

Garbage Service Providers in Snohomish County

Garbage created in the county must be disposed at a county solid waste facility. Contractors can “self haul” waste to county facilities listed on the back or hire a local garbage hauling company.

Garbage companies that can legally haul waste are limited to those listed below. Use this map and list to determine who your garbage hauler is. If unsure, provide the garbage company with your address/location of the job site and they will tell you if they are your garbage service provider.

If recycling, construction and demolition job sites are required to maintain separate, clearly labeled garbage and recycling containers. Recycle bins must contain less than 10 percent incidental waste by volume.

How to Calculate Drop Box Disposal Fees

- Measure the load's length, width and height (in feet).
- Multiply them together.
- Divide by 27 (equals the cubic yards).
- Multiply the answer by \$20 and round to the nearest dollar (\$20 minimum fee).

Recycling Options

Yard and wood debris can be recycled for a reduced rate of \$45/ton at Snohomish County Transfer Stations.
