

Carter Road will be closed for construction June 20-October

Carter Road will be closed beginning June 20 so that Swamp Creek Bridge #546 can be removed and replaced with a new bridge. The closure will last until the new bridge is completed in October.

The new bridge will be a concrete structure with 5.5-foot wide sidewalks on both sides and 12-foot wide travel lanes. Five-foot wide shoulders will also be added to accommodate bicyclists. The bridge will be longer than the current structure to span the creek and eliminate the center piers which currently collect debris. Invasive plants near the bridge will be removed and replaced with native plants.

Road closure: The bridge replacement project will require an unavoidable **full road closure to all pedestrians, bicyclists and vehicles** until October 2013.

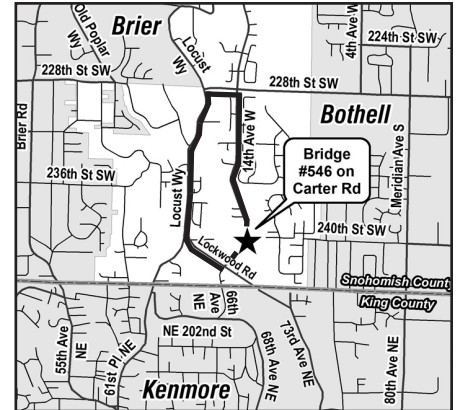

Vehicular detour route: During the road closure, a detour route will be set up around the project on Carter Road, 228th Street SW and Locust Way.

Stay informed: It is important to us that you can contact us and receive updated project information as it becomes available:

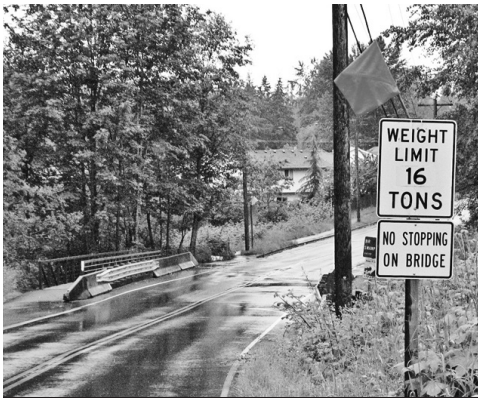

1. **Visit** www.snoco.org, and type "bridge 546" in the search box.
2. **Subscribe** to the project page to receive email updates on the project by selecting the "e-subscribe" link, or call 425-388-3137 and we will add your name.
3. **Email** questions and comments to: transportation@snoco.org, subject "Carter Road."

This paper is recycled & recyclable. April 2013 (D)

4. **Mail** questions and comments to: Tina Hokanson, Communications, Snohomish County Public Works, 3000 Rockefeller Ave., M/S 607, Everett, WA 98201.
5. **Call** Tina Hokanson, 425-388-3789.
