Subject: Point Wells - please, no!
Date: Monday, May 7, 2018 4:56:43 PM

There are so many reasons that the Point Wells project shouldn't proceed including

- the deleterious effect on the sound
- the height of the proposed towers and what that'd do to this old residential neighborhood
- the additional traffic that Richmond Beach road will have to bear
- the lack of public transit to the site, and what that means for more traffic
- the parking issues
- among others.

And probably the least salient for y'all in power, but highly relevant to me, my family and my neighbors in this part of Shoreline -- is what it'll do to our quality of life here in Richmond beach.

I hope you'll take into account us regular people.

Thanks for your consideration,

Nancy York-Erwin
(At The Richmond Condominiums)
