Upcoming Swamp Creek Bridge 504 Closure

Road Closure
Construction on the Swamp Creek Bridge 504 replacement project will begin on June 15, 2016 and is targeted to be completed in the fall of 2016. Locust Way will be closed between 231st Street SW and Barker Road to all vehicles, bicycles, and pedestrians starting June 20. The bridge should reopen to traffic in October 2016. Traffic will be rerouted from Locust Way to Carter Road and 14th Avenue West (see map).

New Bridge
The replacement bridge will feature the addition of new bike lanes and sidewalks. The structure will be longer and wider as well as several feet higher. New features will include railings or guardrails where needed. The foundation of the bridge replacement will be placed outside of the existing creek channel to help reduce debris accumulation underneath the structure.

Questions?
