Springhetti Road

Road closure and realignment at Broadway

Construction has begun on the Snohomish County Public Works project to realign Springhetti Road where it meets Broadway Avenue, east of SR 9 in the Snohomish area.

Springhetti Road intersects Broadway Avenue at a skewed angle making turning movements difficult. The project will realign the south end of Springhetti Road to eliminate the skewed angle and improve sight distance. The shoulders on both sides of the road will be widened, retaining walls will be constructed, and a guardrail will be placed along the west side of Springhetti Road.

A failing culvert located approximately 150 feet north of Broadway Avenue will be replaced with an upgraded 36-inch diameter culvert to meet current standards set by the Washington State Department of Fish and Wildlife.

Springhetti Road closed during construction

Single lane closures are in effect on Springhetti Road from 8 a.m. to 4 p.m., Mondays through Fridays until June 23, 2014.

A full road closure to all through traffic will be in effect at the south end of Springhetti Road from 8 a.m. June 23 through the end of the day on August 22. The closure will be just north of the Broadway Avenue intersection and the detour route will be posted. During the full road closure, all businesses will remain open and access to homes and businesses will be available from Marsh Road at the north end of Springhetti Road.
