Snohomish County Launching Final Phase of 2020 Census Preparations

EVERETT, Wash., February 28, 2020 –Snohomish County’s Complete Count Committee announced the final phase of actions in preparation for the 2020 United States Census, which includes trainings, locations for assistance completing the survey, and more.

Starting March 12-20, 2020, every household in Snohomish County will receive a letter from the U.S. Census Bureau, inviting them to fill out their form online or by phone. Unlike prior paper surveys, the Census Bureau will use online responses as its primary method to gather information in the 2020 Census. Reminder letters will be sent out between March 16 and April 4. Households that don’t complete the online survey by April 8 will receive a letter from the Census Bureau that includes a paper census survey. Households that do not submit any 2020 Census form will get an in-person visit from a Census Bureau worker between May and July 2020.

“As one of the fastest-growing counties in the United States, there is a lot at stake for Snohomish County in this Census,” said Snohomish County Executive Dave Somers. “To ensure every person residing in our county is counted, we have been working diligently since 2019, coordinating with partners from across the county, to ensure our community members have the resources and information they need to participate in the 2020 Census.”

“We are committed to helping our communities achieve a complete count this decennial census,” said Lois Langer Thompson, Executive Director of Sno-Isle Libraries. “Our public libraries can help everyone build a civic life where you can register to vote, get a library card, and participate in the census.”

Over the next several weeks, the Committee members will be hosting Census 101 events throughout the County, in English and in Spanish, to provide the community with information on what to expect as well as Census Day Parties to provide questionnaire assistance to the public. These opportunities will be critical for ensuring residents within the county have access to technology and knowledgeable help. A list of current events has been attached below.

The population of the United States is counted through the U.S. Census, which takes place once every 10 years. An accurate count will ensure Snohomish County receives its fair share of federal resources and political representation in the U.S. Congress. Significant funding is at stake for federal programs that Snohomish County families and communities rely on, including Head Start, Supplemental Nutrition Assistance Program (SNAP), transportation, Medicare and Medicaid. It is estimated that for each person that is counted, Snohomish County will gain \$2,000 per person per year in federal and/or state funding.

For more information and details on all events countywide, please visit the County's 2020 Census website for more information and details on all events countywide:

<https://www.SnohomishCountyWA.gov/2020>.

A full list of trainings, events, permanent assistance locations and Census Day Parties/Questionnaire Assistance events is available at <https://www.snohomishcountywa.gov/5477/Calendar-of-Events>.

Sno-Isle Libraries, key partner of Snohomish County's Complete Count Committee, is also scheduling numerous 2020 Census events, including census job information and recruiting, and library events with civic partners that explain the importance of accurate census numbers. Go to <https://www.sno-isle.org/census> to see a list of all upcoming census events. Starting March 12, every Sno-Isle Libraries location will have computers available for communities to fill out their Census form, regardless of whether they have library cards.

About Snohomish County's Complete Count Committee

The Complete Count Committee (CCC) was launched in 2019 to provide a space for cross-sector partners with a stake in the decennial census to plan and act together to leverage their existing population and infrastructure and coordinate all parties' outreach to minimize duplication and gaps. The goal of the CCC is to ensure that all communities of Snohomish County thrive in the decade after 2020, including receiving its fair share of federal funding and political representation, the Census Bureau must count all the County's residents accurately in the upcoming decennial census.

The following local governments, Tribes, and organizations have been supportive of census efforts countywide (organized in alphabetical order):

Arlington Public Schools – Equity and Student Success
City of Arlington

	<p>A multi-community cultural event about exploring surface, shallow and deep cultures that we each bring to our communities. We will be building unity through community dialogue, activities, education, entertainment, food and fun. During Stronger Together, attendees will experience culture, they will explore their own culture, and they will have many opportunities to interact with and celebrate the cultures from our communities.</p>
