Oso update

The recovery of the 530 slide area will take many years. Fortunately, it looks like Hwy. 530 may be completely open in both directions as early as October. One lane is currently open. A pilot car leads a line of cars rotating in each direction.

Millions of dollars in charitable contributions have been raised for the slide area victims. Even more millions of dollars in government money is being poured into the area. I was part of the Snohomish County team that persuaded the Puget Sound Regional Council to shift \$5,000,000 to help the economic recovery of the area. We've asked Darrington and Arlington to prepare a list of transportation and economic development projects to be reviewed by Snohomish County.

We are looking forward to helping these communities recover from this terrible tragedy.

County employees raise \$48,000 for Oso victims

April fundraising efforts by Snohomish County employees, their friends and family, and community members through the SnoCope Credit Union raised \$48,252.78. The money will benefit those affected by the 530 slide.

Thanks to Boeing employees

The Employee's Community Fund of Boeing Puget Sound gave \$30,000 to the Marysville Food Bank for facility upgrades and equipment for improved client outreach and to meet growing capacity, such as a new storage shed, two

refrigeration units, four computers, a laptop, printer, security system and backpacks and supplies for their Student Backpack Program.

Marysville Food Bank is a "partnership," supported by 18 community churches, service clubs, schools, businesses, volunteers and individuals. Over 250 families are served each week. The equipment and upgrades funded by ECF will provide more efficient client processing, capacity to store more goods, and cameras to ensure that employees and products are kept safe and secure.

Pack It In, Pack It Out Campaign Launch

Did you know that the 4.7 million park visitors leave as much as 346 TONS of garbage in Snohomish County Parks each year?! That's a lot of garbage, and a lot more garbage than our parks need.

If visitors took the garbage they generated home with them, instead of disposing it in park garbage cans and dumpsters, we could recycle more waste, keep our parks cleaner, and better use Parks resources to keep our Parks great!

So..... Pack It In, Pack It Out, and Recycle at Home!

Walk the trails in Snohomish County's parks for great exercise!

Enjoy the peaceful and beautiful scenery while taking a brisk walk each day. The trails in Snohomish County's park system offer a variety of experiences. Check out the trails at Willis Tucker Park, Centennial Trail, Lord Hill, Narbeck Wetland Sanctuary, Flowing Lake, Kayak Point, River Meadows, North Creek, Meadowdale, McCollum, Tambark Creek and more at www.snocoparks.org.

Walking can...

1. Help control your weight.
2. Help you avoid cigarette smoking.
3. Help control your blood pressure.
4. Increase your HDL (good cholesterol).
5. Give you more energy.
6. Relax you and make you feel less tense.
7. Tone your muscles and keep your bones strong.
8. Make you look and feel better.
9. Aid in appetite control.
10. Improve your ability to fall asleep quickly and sleep well.
