

Snohomish County Parks, Recreation & Tourism Phase 2 Recreation Guidelines

(updated 7/31/20)

Please recreate responsibly. If a park is crowded and the parking lot full, please have a plan b and go somewhere else (don't park illegally on roads or neighborhoods – emergency vehicles need access to shoulders and gates). Help keep our parks open and reduce crowding, maintain social distancing, wear a mask, pack it in/pack it out and stay safe out there! Our park rangers may close gates and turn cars/pedestrians away if a park is over capacity.

Starting June 5, 2020

What Snoco Parks is doing to keep you and your family safe during COVID-19:

- Requiring camping reservations so you can enjoy a contactless camping experience. Reserve, prepay, arrive and enjoy worry-free. We are not allowing drop-in camping at most campgrounds so we know we will not have an overcrowded campground (Squire Creek is the only first come, first served campground).
- For on-site amenities such as firewood, extra vehicles and dump site fees, we prefer a contactless credit card pay process to keep you and our rangers safe.
- We are keeping communal and high-contact surfaces closed (showers) until further notice.
- Limiting gatherings as per Safe Start guidelines to no more than 5 people outside your household.
- Staff will wear cloth facial coverings for your safety.

Campground and Park Details

Why are some things still closed?

- Snohomish County Parks, Recreation & Tourism is following guidance from Snohomish County leaders, the Snohomish County Health District, the Washington Safe Start Reopening Plan, and the CDC to help protect our residents, visitors and park users from the spread of COVID-19. The remaining restrictions/closures are in place in order to limit gatherings, allow for proper social distancing, promote sanitation and keep the community safe.
- Questions or comments? Email: Contact.parks@snoco.org Call: 425-388-6600

Other closures:

Approximately one (1) mile of the Centennial Trail is closed for all public access until further notice. The section is between Hilltop Road and Wade Road and is effective June 18, 2020. Closure is due to a sinkhole and is pending construction. There will be no detour provided. See [project page](#) for updates and details.
