

PURPOSE OF THE MEETING

To review changes to the plan presented at the third public meeting and allow the public to provide comments and ask questions.

DISCUSSION

Tom Teigen explained the current progress of the park project. Steve Dickson reviewed the current progress on the road project. Bruce Dees reviewed the changes to the previous plan, notably the acquisition of the property to the east, elimination of dedicated softball fields, removal of two athletic fields north of 240th, reconfiguration of the synthetic turf soccer fields and addition of a synthetic field, and the adjusted buffer resulting from the changes. Bruce then asked for feedback from the public.

PUBLIC COMMENT

Verbal

- Concerns that a significant amount of traffic will come from the east
- Concerns that pedestrian will not travel up and along 240th (improvement is unnecessary)
- Concerns that park is not being designed for the community, but to serve a larger area instead
- Would like to see the sidewalk on 75th extend north of 240th St.
- The intersection at the Woodinville Snohomish Road should prioritize a "right turn only" lane over the dedicated left turn lane
- Parking should be reduced, and more fields should be eliminated from the plan
- Only one 90' base path baseball field exists in the area. More should be included at the park.
- Consider parking down at Brightwater and utilizing a "People Mover" to get people to the park
- There was a request to further explain the parking on grass north of 240th St. Tom Teigen explained that the intent is to eliminate all chances of parking in the neighborhood. In the rare event that all parking spots fill up during a large tournament, park visitors could park on the large open space north of 240th Street.
- A neighbor along 240th Street requested that all trees be removed from the buffer and replaced with healthy conifers.
- There are sightline issues to the south at the intersection of 240th Street and Bostian Road.
- Police/Sheriff should be utilized to ticket people driving too fast along 240th Street.

Note Cards
