

### Clear Choices Checklist

By taking these voluntary actions, you can protect the health of your lake and have your property LakeWise certified.

#### Lawns and yards

- Avoid fertilizer. If you do fertilize, apply phosphorus-free products.  
*By initialing, I agree to perform this practice.* \_\_\_\_\_
- Attend a FREE natural lawn care workshop. *Date attended:* \_\_\_\_\_
- Scoop pet waste, bag it and place it in the trash.  
*By initialing, I agree to perform this practice.* \_\_\_\_\_
- Divert roof and driveway runoff into stable, vegetated areas.  
*No downspouts or drains directly into lake, stream or ditch.*
- Cover bare soil areas with mulch or plants.
- Fix eroding areas in yard, driveway and parking areas.

#### Septic systems

- Have inspection by licensed provider within the past three years.  
*Documentation showing date of inspection/pumping is required. Date inspected:* \_\_\_\_\_
- Have inspections every 3 years.  
*By initialing, I agree to perform this practice.* \_\_\_\_\_
- Attend a FREE septic care workshop. *Date attended:* \_\_\_\_\_

### Healthy Shoreline Checklist

Shoreline properties can also obtain a "healthy shore" certification.

- Maintain existing natural shorelines.  
*By initialing, I agree to perform this practice.* \_\_\_\_\_
- Re-establish shoreline vegetation by replacing some lawn with other plants such as shrubs, perennials and trees.

Congratulations! The following property has met the Snohomish County LakeWise certification requirements:
