

# Skykomish & Snohomish Rivers

## Signage Location Plan & Message Schedule - FINAL

PREPARED FOR SNOHOMISH COUNTY PARKS,  
RECREATION AND TOURISM

12/27/2019

# INTRODUCTION

---

Enclosed is a sign location plan and message schedule for the Skykomish-Snohomish River project access sites.

The document provides a sign location plan followed by a message schedule for each access site. All sign content is based on information gathered from the Technical Advisory Group and the design team's site survey. The sign location plans and message schedules only include wayfinding and regulatory information. Locations for interpretive signage are not provided.

Each agency should review the sign locations and messages selected for their site and advise on concerns or changes they may have to the sign locations or the messages.

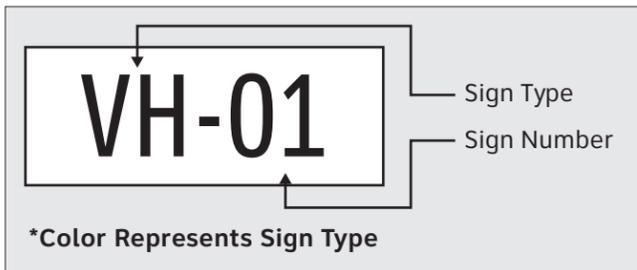

**SNOHOMISH**

# Snohomish

## MAP KEY

- Wayfinding Signage
- River Information/Identification Signage
- Regulatory Signage
- Boat Launch
- Parking Area
- Recreation Area
- Restroom
- Kayak/Canoe Rack

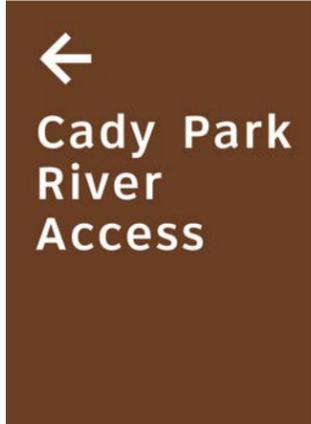

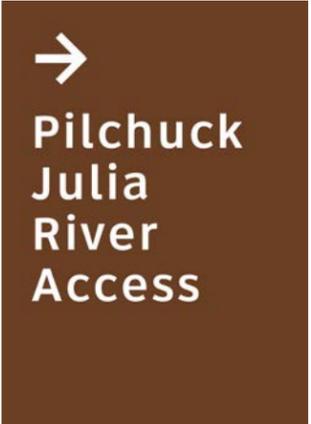

These documents are intended to illustrate design intent and should only be used as a general guideline. All locations shown are approximate. All final locations are to be determined during pre-installation site walk-thrus, prior to sign fabrication and must be approved by Owner. Detailing and information contained on these pages shall not be reproduced, copied, or utilized except for the specific project for which they were created, without previous written authorization from Tangram Design, LLC. © 2019 by Tangram Design, LLC.

Signage Location Plan

Snohomish

- These drawings are intended to illustrate design intent only and are not for construction. All final engineering and conditions of the project are the responsibility of the fabricator. Shop drawings by the fabricator must be submitted for approval, prior to proceeding with fabrication.
- The quality of fit and finish on the final product must meet or exceed the requirements of these design intent documents. Any variations to design, materials, or fabrication methods must be approved by the Client and Tangram.
- Colors shown are for reference only and are subject to the limitations of the printing process. Refer to referenced color systems contained within these drawings for actual specifications.
- Scaled examples shown are for reference only, and do not necessarily reflect actual site conditions. Detailed site surveys are required prior to fabrication and installation.
- Messages shown in these drawings are for general reference only. Refer to message schedules for actual required messages.

SHEET TITLE

79

SHEET NUMBER

Project/State	Location	Sign ID	Message	Details
Regulatory Signage > Draft 1	CD	6.A-15	<p><b>CABLE DROP</b></p> <p><b>CLASS 1 Skill Level: Novice</b> Fast moving water with riffles and small waves. Flow obstructions, all obverse and evenly spaced with little leaning.</p> <p><b>CLASS 2 Skill Level: Novice</b> Straightforward rapids with white water channels. Occasional maneuvering may be required. Rocks and medium sized waves are easily missed by boaters/paddlers.</p> <p><b>CLASS 3 Skill Level: Intermediate</b> Rapids with moderate, irregular waves. Complete maneuvering and good boat control is required. Large waves, obstacles, and eddies may be present. Swimming is advisable for transportation parties.</p> <p><b>CLASS 4 Skill Level: Advanced</b> Intense, powerful but predictable rapids. Requires precise boat handling. May feature large, immovable waves, holes or over-rotated passages demanding boat maneuvering. Swimming may be necessary for boat crew rescue.</p> <p><b>CLASS 5 Skill Level: Expert</b> Extremely long, obdurate, or very violent rapids. Drags may contain large, immovable waves, holes, or steep chutes with complex rapids. Rapids may contain the long distances between pools. Swimming is recommended but may be difficult.</p> <p><b>CLASS 6 Skill Level: Expert</b> Risks have almost never been attempted and are extremely difficult, unpredictable, and dangerous. Consequences of errors are severe and may be fatal. Experts only, at favorable water levels, after close inspection and testing of procedures.</p> <p>Proper flotation devices required. Flotation devices that cannot withstand river conditions are prohibited.</p> <p><b>Skykomish River</b></p>	<p><b>Sign Type</b></p> <p>6.A - River Classification</p> <p><b>Location</b></p> <p>CD - Cable Drop</p>

## Skykomish River

Sign Message Example 2

### SIGN TEXT

#### Class 1 Skill Level: Novice

- Fast moving water with riffles and small waves.
- Few obstructions, all obvious and easily missed with little training.

Photo Credit: American Whitewater

#### Class 2 Skill Level: Novice

- Straightforward rapids with wide clear channels.
- Occasional maneuvering may be required.
- Rocks and medium-sized waves are easily missed by trained paddlers.

Photo Credit: American Whitewater

#### Class 3 Skill Level: Intermediate

- Rapids with moderate, irregular waves.
- Complex maneuvers and good boat control is required.
- Large waves, strainers, and eddies may be present.
- Scouting is advisable for inexperienced parties.

Photo Credit: American Whitewater

#### Class 4 Skill Level: Advanced

- Intense, powerful but predictable rapids.
- Requires precise boat handling.
- May feature large, unavoidable waves, holes or constricted passages demanding fast maneuvers.
- Scouting may be necessary the first time down.

Photo Credit: American Whitewater

#### Class 5 Skill Level: Expert

- Extremely long, obstructed, or very violent rapids.
- Drops may contain large, unavoidable waves, holes, or steep chutes with complex routes.
- Rapids may continue for long distances between pools.
- Scouting is recommended but may be difficult.

Photo Credit: American Whitewater

#### Class Level 6 Skill Level: Expert

- Runs have almost never been attempted and are extremely difficult, unpredictable, and dangerous.
- Consequences of errors are severe and may be fatal.
- Experts only, at favorable water levels, after close inspection and taking all precautions.

Photo Credit: American Whitewater
