by-year basis. However, there are some specific exceptions to this approach as noted below:

- 1) This projection treats 2010 total managed savings of \$12.4 million dollars as a permanent reduction to the County General Fund base expenditures beginning in 2011.
- 2) One-time 2010 savings and one-time 2010 revenue sources have been eliminated from the 2011 projection and the projection assumes refinancing of 2001 Campus Redevelopment bonds. The projection also decreases mental health supplantation in years 2012 through 2015 per state authorization.
- 3) The projected growth rate for Salaries & Wages (2% in 2010 and 2012) increases to 3% in 2013 to reflect the impacts of anticipated inflationary trends.

- 4) The projection assumes a reduction in annual bond servicing cost for Campus Redevelopment as a result of refinancing 2001 bonds in late 2010.
- 5) The projection includes adjustments for future year increases in State pension costs as projected by the Washington State actuary.
- 6) The projection assumes 0.5% of budget for under-expenditures. These levels are lower than historical levels, but reflects the fact that budgets already assume department managed saving under-expenditures.
- 7) Growth trends for 2011 through 2014 are reflected in the right column of the schedule.

9) Projected Fund Balance at the end of 2010 is 7% of prior year revenues. The County Executive and Council have committed to grow the County's fund balance to a level which includes the amount required for liquidity plus an amount for emergencies. To accomplish this, the County must identify additional reductions in expenditures or increases in revenues. This five-year plan identifies the additional amount that is required to achieve fund balance average growth of one percent per year throughout this five-year plan. The increases in annual amounts for this purpose are identified below.

Required Reduced Expenditures/Increase Revenue for Targeted Fund Balance

	2011	2012	2013	2014	2015
Budget Year Increase	2,650,000	-	1,750,000	1,700,000	1,500,000

Real Estate Excise Tax

Real Estate Excise Tax revenues are running near budgeted levels. Strong March receipts reflect momentum that is driven in part by the federal government homebuyer income tax credits. A critical factor will be how much momentum drops off after June assuming the federal government does not extend the program. Figure 4 shows current year-to-date receipts and projects year end results.

FIGURE 4: REAL ESTATE EXCISE TAX REVENUES

Projected Year end Surplus (Deficit)	(\$290,462)

Economic Outlook

Federal Reserve Chairman Ben Bernanke told Congress on April 14th that he has confidence the unfolding economic recovery will have staying power, although it won't be strong enough to bring quick relief to high unemployment. Bernanke also once again called on lawmakers and the White House to come up with a plan to whittle down record-high budget deficits.

On the economy, Bernanke seemed slightly more optimistic that the fledgling recovery will keep on going after massive government stimulus fades later this year. Incoming economic barometers suggest that growth in demand by consumers and businesses "will be sufficient to promote a moderate economic recovery in coming quarters," he said. In fact, the odds of a "double dip" recession, where the economy would start shrinking again, have receded, Bernanke said. "We're seeing some building momentum," he observed. "So it looks like we're on a path to moderate recovery and that the risk of a double-dip, while certainly not negligible, is certainly less than it was a few months ago."

Consumers are spending again after having cut back sharply during the recession. Going forward, consumer spending should be helped by a gradual pick up in jobs, a slow recovery in household wealth from recent lows and some improvement in the ability to get loans, Bernanke said. That assessment of consumers, whose spending accounts for 70 percent of national economic activity, also appeared more upbeat. In recent weeks, Bernanke and other Fed officials have cited a litany of headwinds facing consumers, including high unemployment, rising home foreclosures and sluggish wage growth. Nationally, shoppers boosted retailers' sales by a strong 1.6 percent in March. However Bernanke said weakness in the housing and commercial real-estate sectors is putting "significant restraints" on the pace of the economic recovery. And, the poor fiscal conditions of many state and local governments have led to continuing cutbacks in workers, another force that will hold back the recovery,

Boeing Boeing's jet deliveries fell 11 percent in the first three months of 2010, compared to the same period last year. Boeing said Thursday that it delivered 108 jets in the first three months of 2010, down from 121 in the same quarter of 2009. But the company's net orders rose in the first quarter to 83, compared to negative four orders in the first three months last year. Boeing trails rival Airbus in jet deliveries so far this year. Airbus delivered 122 aircraft in the first quarter. However, Boeing leads the European company in net orders over the first three months. Airbus posted 60 net orders, compared with Boeing's 83.

The European Aeronautic Defense and Space Company or EADS likely will submit a bid for the \$35 billion Air Force tanker contract without the benefit of a U.S.-based partner. EADS is the parent company of Airbus — Boeing's rival in the commercial aircraft market. EADS will challenge the Boeing Co. and its 767-based tanker for the lucrative deal.

The Boeing Co. reached another important milestone as the company moves toward delivering its first 787 Dreamliner later this year. Boeing called the "ultimate load" tests it performed on the new jet's wings and fuselage a success. In late March, Boeing had put enough pressure on the wing of its 787 to replicate 150 percent of the most extreme forces the airplane is ever expected to experience while in service. The 787 test plane's wing was flexed 25 feet upward. Since then, Boeing engineers have been studying the results of the test.

Real Estate Home sales stepped up in Snohomish County in March as buyers tried to beat the upcoming deadline for a federal tax break or to invest thanks to prices they haven't

seen in five to six years. There were 865 homes sold in the county in March, a 68 percent increase from a year ago. Pending sales in the county, meaning the deals were signed in March but not closed, rose 77 percent from last year, the highest in the Puget Sound area.

Employment

Statewide, the unemployment rate bumped up a tenth of a percentage point, from a revised 9.4 percent in February to 9.5 percent in March. But the state added 1,600 jobs last month, considered a good sign. The overall the state's labor force grew by nearly 6,000 people in March. Many of them are now job hunting again after previously being part of the group of so-called "discouraged workers" who have given up on job searches. Because the unemployment rate is based on the number of people who are actively looking for work, the rate doesn't include those who have stopped searching.

The unemployment rate in Snohomish County dropped significantly in March, even though the county lost 300 jobs and saw a rise in the number of newly laid off people seeking benefits during the month. The jobless rate, revised to 10.4 percent in February, fell to 9.7 percent in March, according to the state Employment Security Department. In the county, the estimated number of jobs was 241,900 last month. Aerospace lost 800 jobs during the past 12 months. More cutbacks are expected from Boeing Co. layoff notices that will take effect toward the end of April.

County Sales

Figure 5 on page 10 displays the fourth quarter of 2009 year-over-year county-wide sales that contribute to the collection of state sales tax. The quarter's growth of 0.63% of retail sales over the fourth quarter of 2009 represents the first quarter of year-over-year growth since the fourth quarter of 2007. While total taxable sales are still lower than those of the fourth quarter of the prior year, the increase in retail sales reflects growing consumer confidence. It should be noted that this growth was significantly influenced by the strength new automobile sales which in turn reflects strong discounts and rebates offered to consumers.

Since the report includes county-wide revenues, there is not a one-to-one correspondence with County general sales tax revenues which are predominantly made up of sales in unincorporated areas.
