

MEMORANDUM

To: Alison Hodgkin, Senior Planner– Snohomish County Planning and Development Services

CC: Jackie Chandler, Shoreline Administrator – WA Department of Ecology

From: David Pater, Regional Shoreline Planner – WA Department of Ecology Shorelines and Environmental Assistance Program

Date: June 28, 2019

Subject: Snohomish County SMP Periodic Review Amendment - Determination of Initial Concurrence

Sent via email to: alison.hodgkin@snoco.org, jcha461@ecy.wa.gov

Thank you for the county's June 27, 2019 initial submittal of periodic review amendment to the Snohomish County Shoreline Master Program (SMP). Ecology is required under WAC 173-26-104(3) (b) to make an initial determination of consistency with applicable State laws and rules, including the State Shoreline Management Act (RCW 90.58) and SMP Guidelines (WAC 173-26).

This serves as Ecology's written statement of initial concurrence for your proposed SMP periodic review amendments.

As described under WAC 173-26-104(4), the next step in the approval process is for your jurisdiction to formally adopt the amendment through resolution or ordinance and send the SMP final submittal for our formal agency approval as outlined in [WAC 173-26-110](#). The intent of this initial review & determination is to provide local elected officials an opportunity to consider Ecology's analysis before local adoption. We have no comments at this time.

Please let me know if you have questions or concerns. I can be contacted at (360) 255-4375 or david.pater@ecy.wa.gov.
