

SNOHOMISH COUNTY INTERNSHIP DESCRIPTION

INTERN – ENGINEERING TECHNICIAN INTERN – PUBLIC WORKS (SEASONAL)

Spec No. 9220

SNOHOMISH COUNTY INTERNSHIP PROGRAM

Snohomish County supports internship programs that provide work experience for students in an accredited post-secondary institution that is related to their course of study. The internship program is designed so the student will have the opportunity to apply principles and theories learned in the classroom, gain new skills, explore a career path and be supervised and mentored by a professional in their field.

The student may choose to receive scholastic credit for their internship in accordance with the guidelines set by their school.

BASIC FUNCTION

To perform a variety of Engineering Technician support activities in the areas of Land Surveying, Geomatics, Geographic Information System services, Engineering Technology and Construction Management work including field and office assignments.

The internship season will be between May – September and will last 8 – 12 weeks.

STATEMENT OF ESSENTIAL INTERNSHIP DUTIES

Interns may be required to perform one or more of the following job duties:

1. Assist Engineering Services staff with the design, survey and construction of roads, bridges, surface water, solid waste, and other public works projects to assure quality plan production and accurate quantities of materials.
2. Assist in preparing data and reports for use and consideration by design, survey or construction staff. Assist in providing information and performing research duties.
3. May write correspondence and create charts and tables using Microsoft Office products including Word, Excel, and Power Point or other engineering software.
4. Assists in the review of surveying calculations, project document filing, computer data entry, and organizing field and office data.
5. May assist Geographic Information System staff with field and office work.
