

# SNOHOMISH COUNTY PARKS AND RECREATION

## RESTROOM WINTERIZATION

Snohomish County Parks & Recreation is responsible for the maintenance of 29 restrooms at 21 park sites throughout the county. During the summer and heavy use seasons we do our best to keep the restrooms open, clean and free of vandalism. During the slower cooler weather seasons in order to save costs on maintenance and energy Snohomish County Parks will close restrooms.

The process of opening and closing restrooms can take several weeks and is weather dependent. In a typical year, crews begin closing restroom facilities and turning off drinking fountains in mid-November when temperatures start to drop below freezing. In late March when the weather begins to warm up, we start the process to reopen the restrooms for the spring and summer.

The following parks will have restrooms open year-round to support camping activities or to provide convenience for areas with lots of visitors.

### **Restrooms which remain open year-round:**

- Flowing Lake Campground and Cabins
- Kayak Point Campground, Yurt Village and Day-Use Area
- River Meadows Yurt Village
- Machias Trail Head Centennial Trail
- Willis Tucker Administration Office
- Evergreen State Fairgrounds
- Tambark Park

### **Portable restrooms are provided year-round in the following parks for your convenience:**

- Logan Park
- Forsgren Park
- Miners Corner ( only late Fall/Winter)
- Lake Goodwin ( only late Fall/Winter)
- Twin Lakes Park (only late Fall/Winter)
- Martha Lake Airport Park ( only late Fall/Winter)
- Martha Lake Park (only late Fall/Winter)
- McCollum
- Meadowdale Beach
- Paine Field Park (only late Fall/Winter)
- North Creek Park
- Willis Tucker Park ( OLDA only)
- Wyatt Park (only late Fall/Winter)
