

Youngren Farm

The Youngrens manage farmland that was established in 1901 by William and Annie McDougall, their great-grandparents. Production then included milk, hay and corn. The family was Snohomish County Dairy Family of the year in 1983 and honored by the State in 1984. Now Joe, with his wife Lyndsie and their six children, and Steve, with his wife Marilyn and their four children, all work on the farms which evolved from the McDougall's first efforts.
