

SNOHOMISH COUNTY JOB DESCRIPTION

PERMIT TECHNICIAN, SR.

Spec No. 3330

BASIC FUNCTION

To perform a variety of technical tasks in support of a large scale, automated permit application and issuance program. The work includes the review, approval, acceptance and input of pre-permit and permit application information; verification of legal descriptions; assignment of addresses; detailed property, records and project history research; development and maintenance of a permit database; coordination of project status reviews; and the routing and monitoring of various building, construction and grading plans and applications through the building and land use permit review processes.

STATEMENT OF ESSENTIAL JOB DUTIES

1. Screens applications and plans for adequacy; calculates and verifies fees, determines expiration dates, assigns permit numbers, reviews for requisite signatures and seals, ensures inclusion of necessary attachments and forms, determines appropriate routing of completed permits and plans.
2. Issues construction and land use permits using automated and manual procedures to conduct quality control reviews of all proposed project elements to ensure complete and accurate information prior to permit issuance.
3. Assigns, addresses and establishes all proposed project addresses in an automated system.
4. Verifies legal descriptions of property sites by comparing plans, maps, and/or county real estate records.
5. Reviews for completeness and final approval all utility and access permits in conformance with adopted codes and standards.
6. Reviews, approves and tracks construction project bonds in accordance with adopted codes.
7. Tracks and coordinates the final review and approval of subdivisions, including coordination with the County Executive and Council.
8. Receives customers and interviews to determine assistance needed; log customers into tracking system; provide assistance with all basic processes and permit information.
9. Coordinates routing of all projects including those that require expedition or have other unusual processing or monitoring requirements.
10. Performs detailed records research to generate construction and land use history of structures using multiple records sources; reconstructs use histories of sites for proper application of relevant codes and regulations involved in review and issuance of construction/land use permits.

SNOHOMISH COUNTY JOB DESCRIPTION

PERMIT TECHNICIAN, SR.

Spec No. 3330

STATEMENT OF ESSENTIAL JOB DUTIES (continued)

11. Explains department policy and procedures to permit applicants regarding permit process, permit issuance, establishing addresses, plans routing and inspection monitoring.
12. Monitors project status, coordinates status reviews, determines appropriate course of action to bring projects to closure.
13. Updates the permit database and provides status information; generate and create data base reports for information as requested.
14. Provides general information and assistance to the public; explains services covered in policies, procedures, and schedules; locates information from counter records and provides it to the public as requested; provides the public with maps and handouts and files.

STATEMENT OF OTHER JOB DUTIES
