Snohomish County Hearing Examiner,

We live on the corner of Richmond Beach Dr. NW and 196th. My family and I will be deeply impacted by the Point Wells Development if it were to come to fruition. Just dealing with the new traffic impact of the road rechannelization has been a nightmare. It's not even fully implemented and traffic has been backed up 20-30 cars deep at the top of the hill heading east in the am. We moved our family to this area for quality of life. I do not agree with the decisions that are being made in our lovely community by the Snohomish County and the City of Shoreline. We are all learning to accept the population growth in the PNW but allowing a project to come in to a quiet community that now has one lane of traffic heading in and out of this area would be devastating. The volume of traffic on the roads is already terrible, I have Metro buses that park in front of my house as a rest stop..... 19 hours a day(from 5 am-midnight). Every 15 minutes daily..... even on holidays! Please do not allow a project to come in to our community that would add more noise, traffic, emissions and etc. Between the coal trains and the emissions from all the buses starting and stop their motors every 15 minutes the buildup of black debris I clean off my windows every week is atrocious. I fear for the health and safety of my family.

Please do not allow the Point Wells Project to bring traffic through our beautiful neighborhood!

Thank you for your time,

The Dreessen Family (Randy, Kristi and kids)
19542 Richmond Beach Drive NW
Shoreline, WA 98177
