* Owners of NTAs that will be implemented within **one or two LIO geographies** should follow the process described in Appendix B. LIO NTA Development and Review Process for those LIOs, including **submitting a draft NTA Fact Sheet to the applicable LIO(s) by February 6, 2018.**

**NTAs that are flagged by LIOs or tribes will be withheld from review until a resolution is achieved. This accounts for the fact that there may be significant changes to an NTA based on dialog between affected parties, and prevents the need for potentially more than one review.
