

SNOHOMISH COUNTY JOB DESCRIPTION

ELECTRICIAN II

Spec No. 7029

BASIC FUNCTION

To support the Solid Waste Division in performing electronic and electrical work at all Solid Waste facilities.

STATEMENT OF ESSENTIAL JOB DUTIES

1. Installs, maintains, troubleshoots, and repairs all electrical systems and equipment including high voltage systems (motor control centers; hydraulic, water, and air handling motors; emergency generators; ignition systems; lighting; etc.), low voltage systems (digital and analog I/O; receptacles; fire; security; HVAC; lighting; etc.), and communication systems (Ethernet, telephony, Wi-Fi, radio, etc.).
2. Assists in the installation, maintenance, troubleshooting, and repairing of advanced electrical systems including industrial control system (ICS), supervisory control and data acquisition (SCADA), and programmable logical controller (PLC).
3. Assists in the design, coding, testing, troubleshooting, and adjusting PLC software to ensure safe, efficient operation of equipment.
4. Completes and maintains electrical records including permits, work orders, and as-builts.
5. Participates in the design and construction of advanced electrical and electronic systems including specifications, plans, and standard operating procedures (SOP). Reviews electrical and electronic systems designed by consultants for technical adequacy; makes periodic-inspection of contractor's work to ensure installations are constructed according to plans and specifications.
6. Interprets blueprints, sketches, and other instructions; may draw or sketch work to be performed.
7. Performs other electrical preventative maintenance, installation and repair duties as required.
8. Procures equipment, materials, parts and supplies; conducts research into the technical aspects of machinery and equipment. Provides purchase request information and justification as needed; reviews purchase specifications as required.
9. Assists in the installation, testing, termination, and repairing of fiber optic cable and auxiliary components.

STATEMENT OF OTHER JOB DUTIES

10. Performs other duties as required.

SNOHOMISH COUNTY JOB DESCRIPTION

ELECTRICIAN II

Spec No. 7029

Spec No. 7029

SUPERVISION

The work is performed under the supervision of a Solid Waste Operations Supervisor or Electrician – Lead as assigned and requires considerable independent judgment by the employee. Work is reviewed through status reports, staff meetings, and results obtained which may be spot checked for technical adequacy, and conformance with work orders, plans and specifications.

WORKING CONDITIONS

The work is performed indoors and outdoors in all types of weather at work sites throughout Snohomish County. Walking over rough terrain and working in confined spaces with hazardous gases and obnoxious odors present is required. Employees will wear County-supplied safety gear as required. Operation of a motor vehicle on public roads is required.

Work in this class involves rotating shift assignments and requires employees to work evenings, weekends, holidays, and overtime as required.

Snohomish County is an Equal Employment Opportunity (EEO) employer.
Accommodations for individuals with disabilities are provided upon request.
