

# Automotive Maintenance Program

**Maythia Airhart, Sr. Program Manager  
Environmental Partnerships Team**

November 3, 2015

# FREE Auto Leaks Workshop

- Offered Monthly (4 hrs./workshop)
- Free to public
- Instructor is a Certified Auto Mechanic

# Section S5C.10 Education and Outreach

- Increase awareness and knowledge
- Effect behavior changes
- Build stewardship and partnership

# Program Goals

1. Increase awareness about vehicle leaks and maintenance as Best Management Practices (BMP)
2. Foster renewed interest in vehicle maintenance and reduce pollution through vehicle repairs
3. Instill a new sense of knowledge and confidence in responsible vehicle ownership
4. Increase repair of automotive leaks

# Elements for Success

- Funding support – *partner if needed*
- Engagement and outreach is meaningful – *it benefits the customers*
- Collaboration and partnerships
- Activity is accessible (date/time/location)

# Take away

1. Connect with other agency/municipality doing the work for information on lessons learned
2. Collaborate, Partner, Collaborate & Partner – it's cost effective and you don't have to re-invent
3. Activity meets the need of the customers, LISTEN to your customers and adapt your program (it's on-going)
