DETERMINATION OF NONSIGNIFICANCE

Proponent: Snohomish County Department of Planning & Development Services
County Administration Building
3000 Rockefeller Avenue, M/S 604
Everett, WA 98201

Description of Proposal: Proposed ordinance to amend the Snohomish County Code titled
RELATING TO GROWTH MANAGEMENT; ADOPTING AN INTERIM OFFICIAL CONTROL
EXEMPTING SINGLE FAMILY DEVELOPMENT FROM TRANSFER OF DEVELOPMENT
RIGHTS REQUIREMENTS; AND ADDING A SECTION TO CHAPTER 30.35A SCC

This is a non-project proposal to amend Chapter 30.35A of the Snohomish County Code that
would adopt an interim official control to exempt single family residential development (including
cottage housing and single family detached unit development) and townhouse unit lot
subdivisions from Transfer of Development Rights (TDR) requirements.

The County Council is proposing an interim official control, which is permitted by the Growth
Management Act, in order to allow up to a six month period to develop and adopt permanent
regulations.

Lead Agency: Snohomish County Department of Planning & Development Services

Threshold Determination: The lead agency for this proposal has determined that it does not
have a probable significant adverse impact on the environment. An environmental impact
statement (EIS) IS NOT required under RCW 43.21C.030(2)(c). This decision was made after
review by Snohomish County of a completed environmental checklist and other information on
file with this agency. This information is available for public review upon request.

This DNS is issued under WAC 197-11-340(2). The lead agency will not act on this proposal for
14 days from the date below. Comments must be submitted by August 4, 2015, to the
responsible official at the address listed below.

Appeals: This DNS, together with the subsequent legislative action by the County Council to
amend the County Code, may be appealed to the Central Puget Sound Growth Management
Hearings Board. THIS DNS MAY BE APPEALED ONLY WHEN SUCH APPEAL IS
COMBINED WITH THE APPEAL OF THE UNDERLYING ACTION PURSUANT TO SCC
30.73.100. THE APPEAL MUST BE FILED WITHIN 60 DAYS OF THE PUBLISHED NOTICE
OF THE NOTICE OF ACTION ISSUED SUBSEQUENT TO THE FINAL DECISION BY THE
COUNTY. The Notice of Action describing the final decision by the County to pursue or not
pursue the proposed action will be published in the County’s paper of record. Any appeal must
be filed with the Central Puget Sound Growth Management Hearings Board, at PO Box 40953
Olympia WA 98504-0953 within 60 days following publication in the paper, or as otherwise
stated in the Notice of Action or provided by law.
Responsible Official: Clay White
Position/Title: Director, Department of Planning & Development Services
Address: 3000 Rockefeller Avenue, M/S #604
Everett, WA 98201-4046

Clay White, Director

SNOHOMISH COUNTY ENVIRONMENTAL CHECKLIST

Purpose of Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Use of Checklist for Nonproject Proposals:

Complete this checklist for nonproject proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D).

A. BACKGROUND

1. Name of proposed project: Code amendment project:

   RELATING TO GROWTH MANAGEMENT; ADOPTING AN INTERIM OFFICIAL CONTROL EXEMPTING SINGLE FAMILY DEVELOPMENT FROM TRANSFER OF DEVELOPMENT RIGHTS REQUIREMENTS; AND ADDING A SECTION TO CHAPTER 30.35A SCC

2. Name of applicant:
   Department of Planning & Development Services, Snohomish County

3. Address and phone number of applicant and contact person:
   Steve Skorney, Senior Planner
   3000 Rockefeller, M/S 604
   Everett, WA 98201
   Phone: (425) 388-3311 extension 2207
   E-mail: Steve.Skorney@snoco.org

4. Date checklist prepared:
   July 20, 2015

5. Agency requesting checklist:
   Department of Planning & Development Services, Snohomish County

6. Proposed timing or schedule (including phasing, if applicable):
   County Council public hearing: To be determined

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
This proposal is a temporary nonproject code amendment action which would adopt an interim official regulatory control that will be effective for six months. More detailed development regulations will be developed by PDS for final action in early 2016.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
   None.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
   The proposal is a nonproject action and there is no specific property covered by the proposal.

10. List any government approvals or permits that will be needed for your proposal, if known.
    County Council approval of Ordinance 15-052 would enact an interim official regulatory control exempting single family residential development from Transfer of Development Rights (TDR) requirements.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information of project description.)
    Ordinance No. 15-052 would adopt an interim official control to exempt single family residential development (including cottage housing and single family detached unit development) and townhouse unit lot subdivisions from TDR requirements. The County Council is proposing this interim official control, which is permitted by the Growth Management Act, in order to allow up to a six month period to develop and adopt permanent regulations. An amendment to the ordinance will be considered by the County Council that would apply the exemption to vested applications that included a proposed rezone. The amendment would apply the exemption consistently so single family projects do not require TDR credits.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.
   This nonproject proposal affects urban lands located within the jurisdiction of Snohomish County.

B. ENVIRONMENTAL ELEMENTS

1. Earth
   a. General description of the site (circle one): flat, rolling, hilly, steep slopes, mountainous, other.
   Urban areas within Snohomish County include a variety of terrain such as flat, rolling, hilly and steep slopes.

   b. What is the steepest slope on the site (approximate percent slope)?
   Slopes in excess of 100% may be found within urban areas of Snohomish County.
c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

A range of soil types are found within urban areas of Snohomish County.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

Certain urban areas within Snohomish County have a history of surface instability associated with periods of heavy rainfall. Other areas have a history of more deep-seated instability associated with landslide activity.

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

As a nonproject action, no filling or grading is proposed. Any future site-specific development or land use proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review which would include review of any proposed grading or filling activity.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

As a nonproject action, no erosion will occur as a direct result of this proposal. Any future site-specific development or land use proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review of any proposed clearing and construction that might result in erosion.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

As a nonproject action, no impervious surface coverage will occur as a result of this proposal.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

As a nonproject action, no erosion reduction or control measures are proposed or required. Future site-specific development or land use action not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project level SEPA and regulatory review and would require the implementation of applicable county regulations to reduce or control erosion or other impacts to the earth.

2. Air

a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial woodsmoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

As a nonproject action, no emissions to air will occur as a result of this proposal.

b. Are there any off site sources of emissions or odor that may affect your proposal? If so, generally describe.

Not applicable

c. Proposed measures to reduce or control emissions or other impacts to air, if any.

As a nonproject action, no measures to reduce or control emissions are required or proposed. Future site-specific development or land use action
not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project level SEPA and regulatory review and would require the implementation of applicable county regulations to reduce or control emissions or other impacts to air, if any.

3. **Water**
   a. **Surface:**
      1) Is there any surface water body on or in the immediate vicinity of the site (including year round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.
         *There are several streams, seasonal streams, and bodies of water located within urban areas of Snohomish County.*
      2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.
         *As a nonproject action, this proposal will not require any work in, or adjacent to, the described waters. Future site-specific development or land use actions not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project level SEPA and regulatory review and would require the implementation of applicable county regulations to reduce or control activities near surface water bodies, if any.*
      3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.
         *As a nonproject action, no fill or dredge material will be placed or removed from surface waters or wetlands.*
      4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.
         *As a nonproject action, no surface water withdrawals or diversions will be required.*
      5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.
         *Not applicable as this is a nonproject action.*
      6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.
         *As a nonproject action, no discharges of waste materials to surface waters will occur as a result of this proposal.*
   b. **Ground:**
      1) Will groundwater be withdrawn, or will water be discharged to groundwater? If so, describe the type of waste and anticipated volume of discharge.
         *As a nonproject action, no groundwater will be withdrawn or discharged.*
      2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage;
industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

As a nonproject action, no waste material will be discharged from septic tanks or other sources as a result of this proposal. Future development or land use actions not exempted by WAC 197-11-800 or SCC 30.61.035 that would likely result in discharges from stormwater runoff would be subject to project-level SEPA and regulatory review.

c. Water Runoff (including storm water):

1) Describe the sources of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. As a nonproject action, no runoff will occur as a result of this proposal. Any future site-specific development or land use action proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA and development permit review, which would address stormwater runoff management.

2) Could waste materials enter ground or surface waters? If so, generally describe. As a nonproject action, waste materials will not enter ground or surface waters as a result of this proposal. Any future site-specific development or land use proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to separate SEPA and development permit reviews, which would address the potential of waste materials entering ground or surface waters.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

As a nonproject action, no additional measures are required for this proposal. Any future site-specific development or land use proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA and permit review, which would include the implementation of measures to reduce or control surface, ground, and runoff impacts.

4. Plants

a. Check or circle types of vegetation found on the site:

- X deciduous tree: alder, maple, aspen, other
- X evergreen tree: fir, cedar, pine, other
- X shrubs
- X grass
- X pasture
- X crop or grain
- X wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- X water plants: water lily, eel grass, milfoil,
- X other types of vegetation

All types of the above vegetation occur in various urban locations throughout the county.

b. What kind and amount of vegetation will be removed or altered?

As a nonproject action, no vegetation will be removed as a direct result of this proposal. Any future site-specific development proposal not exempted
by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA
evaluation of any proposed vegetation removal or alteration.

c. List threatened or endangered species known to be on or near the site.
   U.S. Fish and Wildlife Service provides legal listing for ESA species under its
   jurisdiction.
   National Marine Fisheries Service provides legal listing for ESA species
   under its jurisdiction.
   Washington State Department of Fish and Wildlife provides legal listing for
   ESA species under its jurisdiction.
   Washington State Department of Natural Resources provides legal listing of
   ESA species under its jurisdiction.

d. Proposed landscaping, use of native plants, or other measures to preserve or
   enhance vegetation on the site, if any:
   As a nonproject action, no measures to preserve or enhance vegetation are
   required for this proposal. Any future site-specific development or land use
   action proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would
   be subject to a separate SEPA and permit review, which would include
   review of any proposed landscaping or measures to preserve or enhance
   vegetation on the site.

5. Animals
   a. Circle any birds and animals which have been observed on or near the site or are
      known to be on or near the site:
      birds: hawks, heron, eagle, songbirds, other: ______________________
      mammals: deer, beaver, other: ______________________
      fish: bass, salmon, trout, herring, shellfish, other: ____________
      The above listed animal species may be found in various urban locations
      throughout the county.

   b. List any threatened or endangered species known to be on or near the site.
      U.S. Fish and Wildlife Service provides legal listing for ESA species under its
      jurisdiction.
      National Marine Fisheries Service provides legal listing for ESA species
      under its jurisdiction.
      Washington State Department of Fish and Wildlife provides legal listing for
      ESA species under its jurisdiction.
      Washington State Department of Natural Resources provides legal listing of
      ESA species under its jurisdiction.

   c. Is the site part of a migration route? If so, explain.
      Yes. Wildlife species do migrate through the county, however, this is a
      nonproject action that will not impact migratory species.

   d. Proposed measures to preserve or enhance wildlife, if any:
      As a nonproject action, no measures to preserve or enhance wildlife are
      required or proposed. Any future site-specific development proposal not
      exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a
      separate SEPA review, which would include review and implementation of
      measures to preserve or enhance wildlife, if any.

6. Energy and Natural Resources
a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project’s energy needs? Describe whether it will be used for heating, manufacturing, etc.

**As a nonproject action, energy will not be consumed.**

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

**As a nonproject action, there will be no impact on solar energy as a result of this proposal.**

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.

**As a nonproject action, energy conservation features are not applicable to this project. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control energy impacts, if any.**

7. **Environmental Health**

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

**As a nonproject action, no environmental health hazards will result as a consequence of this proposal.**

1) Describe special emergency services that might be required.

**As a nonproject action, no special emergency services are required by this proposal.**

2) Proposed measures to reduce or control environmental health hazards, if any:

**As a nonproject action, no measures to reduce or control environmental health hazards are required for this proposal. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control environmental health hazards, if any.**

b. **Noise**

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, aircraft, other)?

**This nonproject action will not be affected by noise.**

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

**This nonproject action will not generate noise.**

3) Proposed measures to reduce or control noise impacts, if any:

**As a nonproject action, no measures to reduce or control noise impacts are required or proposed. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC**
30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control noise impacts, if any.

8. **Land and Shoreline Use**
   a. What is the current use of the site and adjacent properties?
      This nonproject action pertains to urban lands within unincorporated Snohomish County.
   
b. Has the site been used for agriculture? If so, describe.
      This is a nonproject action that provides an interim regulatory control to implement a previous policy decision by the County Council to exempt single family residential development and townhouse unit lot subdivisions as TDR receiving areas for the potential use of TDR credits transferred from TDR sending areas that include designated agricultural land.
   
c. Describe any structures on the site.
      Not applicable to this nonproject action.
   
d. Will any structures be demolished? If so, what?
      As a nonproject action, no structures will be demolished as a result of this proposal.
   
e. What is the current zoning classification of the site?
      This nonproject action pertains to all urban zoning classifications that allow single family residential and townhouse unit subdivision development within unincorporated Snohomish County.
   
f. What is the current comprehensive plan designation of the site?
      This nonproject action pertains to all urban land use designations within unincorporated Snohomish County that allow single residential and townhouse unit subdivision development.
   
g. If applicable, what is the current shoreline master program designation of the site?
      Not applicable.
   
h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.
      Not applicable.
   
i. Approximately how many people would reside or work in the completed project?
      As a nonproject action, no people would reside or work on the site as a result of this proposal.
   
j. Approximately how many people would the completed project displace?
      As a nonproject action, no people would be displaced as a result of this proposal.
   
k. Proposed measures to avoid or reduce displacement impacts, if any:
      As a nonproject action, no measures to avoid or reduce displacement impacts are required by this proposal.
   
l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
As a nonproject action, no measures to reduce or control light and glare impacts are required or proposed. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce of control light and glare impacts, if any.

12. Recreation
   a. What designated and informal recreational opportunities are in the immediate vicinity?
      Numerous active and passive recreational opportunities exist in urban areas of unincorporated Snohomish County.
   b. Would the proposed project displace any existing recreational uses? If so, describe.
      This nonproject action will not displace any existing recreational uses.
   c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:
      As a nonproject action, no measures to reduce or control impacts on recreation are proposed or required. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control impacts on recreation, including recreation opportunities to be provided as a requirement of the development approval.

13. Historic and Cultural Preservation
   a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to this site? If so, generally describe.
      Not applicable to this nonproject action.
   b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.
      Not applicable to this nonproject action.
   c. Proposed measures to reduce or control impacts, if any:
      As a nonproject action, no measures to reduce or control impacts are proposed or required. Any future site-specific development proposal would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control impacts, if any.

14. Transportation
   a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.
      Various highways and arterial, collector and local streets serve unincorporated urban areas of Snohomish County.
   b. Is the site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?
      This is a non-project action. Public transit is available in unincorporated urban areas of Snohomish County, particularly in the Southwest Urban Growth Area.
The proposed code amendments are compatible with and implement the county’s General Policy Plan.

9. **Housing**
   a. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing.
      *As a nonproject action, no housing units would be provided by this proposal.*
      The proposed interim code amendments would exempt future single family residential and townhouse unit subdivision developments from TDR requirements.
   b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
      *As a nonproject action, no housing units would be eliminated by this proposal.*
   c. Proposed measures to reduce or control housing impacts, if any:
      *As a nonproject action, no measures to reduce or control impacts to housing are proposed.*

10. **Aesthetics**
    a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
       *As a nonproject action, no structures are proposed.*
    b. What views in the immediate vicinity would be altered or obstructed?
       *As a nonproject action, no views will be altered or obstructed as a result of this proposal.*
    c. Proposed measures to reduce or control aesthetic impacts, if any:
       *As a nonproject action, no measures to reduce or control aesthetic impacts are required or proposed. Any future site-specific development proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control aesthetic impacts, if any.*

11. **Light and Glare**
    a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
       *As a nonproject action, no light or glare will occur as a result of this proposal.*
    b. Could light or glare from the finished project be a safety hazard or interfere with views?
       *As a nonproject action, no light or glare that could be a safety hazard or interfere with views will result from this proposal. Any future site-specific development proposals not exempted by WAC 197-11-800 or SCC 30.61.035 will be subject to a separate SEPA and applicable permit reviews, which will include review of light and glare from the development.*
    c. What existing off-site sources of light or glare may affect your proposal?
       *Not applicable.*
    d. Proposed measures to reduce or control light and glare impacts, if any:
b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

As a nonproject action, no utilities are proposed or required.

C. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Planning and Development Services

Date Submitted: July 20, 2015

OPTIONAL

D. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent of the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

   This non-project action proposal would not cause an increase in these types of discharges or emissions. Any future site-specific development or land use action not exempt by WAC 197-11-800 or SCC 30.61.035b which implements the proposed code amendments would be subject to a separate SEPA review and compliance with county, state and federal regulations. Future project level SEPA review related to this proposal would include consideration of existing county regulations to reduce or control any impacts regarding air emissions to air, production, storage, or release of toxic or hazardous substances, the production of noise, and discharge to groundwater or watercourses.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

   This non-project action is not likely to impact animals, fish, or marine life. Future site-specific land activity not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project-level environmental analysis and threshold determinations and would include consideration of existing county, state and federal regulations that protect wetlands and fish and wildlife habitat.

   Proposed measures to protect or conserve plants, animals, fish or marine life are:

   As a nonproject action, there are no proposed measures to protect or conserve animals or marine life. Future site-specific activity not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project-level environmental analysis and threshold determinations. If needed, mitigation measures to address impacts to plants, animals, fish, or marine life would be identified at that time.

3. How would the proposal be likely to deplete energy or natural resources?

   This non-project proposal would not likely deplete energy or natural resources.
c. How many parking spaces would the completed project have? How many would the project eliminate?

As a nonproject action, no parking spaces are proposed or required. Future development must meet the minimum parking requirements as required by Chapter 30.26 of the Snohomish County Code.

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

As a nonproject proposal, new transportation improvements are not required or proposed. Future development will be reviewed for impacts to the roadway system and improvements to existing roadways may be required on a project-by-project basis.

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

Not applicable to this nonproject action.

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

This nonproject action will not directly generate any vehicular trips. Any future development or land use proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA and permit review, which would include review of traffic issues.

g. Proposed measures to reduce or control transportation impacts, if any:

As a nonproject action, no measures to reduce or control transportation are proposed or required. Any future site-specific development or land use action not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA and concurrency review.

15. Public Services

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

As a nonproject action, this proposal will not result in an increased need for public services. Site specific, project actions may affect services such as fire and police. These impacts will be reviewed during the project level review of a development proposal.

b. Proposed measures to reduce or control direct impacts on public services, if any.

As a nonproject action, no measures to reduce or control impacts on public services are proposed or required. Any future site-specific development or land use action proposal not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to a separate SEPA review, which would include review and implementation of measures to reduce or control any impacts on public services.

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

Not applicable to this nonproject action.
Proposed measures to protect or conserve energy and natural resources are:
As a nonproject action, this proposal is not likely to deplete energy or natural resources. Future site-specific land activity not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project-level environmental analysis and threshold determinations.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?
As a nonproject action, this proposal would not directly affect environmentally sensitive areas or areas designated (or eligible or under study) for government protection.

Proposed measures to protect such resources or to avoid or reduce impacts are:
Any future site-specific development or land use action not exempted by WAC 197-11-800 or SCC 30.61.035b which implements the proposed code amendments would be subject to a separate SEPA review and compliance with county, state and federal regulations. Vegetation removal is generally not permitted in critical areas and critical area buffers.

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?
This non-project level proposal would not allow land uses that are incompatible with exiting plans. The proposed interim regulations would maintain the purpose of the countywide TDR program as a voluntary and incentive-based process that will continue to provide the opportunity to conserve natural resource and open space lands by allowing the transfer of development rights from sending areas with significant conservation values to receiving areas considered more appropriate for development.

Proposed measures to avoid or reduce shoreline and land use impacts are:
Any future site-specific land use development proposal that would implement the proposed code amendments and not exempted by WAC 197-11-800 or SCC 30.61.035 would be analyzed for potential land use impacts that could require mitigation measures to offset any identified significant adverse impacts.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?
As a nonproject action, this proposal would not increase demands on transportation or public services. Designating TDR receiving areas that allow multifamily residential development concentrates population required to support public transit. Multifamily housing tends to have only one car per household. For these reasons, traffic impacts to county arterials over the 20-year planning horizon could be negligible.

Proposed measures to reduce or respond to such demand(s) are:
Future site-specific land use development proposal that would implement the proposed code amendments and not exempted by WAC 197-11-800 or SCC 30.61.035 would be subject to project-level environmental analysis. If needed, mitigation measures to address any increased demands on transportation or public services and utilities would be identified at that time.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
The proposal does not conflict with any law or requirements to protect the environment.
