Hello,

I am a long time Shoreline resident having lived in Shoreline most of my life. The proposed development of Point Wells without adequate consideration to the increased traffic will have considerable adverse effect on our neighborhood. The morning and afternoon traffic around and near Boeing Creek Park, Richmond Beach Road and other Western Shoreline areas is already difficult to get around and walk. There are limited sidewalks and drivers who do not care for the speed limits. The additional traffic would be detrimental to the neighborhood feel and have a negative effect on our housing values.

I encourage you to reconsider this development that does not take into account the traffic impact.

Thank you,

Paul Herbord
