Tuesday June 7, 2022

5pm-7pm

Meeting Notes

Attendance

CAAC Members	County Staff
<ul style="list-style-type: none">• Tom Campbell• Lynda Lyshall• Ian McCluskey• Jeanine San Clemente• Suzy Oversee	<ul style="list-style-type: none">• Gregg Farris• Eileen Canola

Notes on Misc. Updates:

- OES manager hiring process: completed the 1st round of interviews, top candidates moving on to 2nd interview
- Reclassified support position: the proposed reclassification of the support position is being reviewed through the budget process, but there is a chance the position may be moved to a different department
- PDS Climate Change grant: PDS is applying for a grant to conduct a climate assessment
- PDS Comp Plan Update: PDS is still planning to engage the CAAC on the new Climate Change element as that is produced

Notes on C-PACER presentation (I gave the presentation since Bill Leif was not able to attend):

- Question about whether batteries to provide backup power for would be eligible for funding. Will refer the question to Bill Leif to respond.
- Question about the terms of the loans. Will refer the question to Bill Leif to respond.
- Comment from Lynda Lyshall: it would be good to coordinate messaging at the upcoming C-PACER stakeholder meetings to either mention or be consistent with the SCD program called the Rural Energy for America Program funded by the USDA, also for energy conservation improvements.
- Question about the source of the C-PACER program funding. Will refer the question to Bill Leif to respond.
