TheRecordXchange is an easy-to-use web based online solution to manage and deliver digital recording orders through Snohomish County District Court's dedicated TheRecordXchange portal.

Through TheRecordXchange, recordings are made available for streaming in a standard format and simple user playback interface that can be accessed from anywhere and from multiple device types.

Order requests are placed online, payments are made through the TheRecordXchange, and audio is streamed or downloaded directly from TheRecordXchange.

TheRecordXchange works with audio from **FTR** and the new **Liberty Recording!**
