Snohomish County Solid Waste Division Named 2016 Leader in Sustainability

Call2Recycle Recognizes County Performance of Recycling more than 100,000 Pounds of Batteries

EVERETT, Wash., May 1, 2017 – One of the nation’s premier battery recycling programs, Call2Recycle, has selected Snohomish County’s Solid Waste Division as a recipient of its 2016 Leader in Sustainability Award. The award recognizes the 100 top performing Call2Recycle collection sites in their commitment to environmental preservation through battery recycling.

“Sustainability is a priority for Snohomish County,” said Steve Thomsen, Public Works Director, “This is just one example of how our partnerships with various organizations enables us to help protect Snohomish County’s natural resources.”

Snohomish County celebrated its 16th consecutive year of partnering with the Call2Recycle program in 2016. In 2015 and 2016, the county diverted 127,404 pounds of batteries from landfills to the Call2Recycle program. Collected batteries managed by the Call2Recycle program are often recycled into new products, such as silverware, pots and pans, or new batteries. In addition to participating in the Call2Recycle program, Snohomish County has recycled 281,435 pounds of lead acid car batteries during that same time period.

“In 2016, the county recycled 1.7 million pounds of hazardous material,” said Matt Zybas, Snohomish County Solid Waste Division Director. “These materials were able to be beneficially reused and recycled and kept out of landfills. The Solid Waste Division works to reduce the overall waste collected in Snohomish County by promoting programs like Call2Recycle’s Battery Recycling Program.”

Snohomish County residences can dispose of household hazardous wastes (HHW) such as batteries, antifreeze, oil, and pesticides for free at the Snohomish County’s Hazardous Waste Drop-off Station in Everett. To find a map of the location, hours, and a list of materials accepted or prohibited, visit our [website](#).

About Snohomish County Public Works

The Snohomish County Public Works Department constructs and maintains county roads; controls and manages surface water quantity, quality, and fish habitats; and oversees the recycling and disposal of

solid waste. The department's main office is located at 3000 Rockefeller Ave., Everett, WA 98201. For more information about Snohomish County Public Works, visit www.snohomishcountywa.gov/PublicWorks.
