Dear Sir;

the whole plan is troubling. The height of the buildings, the main road access through Richmond Beach. On and on.

The plan appears to be driven by wanting to increase tax revenue. But at what expense? Destroyed views for most of Woodway and those who live along the shore on Richmond Beach Road.. increased or even doubling of road traffic for those of us in Richmond Beach. Does anyone ever address the quality of life issue? Does it matter to anyone?

If it is so important to Snohomish County to convert Point Wells into a mini enclave where only the well to do can afford to live then you're robbing the rest of the population of a potential place that should be considered as a park, a place of peace and quiet. I fail to see how RBC benefits and question the motive of the Shoreline city council in this matter.

Thanks, Marion
