

# Notice of SEPA Threshold Determination

## Mouse Creek Drainage Improvement Project, Phase 2 on Sauk Prairie Road

### Project Description:

This project is to reduce flooding over Sauk Prairie Road by restoring the channel of Mouse Creek, which will also improve fish passage primarily for coho and other species. Phase 2 proposes to excavate downstream of the roadway for approximately 525 feet to re-establish and restore the historic stream channel. Approximately 70 feet of the channel will be on U.S. Forest Service property immediately adjacent to the north side of the roadway, and the remainder will be on private property for which the county has obtained an easement. Approximately 494 cubic yards of sediment will be removed from the channel downstream of the roadway. Construction will take place in late summer-early fall 2021.

### State Environmental Policy Act (SEPA) Decision:

On November 2, 2020, the Department of Public Works determined that this project does not have a probable, significant adverse impact on the environment and has issued a Determination of Non-Significance (DNS). An environmental impact statement (EIS) under RCW 43.21C.030(2)(c) is not required. This decision was made after review of SEPA documents and other information on file with this agency. These documents can be viewed on the county's website: [www.snohomishcountywa.gov/4072](http://www.snohomishcountywa.gov/4072).

**SEPA Appeal:** There is no opportunity for appeal at this time. Pursuant to SCC 30.61.300(10), SEPA appeals related to shoreline permits shall be submitted to the state shorelines hearings board together with appeal of the underlying shoreline permit.

**Project Name:** Mouse Creek Drainage Improvement Project  
**Project Location:** Sections 7 & 18, Township 32N, Range 10 E, W.M.  
**Project Number:** RC1582  
**UPI Number:** 15-0058  
**Lead Agency:** Snohomish County Public Works  
**Notice Published:** Sunday, November 8, 2020
