**Proposed Project: 84th Street NE (Getchell Road) and 115th Avenue NE
Intersection Improvements**

Dear Agency Reviewer:

Snohomish County Public Works is proposing to improve the operation and safety at the intersection of 84th Street NE (Getchell Road) and 115th Avenue NE. The intersection will be widened to construct left-turn pockets on 84th Street NE and 8-foot wide paved shoulders. The existing drainage pattern will be maintained, although pipes and catch basins may replace existing ditches in some areas. Stormwater treatment for water quality will be improved to comply with current standards. An additional street light will be installed approximately 200 feet west of the intersection on an existing pole. Conduit will be installed at the intersection to accommodate installation of a traffic signal in the future.

This letter is to let you know about this project and that an environmental review has been completed. A SEPA Environmental Checklist and Determination of Non-Significance (DNS) have been issued. The DNS states that no significant environmental impacts are anticipated from construction of this project. Copies of the Environmental Checklist are available during normal business hours from Snohomish County Public Works at the address or online at: www.snohomishcountywa/2741.

Comments on this project must be submitted by December 14, 2014 to: Mary Auld, Snohomish County Public Works, 3000 Rockefeller Avenue, Mail Stop 607, Everett, WA 98201 or via email: mary.auld@snoco.org. For more information call Mary Auld at 425-388-3488, extension 4510.

Sincerely,

Mary Auld, Senior Environmental Planner
Transportation and Environmental Services
