

County Offers Three Types of Permits Online

Online Snohomish County residential mechanical, residential plumbing and re-roof permits are available to property owners and contractors twenty-four hours a day through an online service known as MyBuildingPermit.com.

Licensed contractors and homeowners are able to apply for those permits on-line, pay the appropriate permit fees, and obtain the permits without having to fax, e-mail, or mail the document to the County Planning Department.

Permits available online can be issued immediately when the application process has been completed; since they are not affected by the regulatory boundaries and do not require a site visit for approval.

The previous Snohomish County Executive Aaron Reardon said online permitting makes working with the County more convenient, more efficient and less costly for citizens. Today we continue to work towards the goal of being user friendly.

MyBuildingPermit.com is a collaborative effort of the cities of Bellevue, Bothell, Issaquah, Kenmore, Kirkland, Mercer Island, Sammamish, Snoqualmie, Woodinville and Snohomish County — governments working to provide a unified approach to building processes and services.
