Project Details

Snohomish County Public Works is working on multiple road improvement projects in the unincorporated county area near Bothell, Alderwood Manor and Brier to meet traffic and pedestrian demands. The open house will focus on the following projects:

- 14th Avenue West Extension Project (creating an extension of 14th Avenue West from 220th Street SW to Locust Way)
- Locust Way and Larch Way/Logan Road Intersection Improvements

Join us for the open house and be a part of the decision making for the potential 14th Avenue West extension project and the proposed traffic control plan and improvements at Locust Way/Logan Road.

14th Avenue West Extension Project

The proposed 14th Avenue West Extension Project will improve traffic flow near Locust Way by providing an alternative route to 228th Street SW. This project proposes creating a continuous corridor from Locust Way above 215th Place SW to 228th Street SW.

Improvements to 14th Avenue West include adding a northerly extension with bike lanes, sidewalks, stormwater detention and treatment facilities, and a new intersection at 14th Avenue West and Locust Way.

This project is at 30 percent design phase and construction funds have not been secured.

Locust Way and Larch Way/Logan Road Intersection Improvement

Proposed changes to the Locust Way and Larch Way/Logan Road intersection are expected to improve traffic flow and operations. Intersection improvements may include the addition of a traffic signal with left- and right-turn pockets.

This project is currently in the preliminary design phase with construction estimated to begin in 2019.

Title VI

Interpreter and translation services for non-English speakers and accommodations for persons with disabilities are available upon request. Please make arrangements in advance by calling 425-388-ROAD (7623).
