Dear Sir/Madam.

I am writing to voice my support for Snohomish County's decision to deny a request from BSRE for an extension to their permit application for the development at Point Wells.

My family and I have resided in our home near Point Wells for eighteen years, and I am alarmed by the irreversible damage to our community that would take place if BSRE's planned development were to be approved. I am particularly troubled by the devastating impact the development would have on traffic, parking, and views. The absence of any reasonable plan to address these issues proves why this project would be so harmful to the citizens of Snohomish County and surrounding communities, and why BSRE's request for an extension should be denied.

Thank you for considering my comments as well as those from the many other citizens in our area who share these grave concerns.

Respectfully,

Thomas W. Hull
