Snohomish County’s Road Maintenance Division will make needed repairs to Lake Armstrong Road between June 16 and June 27, 2014. The work site is near the turn at the west end before the road joins Harvey Creek Road.

Construction Impacts
Full road closures will be needed at the site from 7:30 a.m. to 4:30 p.m. each day, Mondays through Fridays, June 16 - June 27. July 3

The Snohomish County Parks Department has agreed to allow limited vehicle access along 1,000 feet of the Centennial Trail during construction. The trail will be opened for access to the Lake Armstrong Neighborhood three times each day for approximately 10 minutes to allow residents to leave and enter the neighborhood. The weight limit for access through the trail will be 5,000 lbs. All vehicles will be checked for leaking fluids. Vehicles that are leaking oil, gas or other fluids will not have access to the trail.

Limited access three times each day
The times for limited access into and out of the neighborhood along the Centennial Trail, as mentioned above, will be for approximately 10 minutes at 10 a.m., 12 noon, and 2:00 p.m. each day, Mondays through Fridays.

The crew will be working on a small enough area each day so that Armstrong Road can be open from 4:30 in the afternoon to 7:30 the following morning. The plan is for Armstrong Road to be open each weekend.

Emergency service available
Emergency service will have 24-hour access to the neighborhood through an agreement with WSDOT and the quarry. Mail service will not be available during the closure. Contact the Post Office to arrange pick up of mail.

Keep in mind that construction schedules are always subject to change. When we excavate a road or embankment we sometimes discover conditions that were not possible to foresee, and that add complexity to a project. Coordination with other projects and availability of equipment, materials and staffing can also shifts schedules.
