Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

1. Introduction

The 2021 Action Plan is required by the U.S. Department of Housing and Urban Development (HUD) in order to receive federal grant funds available under the Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) programs. The plans serve as local planning documents and applications to HUD for these funds. The grant funds may be used for affordable housing, facilities providing public or community services, infrastructure improvements such as streets, sidewalks, and water/sewer systems, public services, homeless programs, and economic development activities. In addition, the funds must be used primarily to benefit low-income persons and neighborhoods in our community.

The Snohomish County Urban County Consortium (the Consortium) is a partnership between Snohomish County and the cities and towns within the county. The partnership allows the Consortium, as an Urban County, to receive funds each year under the CDBG, HOME, and ESG programs as formula grants and to use these funds to address local needs and goals. Snohomish County is the lead agency for the Consortium and the grant recipient of CDBG, HOME, and ESG funds on behalf of the Consortium. In this capacity, Snohomish County is responsible for the overall administration, planning, monitoring, and reporting requirements for these programs, including citizen participation and private and public agency consultation. The Cities of Everett and Marysville participate in the Snohomish County Consortium for HOME funds only and are each also direct grant recipients of CDBG funds that benefit their respective jurisdictions and are the lead agencies for those CDBG funds.

This document is the Snohomish County Consortium - Lead Grantee Template of the 2021 Action Plan for the Snohomish County Consortium CDBG, HOME, and ESG funds and this Executive Summary is the Executive Summary for the Lead Grantee Template. The City of Everett and the City of Marysville each also prepare a Participating Grantee CDBG Template of the 2021 Action Plan for the CDBG funds they each administer directly.

Investment of the grant funds is guided by the priority community needs and goals set forth in the adopted 2020-2024 Consolidated Plan prepared in 2020, in collaboration with residents, public agencies, private non-profit-organizations, faith-based organizations, local governments, and other stakeholders through consultations, surveys, and a citizen participation process. The plan was also informed by quantitative and qualitative data, existing plans and reports, and general research. Additional citizen participation and consultation activities were conducted during development of the 2021 Action Plan and are summarized below.
The 2021 Action Plan is the second-year action plan under the 2020-2024 Consolidated Plan and covers the period of July 1, 2021 through June 30, 2022. It identifies the amount of CDBG, HOME, and ESG grant funds available for the 2021 program year for the Snohomish County Consortium and describes how these funds will be used to help meet the five-year goals established in the 2020-2024 Consolidated Plan.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

For the 2021 program year, a total of $6,389,798 in funding under the CDBG, HOME, and ESG programs is available to the Snohomish County Consortium to help meet the five-year goals. This includes:

- $3,194,680 in 2021 CDBG Grant Funds,
- $75,856 in 2021 Estimated CDBG Program Income,
- $2,012,815 in 2021 HOME Grant Funds,
- $318,637 in 2020 HOME Grant Funds,
- $335,413 in Prior Year CDBG Grant Funds,
- $233,473 in Prior Year HOME Grant Funds, and
- $265,317 in 2021 ESG Grant Funds.

All the activities selected to receive funds under the CDBG, HOME, and ESG programs for the 2021 program year through the Snohomish County Consortium will help address priority needs and goals in the 2020-2024 Consolidated Plan. The $6,389,798 in available grant funds is allocated as follows:

- $3,627,932 for Affordable Housing Projects & Programs,
- $1,212,825 for Public Facility & Infrastructure Projects,
- $483,701 for Homeless, Special Needs, and Fair Housing Service Projects,
- $245,419 for Homeless Shelter, Rapid Rehousing, and Homeless Management Information System, and
- $866,314 for Grant Planning & Administration

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The 2019 program year was the fifth and final year under the 2015-2019 Consolidated Plan. Overall, the Consortium made significant progress on meeting the five-year goal projections during the 2015-2019 Consolidated Plan term. Of the 22 Consolidated Plan goals, 14 met the five-year goal projections by 97% or better, 6 by more than 150% and 3 by more than 200%. The COVID-19 pandemic has also had an
impact on meeting our five-year goal expectations and the county has prioritized staff time to address the pandemic and the implementation of the CARES Act funding allocated to address it.

Meeting Affordable Housing Needs in Our Community

The majority of the CDBG and HOME affordable housing goals have met the five-year goals, with 3 exceeding the goal by more than 125% and 2 meeting the goal at or above 92%. The accomplishments for homeowner minor home repair and tenant based rental assistance have reached, and exceeded, the five-year goals at 129% and 151%, respectively. First-time homebuyer assistance five-year goal is at 94% and the Homeowner Home Repair five-year goal is at 81%.

The rental units constructed five-year goal is at 77% with 23 of the 30 anticipated units completed. Rental housing construction projects funded under these goals take more than one year to complete and must be completed in IDIS in order to be counted in the Consolidated Annual Performance and Evaluation Report (CAPER). In addition, due to the COVID 19 pandemic and the prioritization of staff time directed to the pandemic, closing out rental housing construction projects were delayed. Two affordable housing rental projects with a combined total of 12 HOME assisted units, were both complete and operating in the 2019 program year, but close-out in IDIS was in process and therefore the 12 HOME units could not be counted in the 2019 CAPER.

Making Public Facility and Infrastructure Improvements in our Community

10 Public Facility and Infrastructure (PF&I) projects were completed during the 2019 program year, reflecting progress toward two infrastructure goals and three public facility goals. Five of the six PF&I goals have met the anticipated five-year goal, with both infrastructure goals and two public facility goals, substantially exceeding the five-year goals. Two of the four public facility goals and one of the infrastructure five-year goals significantly exceeded the five-year goals, and two goals were nearly doubled at 196% and 294%. The Public Facility goal 2 was significantly under the anticipated five-year goal at 13%. This goal was to provide public facility improvements for agencies assisting presumed benefit populations. Given that many of the goals substantially exceed the five-year goals, in the 2020-2024 Consolidated Plan process anticipated funding available for PF&I goals were adjusted by increasing anticipated funding available to PF&I goals that indicated more need.

Providing Needed Services in Our Community

The five-year goals for CDBG public service projects serving homeless persons and persons with special needs have exceeded the five-year goals by more than 175%. The annual and five-year goals for CDBG public service projects providing fair housing services was met and the five-year goal was only slightly under the anticipated goal. The annual goal for ESG emergency shelter is slightly under the projected goal, but the five-year goal has been exceeded by 210%. The ESG rapid rehousing one-year goal was met and the five-year goal was met by 90%. The ESG emergency shelter goal and CDBG public services homeless goal both exceeded the five-year goals by more than 200%, indicating significant need for public services and shelter for persons experiencing homelessness.
4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

Snohomish County conducted citizen participation and consultation activities for development of the 2021 Action Plan. Opportunities for input were provided during different stages of development of the 2021 Action Plan, including an initial public hearing, citizen representation on the Technical Advisory Committee and the Policy Advisory Board, which make project funding recommendations, a 30-day public review and comment period and a public hearing once the Draft 2021 Annual Action Plan is developed, and public meetings of the Snohomish County Council prior to approval of the final plan.

Outreach methods for the public hearings included newspaper ads, e-mail distribution lists, internet postings, press releases, and distribution and posting of flyers. The flyers were translated into Russian, Arabic, Vietnamese, Korean, simple Chinese, Marshallese and Spanish. The hearings were conducted as Virtual meetings and reasonable accommodations were available upon request.

Outreach methods for the initial public hearing included publication of a newspaper ad in the newspaper of general circulation in Snohomish County and providing notice of the hearings through email distribution lists, internet postings, and flyers in Russian, Vietnamese, Korean, simple Chinese, Marshallese and Spanish. Those not able to attend the hearings were able to submit comments in writing via e-mail or mail, or in an alternate format upon request. Comments received in the initial stages of development were considered during development of the Draft 2021 Action Plan.

Outreach methods for the 30-day public review and comment period and public hearing on the Draft 2021 Action Plan utilized these same methods and included a newspaper ad in the newspaper of general circulation, a press release, email distribution lists, internet postings, posting of notices, and availability of draft plan copies upon request. Comments received during the 30-day public review and comment period for the Draft 2021 Action Plan will be taken into consideration before adoption of the final 2021 Action Plan.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

Two comments were received during the initial stages of development of the 2021 Action Plan. The first comment received expressed concern for racial injustice regarding an incident that happened in Snohomish County. The second comment expressed the need for affordable housing for low-income homebuyers, specifically for households on fixed incomes and/or for persons with special needs. One comment was received during the 30-day public comment period. The comment encouraged support for existing and expanding CDBG program funds for affordable housing options and public service.
projects for vulnerable populations, and continued collaboration and partnership with Snohomish County. To review the full comments, please see: Appendix 1 to AP-12: Public Comments.

6. Summary of comments or views not accepted and the reasons for not accepting them

NA.

7. Summary

The investment of 2021 CDBG, HOME, and ESG funds in the Snohomish County Consortium area is intended to help maintain and increase decent affordable housing options and to help make suitable living environments more available and accessible throughout Snohomish County.
PR-05 Lead & Responsible Agencies - 91.200(b)

1. **Agency/entity responsible for preparing/administering the Consolidated Plan**

**Narrative**

The Snohomish County Consortium is a partnership between Snohomish County and the cities and towns within the County. The partnership allows the Snohomish County Consortium, as an Urban County, to receive funds each year under the CDBG, HOME, and ESG programs as formula grants and to use these funds to address local needs and goals. Snohomish County is the lead agency of the Snohomish County Consortium and the grant recipient of CDBG, HOME, and ESG funds on behalf of the Snohomish County Consortium. In this capacity, Snohomish County is responsible for the overall administration, planning, monitoring, and reporting requirements for these programs, including citizen participation and private and public agency consultation.

The City of Everett and the City of Marysville participate in the Snohomish County Consortium for HOME funds only and are each also direct grant recipients of CDBG funds that benefit their respective jurisdictions. Pursuant to an interlocal agreement, 21% of the HOME funds received each year by the Snohomish County Consortium are set-aside for City of Everett affordable housing projects; the City of Everett carries out some administrative and planning responsibilities related to these HOME funds, with oversight provided by Snohomish County as lead agency. The City of Everett is the lead agency and grant recipient for City of Everett CDBG funds. The City of Marysville is the lead agency and grant recipient for City of Marysville CDBG funds.
Snohomish County, the City of Everett, and the City of Marysville, coordinated in preparing the 2021 Action Plan. This document is the Snohomish County Consortium - Lead Grantee Template. The Cities of Everett and Marysville have their own Participating Grantee CDBG Templates, which are not included in this publication, but each conduct their own citizen participation process and public comment periods.

1. Introduction

This section includes a summary of activities to enhance coordination between housing providers and agencies providing services, a summary of coordination and consultation efforts with the Everett/Snohomish County Continuum of Care, and a summary of consultation efforts with public and private agencies and local governments in development of the 2021 Action Plan.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

The County is the Continuum of Care (CoC) Collaborative Applicant for the CoC. County CoC staff consult and coordinate with a broad range of stakeholders throughout the year via meetings and electronic tools. The County’s Consolidated Plan and CoC staff are co-located within the same Division and work collectively together. CoC staff coordinate activities with the CoC Board, the Partnership to End Homelessness (Partnership) and its committees, housing and services providers, and stakeholders. Coordination is achieved through participation in various community partnerships and collaborative efforts, such as the Housing Consortium of Everett and Snohomish County, the Continuum of Care, the Partnership to End Homelessness and Homeless School Liaison meetings. These partnerships and collaborations provide ongoing opportunities for public and private agencies to coordinate and align efforts around housing, homelessness, direct services, and enhancing systems coordination. These providers often assist clients in obtaining rental units and in working with landlords to resolve issues that arise so that clients may remain in the units and achieve stability.

A coordinated entry system provides a common assessment and intake procedures to streamline access to housing and services for all populations, including the chronically homeless, veterans, and unaccompanied youth. The coordinated entry system connects persons who are at imminent risk of homelessness with a prevention navigator who can connect them with the rental assistance, legal services, landlord mediation and other services needed to stabilize in housing.

A landlord engagement program has staff who specializes in recruiting landlords to work with homeless households with barriers to obtaining housing in the private rental market. As part of its affordable housing application process, the County continues to include a review of whether the appropriate type and level of supportive services will be available where this is relevant to the population served. This helps ensure that housing providers will coordinate with service providers to the extent necessary to connect tenants with the services they will need to maintain housing.
Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The County is the Continuum of Care (CoC) Collaborative Applicant for the CoC. County CoC staff consult and coordinate with a broad range of stakeholders throughout the year via meetings and electronic tools. The County’s Consolidated Plan and CoC staff are co-located within the same Division and work collectively together. CoC staff coordinate activities with the CoC Board, the Partnership to End Homelessness (Partnership) and its committees, housing and services providers, and stakeholders. The County works with these groups in tandem to identify and address the needs of those experiencing or at-risk of homelessness and those with special needs including chronically homeless individuals and families, families with children, veterans and unaccompanied youth. A coordinated entry system provides a common assessment and intake procedures to streamline access to housing and services for all populations, including the chronically homeless, veterans, and unaccompanied youth. The County facilitates the efforts of the Community Outreach Coalition, which conducts street outreach, conducts coordinated entry intake and provide supportive services to unsheltered, chronically homeless individuals and families. The Veterans Homeless Committee (VHC) provides outreach, coordinated entry intake and services, access to VASH and other programs needed by veterans who are homeless, chronically homeless or at risk. Outreach and coordinated entry intake for unaccompanied youth and young adults is conducted by the lead youth agency and is coordinated with other youth services. The coordinated entry system connects persons who are at imminent risk of homelessness with a prevention navigator who can connect them with the rental assistance, legal services, landlord mediation and other services needed to stabilize in housing. Planning and evaluation of the coordinated entry system is done through the Partnership to End Homelessness Board. The following is a summary of CoC coordination with systems of care. The County Human Services Department is part of a collaborative that addresses the needs of seriously mentally ill persons being released from jails. The County also funds programs that support discharge planning and transition services for at risk individuals. The County provides leadership and support for the Family Reunification Project (FUP) program which includes housing and transitional services coordination for youth aging out of foster care and a youth representative sits on the Partnership to End Homeless and agencies who provide foster care, shelter, transitional housing and services for youth are familiar with and able to connect youth exiting care with coordinated entry and specialized services.
Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The consultation process on allocating ESG funds and developing performance has spanned the last several years. There were initial measures and evaluation standards that were developed per the Interim Regulations, and then are reviewed as part of the annual funding process and Annual Action Plan. The CoC Collaborative Applicant (CA) met with ESG and CoC agencies and the Continuum of Care (CoC) to review data, evaluate and set local system performance targets based on HEARTH measures, local goals and project and population types. Performance measures and benchmarks are set for each project type, population, and include: HMIS data quality, reducing length of stay in shelter and transitional housing, increasing rate of exit to permanent housing, increasing housing stability for permanent supportive housing, decreasing days to move-in to permanent housing, increasing income and access to mainstream benefits, and decreasing returns to homelessness. Benchmarks are set for ESG funded projects for shelter and rapid rehousing, as those are types of projects that have been funded to date. The County directly aligns project performance and benchmarks with system level performance measures and benchmarks. System Performance dashboards have aided the CoC in their effort to better understand successes and challenges of the homeless housing system and make more informed policy decisions and data directed strategies.

The CoC Board has delegated the CA to consult with State and local ESG recipients in the geographic area on the plan for allocating ESG funds. The CA consults with CoC and ESG subrecipients biannually in a state-wide Homeless Advisory Committee on community needs and ESG allocation priorities. The CA and the HMIS Lead provide Con Plan and ESG staff with local PIT, HIC, HMIS, and ESG-annual outcome data and performance dashboards. Input received is used to help identify priority needs and develop goals that guide investment of ESG funds. All ESG activities are consistent with the CoC Strategic Plan. The funding recommendations were to continue funding emergency shelters and rapid rehousing, due to the limited funding, and the fact that some prevention is funded through other funding resources. In addition, a limited amount was allocated to HMIS to support both agency data entry and County HMIS administration. Administration is retained by the County due to the administrative burden and limited administration funds available. If funding were to increase substantially, then the CoC might be interested in funding additional prevention activities later.

The County administers the HMIS and as the CA works side by side with the CoC Board. The CoC Board approves the HMIS Governance Charter which outlines the management processes, responsibilities, decision-making structures, and oversight of the HMIS. Since the County actually administers HMIS and has legal responsibility for many aspects of HMIS, including accountability for funding, as the HMIS lead, the County is responsible for ensuring that the HMIS is administered in compliance with HUD requirements, and ensuring consistent participation in HMIS of all Covered Homeless Organizations.

<td>Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?</td>
<td>Member of the Partnership to End Homelessness Continuum of Care Board. Opportunity for input is provided through various ongoing planning activities throughout the year via in-person and electronic methods, such as email and surveys. Anticipated outcome of these activities is to improve coordination and make progress in preventing and ending homelessness and alleviating the effects of poverty. In addition, the agency was consulted on the public housing sections of this plan through in-person and e-mail communications and through joint coordination for the initial public hearings process. Input was incorporated into the public housing sections of the plan and was taken into consideration in assessing needs, identifying priority needs, and developing goals and strategies. Agency is also a member of the Housing Consortium of Everett and Snohomish County.</td>

<td>Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?</td>
<td>Snohomish County sought input on housing needs, homeless needs, non-housing community development needs, anti-poverty strategy, and barriers and strategies to overcome barriers to affordable housing development from the cities and towns in the Snohomish County Consortium through invitations to participate in public hearings and through invitations to participate in on-line surveys conducted for the Snohomish County Human Services Department 2019 Community Needs Assessment and the Snohomish County Human Services Department 2019 Affordable Housing and Community Development Needs Survey. Input was taken into consideration during development of the plan in assessing needs, identifying priority needs, and developing goals and strategies. In addition, the City of Everett and the City of Marysville participated in the Continuum of Care Partnership to End Homeless Board and a subcommittee of the Board, respectively. Opportunity for input through the CoC is provided through various ongoing planning activities throughout the year via in-person and electronic methods, such as email and surveys. Snohomish County staff have also had in-person consultations on homeless needs and strategies with other local governments in the Snohomish County Consortium. Anticipated outcome of these activities is to improve coordination and make progress in preventing and ending homelessness and alleviating the effects of poverty. The Cities of Marysville and Everett participated in the coordination of public hearings and outreach during the development of the 2020-2024 Consolidated Plan.</td>

Briefly describe how the Agency/Group/Organization was consulted. What are the anticipated outcomes of the consultation or areas for improved coordination?

Snohomish County Office of Housing Staff consulted with the Department of Emergency Management staff to evaluate the vulnerability of housing occupied by low- and moderate-income households to natural hazard risks and strategies to address potential climate change impacts to residents. Anticipated outcome of continued consultation/coordination to update and evaluate natural hazard risks and climate change to low- and moderate-income households in Snohomish County.

Identify any Agency Types not consulted and provide rationale for not consulting

Efforts were made to encourage input and consult as broadly as possible with all types of agencies and community stakeholders through e-mail distribution lists, newspaper ads, flyers, public hearings, consultation input meetings, review of published reports, and other outreach efforts.

Table 3 – Other local / regional / federal planning efforts

Narrative
Snohomish County, as lead agency of the Snohomish County Consortium, seeks input and coordination from adjacent units of general local government in implementing the Consolidated Plan through several avenues. Snohomish County, the City of Everett, and the City of Marysville participated in joint planning and coordination meetings during development of the 2020-2024 Consolidated Plan and the 2020 - 2021 Annual Action Plans. This planning and coordination are expected to continue throughout the 2020-2024 Consolidated Plan period, including during development of the Annual Action Plans for successive years and the annual Consolidated Annual Performance and Evaluation Reports.

Consortium-member cities and towns are invited to participate in public hearings and comment periods related to the Consolidated Plan, Annual Actions Plans, and Consolidated Annual Performance and Evaluation Reports (CAPERs) and also post notices and flyers for public hearings and comment periods and make draft documents available for public review at their city and town halls. Consortium-member cities and towns have representative seats on the Snohomish County Consortium’s Technical Advisory Committee (TAC) and Policy Advisory Board (PAB).

Coordination with other local planning efforts is also supported through the application process. Application review for CDBG public facility and infrastructure projects takes into consideration consistency with county-wide planning policies and application review for affordable housing projects takes into consideration consistency with relevant plans such as local government comprehensive plans/housing elements and the Continuum of Care plan.

In addition, various other ongoing coordination and collaboration efforts are expected to continue with, and through, various local, regional, and state groups, including but not limited to: 1) Snohomish County Tomorrow, which provides a forum for the cities, towns, and Snohomish County to collaborate on common growth management issues and periodic reporting on housing characteristics and needs in Snohomish County; 2) The Housing Affordability Regional Taskforce (HART), which was created to bring together elected leaders from cities across Snohomish County and the County Council, to collaboratively address the affordability housing challenge; the Affordable Housing Alliance of Snohomish County, which is an interjurisdictional entity that provides the opportunity for education, technical support, collaboration, and advocacy towards addressing the need for affordable housing throughout the county for participating cities, towns, public housing authorities, and Snohomish County; 3) the Continuum of Care, 4) the Housing Consortium of Everett and Snohomish County, 5) Workforce Snohomish, 6) the Puget Sound Regional Council, 7) the Washington State Department of Commerce, and the 8) the Washington State Housing Finance Commission.
AP-12 Participation - 91.401, 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation

Summarize citizen participation process and how it impacted goal setting

Snohomish County followed its approved Citizen Participation Plan (CPP) for the Snohomish County Consortium in development of the 2021 Action Plan.

The CPP provides for and encourages citizen participation in development of the Consolidated Plan, the Annual Action Plans, any substantial amendments to these plans, and the annual performance and evaluation report. The CPP encourages participation by of all of residents of the county, including low- and moderate-income persons, persons with special needs such as elderly persons and persons with disabilities, and persons of racial and ethnic minorities. The CPP provides for consultation with the public housing authorities and its residents. The CPP also incorporates citizen participation through the Consortium’s Technical Advisory Committee (TAC) and Policy Advisory Board (PAB). The TAC is comprised of Consortium-member representatives and citizen representatives, including two citizen seats for low-income persons, two citizen seats for seniors, two citizen seats for persons with disabilities, and two citizen seats for persons of racial/ethnic minority. The TAC assists in the project application review process and makes funding recommendations based on established criteria and met on October 29, 2020, and February 25, 2021. The PAB is comprised of Consortium-member representatives and a citizen representative, makes final project funding recommendations and provides other guidance and recommendations on CDBG, HOME, and ESG program administration, and met in July and October of 2020, and in March of 2021. In addition, the CPP provides residents with a reasonable opportunity to comment on proposed plans, any proposed substantial amendments to the plans, and the annual performance and evaluation reports.

A summary is provided below of the citizen participation and outreach activities conducted in development of the 2021 Action Plan.

Expected Resources

AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

Introduction

This section describes the resources anticipated to be available to help address the priority needs and objectives identified in this Strategic Plan. It includes federal funds and program income anticipated to be available under the Snohomish County Consortium CDBG, HOME, and ESG programs during the 2020-2024 Consolidated Plan period, broken out by Year 2 (Program Year 2021) and Remainder of Con Plan (Program Years 2022 to 2024). It also includes information on other federal, state, local, and private resources anticipated to be available.

Table 2 - Expected Resources – Priority Table

SNOHOMISH COUNTY CONSORTIUM
2021 Annual Action Plan

OMB Control No: 2506-0117 (exp. 09/30/2021)
Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

CDBG, HOME, and ESG funds leverage additional resources from a variety of private, state, and local funds. Applicants for projects to be funded from these programs provide information on leveraged funds during the application process and leveraging of resources is one of the criteria evaluated during the application review process for affordable housing and service projects. For Year 2 (Program Year 2021), it is estimated that CDBG, HOME, and ESG projects will have contributing funds of over $153 million from other resources.

Matching funds are required for HOME and ESG funds. For these funds, project sponsors will be required to provide matching resources as part of the contracting process and will subsequently be monitored to document that the match was expended. The County will provide required matching funds for ESG funds used for County administration and County HMIS costs.
If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

There are no new proposed projects on publicly owned land to report.

Discussion

Other federal, state, local, and private funds anticipated/estimated to be available to help address the needs and objectives in Year 2 (Program Year 2021) of this Strategic Plan include:

FEMA Emergency Food and Shelter Program, $21,625
HUD Continuum of Care, $10,464,602
HUD Section 8 Housing Administration Funds (EHA), $3,088,453
HUD Section 8 Housing Assistance Funds (EHA), $41,569,410
HUD Section 8 Housing Administration Funds (HASCO), $3,625,000
HUD Section 8 Housing Assistance Funds (HASCO), $51,809,350
WA State Combined Homeless Grant, $4,413,389
WA State DSHS Shelter Grant, $442,699
Older Americans Act, $869,158
WA State ESG, 310,760
USDA Section 515, $3,099,017
USDA Section 538, $2,100,000
WA State Housing Finance Commission, Low-Income Housing Tax Credits, $16,643,691
Snohomish County Affordable Housing Trust Fund, $650,000
Snohomish County Ending Homelessness Program, $4,200,000
Snohomish County General Funds, $184,587
Snohomish County Sales Tax Affordable Housing Development Fund, $1,080,601
Snohomish County Sales Tax Rental Voucher Program, $1,126,880
City of Everett Human Needs, $100,772
City of Marysville, $15,000
Washington State Housing Trust Funds, $3,000,000
Miscellaneous Foundation Grants and Private Donations, $18,486,945

**Table 4 – Project Information**

**Describe the reasons for allocation priorities and any obstacles to addressing underserved needs**

The allocation priorities for these activities are consistent with the allocation plan for Snohomish County Consortium CDBG, HOME, and ESG funds as set forth in SP-25 of the Strategic Plan of the 2020-2024 Consolidated Plan. The number of activities that may be undertaken are limited by the amount of
CDBG, HOME, and ESG funds available. For information on allocation of City of Everett and City of Marysville CDBG grants funds, see the Participating Grantee CDBG Template for each of those jurisdictions.

**CDBG:**

- 20% of annual grant plus up to 20% of current year program income for grant planning and administration,
- 15% of annual grant plus up to 15% of prior year program income for public service projects,
- 55% of balance of grant funds for public facility and infrastructure projects, and
- 45% of balance of grant funds for housing projects.

**HOME:**

- 10% of annual grant plus 10% of current year program income for grant planning and administration,
- Up to 5% of grant for Community Housing Development Organization operating costs,
- 21% of annual grant for housing projects and programs selected through City of Everett process based on interlocal agreement, and
- Balance of annual grant for housing projects and programs selected through the Snohomish County Consortium process.

**ESG:**

- 7.5% of annual grant for grant administration, and
- Balance of annual grant to be used for emergency shelter, rapid rehousing, and Homeless Management Information System costs. Current allocation percentage is 34% of total for rapid rehousing, 47% of total for shelter, and 11% for HMIS. The allocation priorities and percentages may be adjusted over the upcoming five years as ongoing consultation with the Continuum of Care is required regarding allocation of these funds.

| Goals Supported | ESG Homeless Emergency Shelter  
ESG Homeless Rapid Rehousing  
Grant Planning and Administration  
Homeless Management Information System |
| Needs Addressed | Homeless Shelter, Rapid Rehousing, and HMIS  
Grant Planning and Administration |
<p>| Funding | ESG: $265,317 |
| Description | Rapid Rehousing (RRH) housing search and stabilization services and tenant-based rental assistance to rapidly re-housing homeless individuals and families into permanent housing. Emergency shelter (ES) facilities operating costs and supportive services. Homeless Management Information System (HMIS) costs for required data collection and reporting activities. County administration costs for required grant administration activities. |
| Target Date | 6/30/2022 |
| Estimate the number and type of families that will benefit from the proposed activities | Approximately 18 households who are extremely low-income and homeless (residing in emergency shelters, places not meant for human habitation, or fleeing domestic violence) will receive rapid rehousing assistance through Catholic Community Services Western Washington. Approximately 530 homeless households (935 persons) will be served in emergency shelter facilities operated by Cocoon House, Domestic Violence Services of Snohomish County, Housing Hope, Monroe Gospel Women’s Mission, and the YWCA. N/A for HMIS and Grant Administration. |
| Location Description | Rapid re-housing is provided at scattered sites throughout the county. Emergency shelters are located in Everett, Lynnwood, Monroe, and Stanwood and a confidential location for the domestic violence shelter. |
| Planned Activities | Rapid rehousing households will be provided with housing search, placement, and other assistance, including supportive services, and short- and medium-term rental assistance under a graduated rental subsidy to ensure housing stability prior to exit. Persons served through emergency shelter facilities will receive safe shelter with supportive services, connection to resources, and other essential services. HMIS activities include data entry, data quality, and reporting. Eligible grant administration costs include: 1) overall program management, coordination, monitoring, and evaluation, 2) providing training on ESG requirements, 3) preparing and amending the ESG and homeless-related sections of the Consolidated Plan, and 4) carrying out required environmental review responsibilities. The allocated cost for ESG Administration falls within the allowed rate of 7.5% of the 2021 ESG allocations. Of the $265,317 in 2021 ESG funding, $89,900 is allocated for rapid rehousing, $125,225 for emergency shelter, $19,898 for ESG administration, and $30,294 for HMIS. |
| 2 Project Name | Catholic Community Services - Pregnant and Parenting Housing Program |
| Target Area | Catholic Community Services - Pregnant and Parenting Housing Program |
| Goals Supported | CDBG Public Services - Homeless |
| Needs Addressed | Public Services |
| Funding | CDBG: $63,073 |
| Description | The project will provide supportive housing with case management services to homeless adults who are pregnant, parenting, or in verifiable reunification with their children who are currently in chemical dependency treatment or have been in treatment within the past year. The overall goal is to reduce homelessness, increase self-sufficiency, and move households towards permanent housing. |
| Target Date | 6/30/2022 |
| Estimate the number and type of families that will benefit from the proposed activities | Approximately 20 homeless adults who are pregnant, parenting, or in verifiable reunification and their children, for a total of approximately 60 persons. |
| Location Description | 1918 Everett Avenue, Everett, WA 98201. County-wide. Housing sites are located at scattered sites in Snohomish County, outside the cities of Everett and Marysville and outside the King County portion of Bothell. |</p>

<td><strong>Description</strong></td>
<td>Provide purchase assistance to low- and moderate-income first-time homebuyers. Assistance will be provided through second or third mortgages up to $50,000 per household at three percent deferred interest for 30 years with no monthly or annual payments. Repayment would be due at the time of resale, refinance, or transfer of property. Repaid funds including the amount of purchase assistance and any shared appreciation will be used to provide additional loans to future first-time homebuyers under the program. Assistance will be provided to households with incomes at or below 80% of the area median income; it is anticipated that some households served will have incomes at or below 50% of the area median income. HomeSight will also provide homebuyer education and housing counseling services to participants with other funds. Funding amount reflects $244,084.29 in actual PY 2020 HOME program income and $45,856 in estimated 2021 CDBG program income. Any additional HOME PI collected through the end of the 2020 PY will be allocated to this activity, contingency upon receipt.</td>

AP-50 Geographic Distribution - 91.420, 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The 2021 projects funded with Snohomish County Consortium CDBG, HOME, ESG and HOME and CDBG program income funds will serve the following geographic areas:

- One new rental housing capital project is located in Marysville;
- One rehabilitation of a rental housing capital project located in Snohomish and Lake Stevens;
- A program providing minor home repairs and one program providing homeownership assistance will serve households Consortium-wide;
- A program providing homeowner home rehabilitation will serve households in Everett and the Everett Urban Growth Area;
- One public facility project is located in Darrington;
- Three infrastructure improvement projects are located in Darrington;
- One infrastructure project is located in Index; and
- The public service, rapid rehousing, and emergency shelter projects generally serve people Consortium-wide.

</tbody>
</table>

Table 5 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Because the needs addressed by the Snohomish County Consortium exist throughout the county, the investment of CDBG, HOME, and ESG funds for housing and non-housing community development projects likewise support projects in locations throughout the county. Some projects benefit specific areas of the county, while others provide county-wide benefits. CDBG public facility and infrastructure projects that benefit all residents of an area, such as streets, sidewalks, water/sewer systems, and parks, serve areas that consist predominately of low- and moderate-income households. Based on current HUD criteria for Snohomish County Consortium areas outside the City of Everett and the City of Marysville, these are areas where at least 50.54% of the households are low- and moderate-income income, with the percentages updated by HUD. In addition, pursuant to an interlocal agreement, 21% of HOME funds received each year are set-aside for affordable housing projects selected by the City of Everett. These projects benefit residents of the City of Everett, with some projects also benefiting residents of the City of Everett’s Urban Growth Area.
AP-55 Affordable Housing

AP-55 Affordable Housing - 91.420, 91.220(g)

Introduction

The following is a summary of the one-year goals for Snohomish County Consortium CDBG, HOME, and ESG affordable housing activities in the 2021 program year. Activities include rehabilitation and construction of new rental housing, homeowner home repair and rehabilitation, first-time homebuyer purchase assistance, and rapid re-housing rental assistance.

Table 7 - One Year Goals for Affordable Housing by Support Type

Discussion

For the 2021 Annual Action Plan, it is estimated that Snohomish County Consortium 2021 CDBG, HOME, and ESG projects will provide affordable housing to 137 renter households and 457 homebuyer and homeowner households. Of the 137 renter households, it is estimated that 122 will be extremely low-income 15 will be low-income, and 0 will be moderate income. Of the 457 homebuyer and homeowner households, it is estimated that 291 will be extremely low-income, 165 will be low-income, and 1 will be moderate income.
AP-60 Public Housing - 91.420, 91.220(h)

Introduction

The Everett Housing Authority (EHA) and the Housing Authority of Snohomish County (HASCO) administer HUD Section 8 Housing Choice Voucher programs that provide rental assistance to very low-income and extremely low-income households in Snohomish County. EHA also manages a small number of public housing units currently in the relocation phase of the disposition process, and both EHA and HASCO own other units of assisted and affordable housing in Snohomish County. In addition to these activities, information is provided below on other actions planned by EHA and HASCO in the upcoming year to address the needs of public and assisted housing and to encourage public and assisted housing residents to become more involved in management and participate in homeownership.

Actions planned during the next year to address the needs to public housing

**Everett Housing Authority (EHA):** Key initiatives to ensure the long-term availability of subsidized and affordable housing and improve the housing services to EHA’s clients and those of its partners include the following:

- EHA will explore the development and implementation of multiple Payment Standards to facilitate access to low poverty areas within EHA’s Housing Choice Voucher Program jurisdiction. This may be accomplished through implementation of Small Area Fair Market Rents, by setting Payment Standards for different parts of EHA’s operating area at different percentages of the Metro Area Fair Market Rent, or through application of HUD’s Moving to Work Demonstration program (MTW) flexibility if EHA is admitted to the MTW demonstration program.

- If HUD provides additional opportunities for PHAs to expand Voucher participant access to communities of opportunity, such as the Mobility Demonstration, EHA will review the opportunity and consider submitting an application if qualified.

- EHA will pursue the following activities to ensure the long-term availability of subsidized and affordable housing in the disposition of the Baker Heights property:

  1. Through an affiliate tax credit partnership, Everett Housing Legacy LLLP, proceed with construction on the first phase of the Baker Heights redevelopment. This will consist of 105 tax credit units, including up to 65 Project-Based Vouchers (PBV) units for homeless families with children enrolled in Everett Public Schools, along with an early learning facility.

  2. Engage a consultant to propose a master plan for subsequent phases of redevelopment within the borders of the Baker Heights property. As an alternative development strategy, EHA may apply for a Choice Neighborhoods Planning and/or Implementation Grant to finance the
redevelopment of the entire Baker Heights property and the surrounding neighborhood.

- EHA is analyzing the feasibility of converting nine (9) properties with HUD 202 Project-Based Rental Assistance Contracts (PRACs) to PBV contracts through the Rental Assistance Demonstration (RAD) program, which would streamline operations of the properties and provide the opportunity to leverage recapitalization funding. Confirmations of interest have been submitted to HUD for all nine (9) properties, and some of those RAD conversions may move forward during the 2021-2022 fiscal year.

- EHA will continue to spearhead advocacy efforts at the city, county, state, and federal levels to expand housing opportunities within EHA’s jurisdiction for extremely low-income families with children, in partnership with local non-profits (e.g., Housing Consortium of Snohomish County) and agencies, with a focus on policy development and allocation of resources.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

Housing Authority of Snohomish County (HASCO):

HASCO plans to undertake the following activities to encourage its program residents to become more involved in management and participate in homeownership programs:

- Continue to have a resident Commissioner on its six-member Board of Commissioners which provides an important voice on the Board and represents the interests of residents.
- Continue to have a Resident Advisory Board to assist in the development of the annual Public Housing Agency Plan.
- Continue to print and distribute quarterly newsletters, including a holiday newsletter for Section 8 Housing Choice Voucher participants. The newsletters are designed to inform residents of news and updates at HASCO and to provide information on ways residents can become involved in HASCO activities, such as the resident Board Commissioner position and the Resident Advisory Board.
- Continue to host a weekly Lobby Day when Community Services specialists offer resources, books to children, and promote activities such as the Resident Advisory Board. Suspended during COVID-19 restrictions. This program is scheduled to resume when the office reopens to the public.
- Maintain an email contact list which participants may sign up for to receive information about upcoming engagement activities at HASCO and other community agencies.
- Continue to provide homeownership opportunities at three manufactured housing communities in Snohomish County.
- Continue to partner with HomeSight to provide purchase assistance and homeownership education and counseling.
- Continue to partner with HomeSight to provide the Manufactured Home Replacement Program at
two manufactured housing communities.

- The program replaces outdated pre-HUD code homes with HUD-code, emergency efficient manufactured homes.

**Everett Housing Authority (EHA):**

EHA plans to undertake the following activities to encourage its program residents to become more involved in management and participate in homeownership programs:

- Encourage a broad spectrum of program participants to attend regular meetings of the EHA Resident Advisory Board to assist with the development of EHA’s Public Housing Agency Plan.
- Encourage residents of properties with active resident councils to become involved with those councils.
- Keep residents informed of management activities and other agency updates through the distribution of newsletters and flyers.
- Continue to maintain an active caseload of Family Self-Sufficiency program participants.
- Continue partnerships with local agencies, such as Housing Hope, in order to promote homeownership options.
- EHA will continue to develop and administer surveys of HCV and other housing program participants, using the survey data to develop plans and strategies to improve its customer service.

**If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance**

Not applicable.
**AP-65 Homeless and Other Special Needs Activities - 91.420, 91.220(i)**

**Introduction**

This section summarizes the goals and activities that will be undertaken in program year 2021 to carry out the homeless strategy outlined in SP-60 Homeless Strategy in the Strategic Plan of the 2020-2024 Consolidated Plan and to serve the housing and supportive service needs of persons who are not homeless but have other special needs.

Actions identified to be undertaken to carry out the homeless strategy are anticipated to help reduce and minimize the impact of homelessness on those currently experiencing homelessness, to continue progress towards ending homelessness, and to meet the multifarious needs with tailored services that support transition from homelessness into stable housing and increased self-sufficiency. The strategies and goals address the services that are needed to help people avoid becoming homeless in the first place and to prevent repeat episodes of homelessness. The goals also include local efforts to coordinate services for persons who are discharging from institutions of care. When packaged together, these goals support the creation of a high performing response and intervention system that addresses the complexities in coordinating with various systems of care and that addresses the vast array of services required to meet needs.

**Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including**

**Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The Snohomish County Human Services Department works with key stakeholders to meet the goal of effectively engaging that experiencing homelessness and reduce their barriers to housing. The Outreach Coalition (OC) provides a venue for cross-system collaboration with a variety of organizations to identify and locate those experiencing homelessness and coordinate outreach and engagement efforts. Organizations that participate in the OC include homeless housing service providers, PATH, youth programs, Behavioral Health, law enforcement embedded social workers (LEESW), Veterans Affairs, Mercy Watch, Community Health Centers. Examples of local outreach efforts include: 1) LEESWs identify and locate individuals experiencing homelessness, connect them to housing, Behavioral Health, health, and other essential services. Snohomish County and six cities currently operate LEESW programs in partnership with local Law Enforcement. The County will continue to collaborate with LEESW partners to ensure individuals are connected to the coordinated entry system. 2) The Diversion Center provides space for individuals experiencing homelessness that are identified by LEESW’s to await inpatient treatment and connection to services. The County will continue to partner with local law enforcement to ensure that unsheltered individuals are assessed and provided referrals to appropriate services that will contribute to housing stability. 3) The Carnegie Resource Center provides a one-stop resource for community to homeless housing resources, including coordinated entry, employment/education.
navigation, and other mainstream services. The County continues to refine services provided by assessing gaps in resources and identifying additional resources.

All unsheltered individuals and families are assessed through coordinated entry tools and processes and connected directly to homeless housing navigators who work with the household to reduce barriers to obtaining housing or accessing needed services. Tailored supportive services based upon assessment of need include mental health and substance abuse services, assistance signing up for mainstream benefits and accessing health care, legal services, and specialized services for specific populations. Navigators increase the likelihood that chronically homeless and vulnerable homeless persons access the appropriate services by providing assertive outreach and support when needed. The County recently completed a comprehensive refinement process of the coordinated entry system. The goal was to streamline and improve access ensuring chronically homeless and highly vulnerable individuals and families have meaningful, equitable access to system resources. Implementation of the revised assessment tool and system workflow was launched in 2021.

The County continues to develop new programs and partnerships to reach out to the most vulnerable homeless individuals and families in the community: those who are chronically homeless, those who are high utilizers of emergency services and those who are living in encampments. Social service providers and mental health agency outreach staff continue to reach out to the chronically homeless and homeless encampments to connect them with the coordinated entry system for housing and services. For the past five years, the County has funded a pool of funds for local jurisdictions to access for their emergency first responders and has recently provided funding for motel vouchers for first responders in the City of Everett. The County will continue to work with housing agencies to promote Housing First and fair housing education with a focus on reducing barriers to housing for the most vulnerable individuals and families.

Addressing the emergency shelter and transitional housing needs of homeless persons

The Coordinated Entry system ensures that homeless households residing in shelters are referred to appropriate interventions. Coordination with shelters will continue as common assessment tools and processes are implemented and streamlined to ensure more equitable and efficient access to housing and services by shelter residents. For the past two years a Coordinated Entry Housing Navigator has been assigned to conduct intake and assessments at the largest single adult men’s shelter in the County. The County has also invested in Rapid Rehousing programs at three shelters which are operated by Rapid Rehousing staff for the benefit of shelter residents exclusively. These shelters also increase system efficiencies by creating pathways to permanent housing, and thus increasing shelter capacity.

Shelters will continue to be provided with more opportunities to assist rapid rehousing services for shelter residents. State and local funds are being prioritized for these interventions and shelter agencies, including shelters that serve families with children and households experiencing domestic
violence. County staff provide shelters with the technical support needed to understand how to rapidly rehouse households from the homeless system. The County also continues to invest in developing more supported employment opportunities for households with higher service needs, including those who have been unemployed long-term through fostering collaborative partnerships that include mainstream employment services providers.

Snohomish County will continue implement and assess the refinement elements in the coordinated entry system for individuals who are residing in institutions of care and meet the HUD definition of homelessness. A Social Security Outreach, Access, and Recovery (SOAR) coordinator was hired three years ago to provide oversight of system enhancements. Combining better coordination with institutions with SOAR will increase access to the disability income benefits programs administered by the Social Security Administration for eligible adults who are homeless and have a mental illness and/or a co-occurring substance abuse disorder. Many of the unsheltered homeless population fall into this category.

There are 572 total year-round beds of emergency shelter and transitional housing reported in the 2020 Housing Inventory Chart. The inventory of emergency shelter includes facilities for families, single men, and single women as well as emergency motel vouchers and emergency shelter and services for households experiencing domestic violence. Shelter providers have identified permanent housing as the appropriate intervention for the vast majority of homeless households, so individuals and families applying to shelter are connected with the coordinated entry system so that they can be placed in permanent housing as quickly as possible. There were 3,032-year-round beds of permanent housing available in 2020, including 1,939 permanent supportive housing beds, 446 rapid rehousing beds, and 647 other permanent housing beds.

Snohomish County will continue implement and assess the refinement elements in the coordinated entry system for individuals who are residing in institutions of care and meet the HUD definition of homelessness. A Social Security Outreach, Access, and Recovery (SOAR) coordinator was hired three years ago to provide oversight of system enhancements. Combining better coordination with institutions with SOAR will increase access to the disability income benefits programs administered by the Social Security Administration for eligible adults who are homeless and have a mental illness and/or a co-occurring substance abuse disorder. Many of the unsheltered homeless population fall into this category.
Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

While almost all local housing agencies utilize the Housing First model, the County will continue working with agencies over the upcoming year to provide ongoing training and support for Housing First to ensure that homeless households encounter low barriers to accessing housing programs including Rapid Rehousing. The local Rapid Rehousing Guide mandates that no agency providing Rapid Rehousing Services screen households out due to prior evictions, criminal history or other barriers. The County continues to work with Rapid Rehousing agencies to ensure that they have the technical assistance and skills needed to successfully work with a diverse population of applicants and place them into housing as quickly as possible. Permanent housing projects and Rapid Rehousing projects will continue to be a priority for funding over the upcoming year. The County currently allocates local funds to support a flexible fund for use by housing navigators in the Coordinated Entry System and some local shelters in meeting the needs of homeless households. These funds allow housing navigators working with homeless households to provide short-term housing assistance and connections with tailored services necessary to resolve the households’ immediate housing crisis and maintain housing stability. Local funds will continue to be prioritized for more Rapid Rehousing and tailored services connected to the coordinated entry system and to further develop the coordinated entry system of housing and services for young heads of household and unaccompanied youth.

In 2020, the County continued their efforts in expanding employment strategies through philanthropic funding and partnerships with employment providers participating in Foundational Community Supports (FCS). In 2019 Snohomish County developed a pilot project to connect Supported Employment (SE) through the FCS to the Rapid Rehousing intervention. They are continuing to explore opportunities to expand the partnerships. Participants are connected to SE Employment Specialists for employment support and resources when enrolled in RRH even prior to being housed. RRH direct service providers collaborate with the Employment Specialist for coordinated services throughout the participant’s enrollment in the permanent housing project. The FCS Supported Employment services can continue beyond the RRH enrollment for continuity of services and to assist in increasing housing stability through employment support and income progression.

The County also piloted a second employment project. The goal was to increase capacity and quality of specialized employment services for individuals and families experiencing homelessness or housing instability, and increase employment rates, incomes, and education levels for individuals and families experiencing homelessness or housing instability. Currently, limited employment services are available that provide individualized and supported services to assist adults, with multiple challenges to employment, to secure and maintain a job and to experience career and wage progression. BFET and
FCS provide funding for these critical services but operating these programs is complex. For this project, the County is providing funding, training and consultation to increase the number and capacity of local employment agencies to successfully operate quality specialized employment services, using BFET and FCS, for individuals and families experiencing homelessness and housing instability. This project is being continued with COVID-19 related funding in order to address the economic impact on those experiencing housing instability or homelessness impacted by the pandemic.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.**

The County will continue to work over the next year to streamline coordination between institutions, housing, and services to help prevent those being discharged from institutions from becoming homeless. The coordinated entry system of housing and services has been expanded to include homeless prevention navigators who work with those who are imminently homeless, including those with low income, to help them find ways to resolve their housing crisis and avoid becoming homeless through increasing income, resolving conflicts with landlords or family members, and connecting with civil legal services to prevent eviction, when necessary. Prevention navigators have access to a flexible fund that they can use to pay rents, program fees, etc. in order to stabilize housing or obtain housing. Prevention navigators also connect those at risk of homelessness to the supports that they need to improve housing stability for the long-term, including education, life skills, financial counseling and credit repair and affordable health care.

The County’s employment efforts also include increasing housing stability for families with young children participating in low-income learning programs. The intent is to assist families in connecting with the Coordinated Entry System or assist them in obtaining/maintaining stable housing by accessing resources and/or flex funds. The goal is that these families will not become literally homeless and will decrease the number of moves they make each year, becoming increasingly more stably housed.

The County will continue to invest in the implementation of a SOARS (SSI/SSDI Outreach, Access, and Recovery) system to ensure that disabled persons, including those being discharged from institutions, are connected with social security benefits as quickly as possible so that they can have better access to housing opportunities.

**Discussion**

**Non-Homeless Special Needs Activities:** Planned 2021 CDBG and HOME activities to help address the housing and supportive service needs of person who are not homeless, but have other special needs
include:

- Mercy Housing Northwest – Senior Housing Support Services (See AP-35, Project #7),
- Senior Services of Snohomish County DBA Homage – Food and Nutrition Services (See AP-35, Project #8),
- Mercy Housing Northwest – Mercy RD Family Rehab (See AP-35, Project #17), and
- Homage Senior Services of Snohomish County – Minor Home Repair Program (See AP-35, Project #22).
AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

This section provides a brief summary of the actions the Consortium will take during the upcoming year to reduce public policy barriers that may exist for affordable housing and residential development consistent with SP-55 of the Strategic Plan of the 2020 – 2024 Consolidated Plan. Barriers to affordable housing may exist when the cost of housing or the incentive to develop, maintain, or improve affordable housing are negatively affected by public policies of the jurisdiction. Public policies include tax policies affecting land and other policies, land use controls, zoning ordinances, building codes, fees and charges, and policies that affect return on residential investment.

The local Comprehensive Plans of Snohomish County and Consortium members govern land use and development standards to be in compliance with the State of Washington’s Growth Management Act. In coordination with the cities, the County adopted countywide planning policies to provide a framework for regional consistency; all local comprehensive plans must be consistent with the countywide planning policies. Both the Growth Management Act and the countywide planning policies require jurisdictions to plan for a diversity of housing types to meet a variety of needs and to provide housing opportunities for all economic segments of the population.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Consistent with the strategy outlined in SP-55 in the Strategic Plan of the Snohomish County Consortium 2020-2024 Consolidated Plan, in the upcoming 2021 program year, Snohomish County and Consortium members are continuing their commitment to overcoming cost barriers to developing and maintaining affordable housing for low- and moderate-income households through the allocation of a portion of CDBG and HOME funds to help develop and maintain affordable housing and through the goals and objectives outlined in the HART Report and Five-Year Action Plan. Snohomish County and Consortium members will also continue to allocate local funds under the Snohomish County Affordable Housing Trust Fund to help with affordable housing needs, allocate a portion of local funds generated under a sales tax program to help with affordable housing needs for persons with mental health and substance abuse challenges, continue the contingent loan policy under which $40 million in loan guarantees can be provided to non-profit organizations and housing authorities to support affordable housing projects, and continue administration of programs that provide reduced property taxes for property owners with limited incomes.
AP-85 Other Actions - 91.420, 91.220(k)

Introduction

This section describes the Snohomish County Consortium's planned actions to carry out the following strategies outlined in the Strategic Plan: 1) address obstacles to meeting underserved needs, 2) foster and maintain affordable housing, 3) reduce lead-based paint hazards, 4) reduce the number of poverty-level families, 5) develop institutional structure, and 6) enhance coordination.

Actions planned to address obstacles to meeting underserved needs

The main obstacle to meeting underserved needs is the limited funding available to address all of the needs in the community, particularly with sustained funding cuts in several federal, state, and local sources of funding. Snohomish County continues to provide local funding to help address affordable housing needs through its Affordable Housing Trust Fund program and Sales Tax programs. Snohomish County continues to explore funding opportunities to expand available resources to meet community needs. The Snohomish County Human Services Department continues to participate in various collaborative efforts and partnerships developed to help address underserved needs in the community for low-income persons, homeless persons, and persons with special needs.

Actions planned to foster and maintain affordable housing

The Snohomish County Consortium has awarded CDBG and HOME funds in the 2021 Annual Action Plan to help maintain the existing affordable housing stock in decent and safe condition. This includes funding for a homeowner home rehabilitation program, a homeowner minor home repair program, and rehabilitation of 4 rental housing units for elderly persons and persons with disabilities.

Actions planned to reduce lead-based paint hazards

In order to address the risk of lead-based paint hazards, Snohomish County requires projects and programs funded with CDBG, HOME, and ESG funds it administers to comply with lead-based paint regulations for rehabilitation work on structures built before 1978. Proposed projects are first reviewed for lead-based paint hazards during the application review process. If the project is selected for funding and lead-based paint is found to be a hazard, project sponsors are required to comply with the applicable federal lead-based paint requirements regarding reduction of the hazard. Funded projects and programs are monitored by Snohomish County Human Services Department staff to ensure compliance with the regulations, such as notification of lead-based paint hazards, performance of work by certified workers according to acceptable procedures, and clearance of the work by certified inspectors. Project sponsors for the homeowner home rehabilitation and homeowner minor home repair programs assess lead hazard risks for homes rehabilitated and repaired under those programs.
and follow the requirements for homes found to be at risk.

Actions planned to reduce the number of poverty-level families

The mission of the Snohomish County Human Services Department is to help all persons meet their basic needs and develop their potential by providing timely, effective human services and building community. The Department is guided by a core set of values to act as a catalyst for enhancing our communities’ own intrinsic abilities to support and care for their residents. Snohomish County is the local community action agency with the primary aim of helping low-income individuals and families move from poverty toward self-sufficiency through the integration of an array of services designed to increase well-being, education, and employment opportunities.

The groundwork is being laid for Snohomish County to continue enhancing its comprehensive and effective workforce system under the direction of the Snohomish County Executive and the local workforce development board appointed by the Executive. The provision of employment opportunities is central to Snohomish County’s anti-poverty strategy which creates synergy between nine industry sectors targeted for attraction, retention, and expansion and the need of low-income residents countywide.

On a broader scale, Snohomish County Aging and Disability Services, Behavioral Health, Developmental Disabilities and Early Learning, Housing and Community Services, and Veterans Assistance Program staff recognize that some persons engaged in these systems will have more positive life outcomes if education and employment is part of their life plan. Staff are informing persons discharged from hospitals and those engaged in or exiting foster care, hospitals, behavioral health treatment, and justice programs about the resources they could access from workforce development partners.

Additionally, the HUD Section 3 program requires that grant recipients of CDBG and HOME funds provide job training, employment, and contracting opportunities for low-income residents in connection with contraction projects and activities in their neighborhoods to the greatest extent possible.

In addition, the Snohomish County Human Services Department will continue the various activities outlined in the Strategic Plan of the 2020-2024 Consolidated Plan, Section SP-70.

Actions planned to develop institutional structure

Key strengths in the Snohomish County Consortium institutional structure continue to be the existence of a broad range of project sponsors for affordable housing and non-housing community development projects (public facilities, infrastructure improvements, public services), two public housing authorities, ongoing local government and resident input through the Snohomish County Consortium Technical Advisory Committee and Policy Advisory Board, local community planning processes particularly around housing and homelessness, and the collaborative partnerships between the County, local governments, Everett/Snohomish County Continuum of Care, public agencies, private non-profit organizations, and
faith-based organizations to address local housing and non-housing community development needs for low- and moderate-income persons.

The Snohomish County Housing Affordability Regional Taskforce (HART) Report and Five-Year Action Plan was created by County Executive Dave Somers to bring together elected leaders from cities across Snohomish County and the County Council, on the belief that the housing affordability challenge before us is intensifying and is best addressed collaboratively and proactively. The County will continue to collaborate with the housing development community to address the community capacity to develop, own, and operate affordable housing.

**Actions planned to enhance coordination between public and private housing and social service agencies**

Planned actions include:

- Continued coordination through participation in various community partnerships and collaborative efforts,
- Continued coordination by service providers between clients and landlords,
- Continued operation of Fair Housing program to assist renters being denied housing,
- Continued operation of landlord engagement efforts to increase the capacity of service providers to engage with landlords in an effort to increase access to housing for renters with problematic rental histories and other barriers to entering the housing market,
- Continued encouragement of coordination between housing and service providers, where applicable, through the County’s affordable housing application process,
- Continued refinement and implementation of the coordinated entry and assessment system that provides services to households experiencing a housing crisis, including access to homeless housing resources for eligible households,
- Continued implementation between housing and service providers with mainstream employment services for income progression.
- Collaboration through HART’s Five-Year Housing Affordability Action Plan and the eight “Early Action” items, beginning in 2020, including, but not limited to:

1. Encourage cities to enter into cooperation agreements with the Housing Authority of Snohomish County (HASCO) and Everett Housing Authority.
2. Engage private sector partners – large employers, others – in helping to finding solutions to our housing affordability challenge.
3. Confirm and support an ongoing structure for regional collaboration around production of housing affordable across the income spectrum.
AP-90 Program Specific Requirements
AP-90 Program Specific Requirements - 91.420, 91.220(l)(1,2,4)

Introduction

This section provides information on Snohomish County Consortium CDBG, HOME, and ESG program-specific requirements for the Annual Action Plan.

For CDBG, the Snohomish County Consortium has selected a three-year overall benefit period to determine compliance with the requirement that at least 70% of CDBG funds are used to benefit low- and moderate-income persons. The three-year period includes the 2020, 2021, and 2022 program years.

**Community Development Block Grant Program (CDBG)**
Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed 0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan. 0
3. The amount of surplus funds from urban renewal settlements 0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan 0
5. The amount of income from float-funded activities 0

**Total Program Income:** 0

**Other CDBG Requirements**

1. The amount of urgent need activities 0

2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan. 70.00%
HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

   Not applicable. Snohomish County does not intend to use HOME funds for forms of investment other than those described in 24 CFR 92.205 in the 2021 program year.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

   HOME funds are limited to gap financing. Subsidy layering and/or underwriting must demonstrate that there are no more HOME funds invested, alone or in combination with other funds, than are necessary to provide quality, affordable, and financially viable housing for at least the duration of the affordability period. The Maximum HOME subsidy per household may not exceed $50,000.

   Homebuyers are required to receive housing counseling before receiving HOME assistance in order to understand the HOME requirements and restrictions.

   One subrecipient in the 2021 Action Plan, HomeSight, will provide purchase assistance to first-time Low- and moderate-income households and will use the shared appreciation model as stated in the “Snohomish County HOME Homebuyer Program Guidelines for Recapture, Section C, which is attached as Appendix 1 to AP-90.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

   Recapture provisions are triggered when, during the period of affordability, the housing ceases to be the principal residence of the buyer who was assisted with HOME funds. These provisions are imposed for the duration of the period of affordability on all HOME-assisted homebuyer projects through a written agreement with the homebuyer, and are enforced via lien, deed restrictions, or covenants running with the land. The recapture provisions are triggered by any transfer of title, either voluntary or involuntary, during the established HOME period of affordability.

   To ensure investments provide affordable housing over the long term, the housing must be the principal residence of a low-income household throughout the period of affordability. Funding agreements will define the term of affordability. Affordability requirements will be recorded on the
property through:

- A deed restriction or covenant running with the land, or
- Loan documents.

4. **Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:**

Not applicable. Snohomish County does not intend to use HOME funds for this purpose in the 2021 program year.

**Emergency Solutions Grant (ESG)**

1. **Include written standards for providing ESG assistance (may include as attachment)**

Emergency Solutions Grant written standards are attached as Appendix 2 to AP-90. They are included as part of the Continuum of Care written standards.

2. **If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.**

Coordinated Entry is a process for people who are homeless or at-risk of homelessness to access needed homelessness prevention, housing, and other services. Coordinated Entry incorporates uniform screening and assessment, prioritization and program matching, and connections to mainstream services to help those seeking housing and services access programs more efficiently.

Coordinated Entry Navigators work with individuals and families not only to address their current housing crisis, but also to address their immediate barriers to housing stability by providing direct referrals to tailored services by Coordinated Entry service partners, including landlord dispute resolution and family mediation, civil legal assistance, mental health and substance use disorder services, and a range of employment and job training programs. By providing these next-step referrals, Navigators can assist individuals and families to identify and resolve their immediate barriers to housing stability and retention, regardless of whether a housing intervention is immediately available to address their situation.

Homeless housing vacancies are filled according to Orders of Priority adopted by the Partnership to End Homelessness CoC Board; prioritization is based on the length of time an individual or family has resided in a place not meant for human habitation, a safe haven, or an emergency shelter and the severity of the individual’s or family’s service needs. These Orders of Priority have been adopted to ensure that the community’s most vulnerable individuals and families are housed as quickly as possible.
Consistent with federal and state guidance on evidence-based practices, Snohomish County’s Continuum of Care has adopted a low-barrier and housing first approach and is expanding implementation to all levels of the homeless housing and service system. A core principle of housing first is the belief that all people are ready for housing. Housing first means that no individual or family is denied housing because they face challenges with sobriety or substance use, poor credit or financial history, or have past involvement with the criminal justice system. Instead, safe and stable housing is viewed as the first step in meeting these challenges and provides individuals and families with a foundation on which they are then able to work on overcoming barriers to housing stability.

Housing first also creates efficiencies in the homeless housing and service system by providing pathways to permanent housing for chronic users of costly emergency response, health care, behavioral health, and other social services.

Client choice is an essential component of housing first. Individuals and families are more likely to maintain housing stability when they have a choice in housing and services. Service providers engage individuals and families by providing meaningful opportunities to participate in services.

Homeless veterans are served through the veteran’s partnership including coordinated entry housing and prevention navigation, employment, and other mainstream supportive services. The coordinated entry system for veterans connects veterans with the homeless housing intervention that is appropriate to meet their needs as quickly as possible. Rapid Rehousing resources are available for use within the veteran’s system through SSVF programs so that homeless veterans have access to permanent housing. Chronically homeless veterans may be served through the VASH program or permanent supportive housing programs through the coordinated entry process.

Coordinated entry for homeless unaccompanied youth is done through Cocoon House. Cocoon House provides services for young adults ages 18-24 and specialized services for youth under 18 to assist in identifying permanent housing options. Homeless unaccompanied minors who cannot be unified with their families have access to transitional housing. Youth served in these programs are connected with life skills and other pre-employment activities such as GED completion, adult basic education and connections to internship, apprenticeship and other job skills programs. Various services are available to help youth increase their life skills and resiliency toward increased self-sufficiency. Young adults, 18-24, have access to permanent housing options that include specialized rapid rehousing, other permanent housing, and permanent supportive housing that is largely a set aside within a larger homeless housing project.

3. **Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).**

- The County conducts a competitive application process for ESG funds. The County issues a funding notice that was published in the Everett Herald and distributed via the County’s Housing and Community Development and Community Services Continuum of Care distribution lists.
and posts the notice on the County’s webpage. An array of organizations is included on the distribution lists; faith-based and non-profit organizations, Snohomish County Consortium local governments, public housing authorities, and other organizations. The County staff holds an application workshop for interested applicants.

- County staff conducts a technical review of applications, while the Technical Advisory Committee (TAC) reviews and scores applications using objective criteria. The TAC is made up of city, town, county, and community representatives. The TAC makes funding recommendations to the Policy Advisory Board (PAB).

- The PAB reviews TAC recommendations and makes funding recommendations to the Snohomish County Council. The recommendations are included in the Draft Annual Action Plan that is published for a 30-day public review and comment period.

- The County Council approves the ESG awards as part of the Annual Action Plan approval process. Any comments received during the public review and comment period are considered before approval of the Annual Action Plan.

- Once approved, the Annual Action Plan is submitted to HUD for a program year start date of July 1 and a contract is executed between HUD and the County for the ESG funds. The County issues award letters and subcontracts with the organizations receiving the funds.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The County meets the requirement in the following ways:

- The CoC Board has two formerly homeless persons as board members. The Board is involved in activities, such as setting ESG performance benchmarks, planning priorities, and is consulted on ESG allocations. They are also responsible for the activities under the CoC Program Interim Rule.

- The County’s Human Services Department is a Community Action Agency, and as such is responsible for a Low Income Needs Assessment, which includes interviewing people who are experiencing homelessness or are at-risk of homelessness. The Low Income Needs Assessment is used in the Consolidated Plan and in CoC planning to provide input on the needs of persons who are homeless or at-risk of homelessness, in addition to other low-income population needs.

- Information is gathered on needs during the Annual Point-in-Time count through a survey tool, and during the annual Project Homeless Connect. The input and information gathered from
individuals through these methods helps define planning and policy, in addition to the participation of homeless/formerly homeless person on the CoC Board which makes recommendations for certain funding and influences homeless policy.

5. Describe performance standards for evaluating ESG.

The County’s CoC and HMIS staff developed ESG performance standards as part of the process of complying with the new ESG and CoC Interim Rules and it was done in consultation with the ESG agencies and CoC. The performance standards included:

- Emergency shelter projects reducing their length of stay by 10% per year until the length of stay is less than 20 days and increasing their rate of exit to permanent housing by 20% per year until the rate is 80%.
- Rapid rehousing projects increasing the percent of participants who are housed in less than 14 days by 20% per year and decreasing the number of participants who return to homelessness 6 months after a successful exit to permanent housing by 5% per year until the rate is less than 15%.

The CoC Board has a standing committee – the Data and Analysis Committee – which proposed specific performance benchmarks for the CoC. The FY2019 Performance Measures approved by the CoC:

1. Reduce the average length of time persons remain in homeless housing projects by 20%: Goal – Less than 20 days
2. Returns to homelessness:
   a. Reduce returns to homelessness within 12 months by 20%: Goal – Less than 5%
   b. Reduce returns to homelessness within 6 months by 20%: Goal – Less than 5%
3. Increase percentage of households who exit to permanent housing by 20%: Goal – 80%
4. Maintain percentage of households who remain in permanent supportive housing or other permanent housing: Goal – Greater than 90%
5. Increase the percentage of adults who increase their total income from enrollment to exit by 20%: Goal – Greater than 75%
6. Reduce the average number of days for households to move into permanent housing (permanent housing and permanent supportive housing) by 10%: Goal - Less than 14 days

In addition, the Data and Analysis Committee has established population and program type specific benchmarks.

Discussion:

HOME Project Selection Process: The County conducts a competitive application process for HOME funds. Eligible applicants include non-profit organizations, public housing authorities, local
governments, Community Housing Development Organizations (CHDOs) and for-profit entities. Applications with more detailed information are available on-line at https://snohomishcountywa.gov/754/Housing-Projects

Pursuant to an interlocal agreement, 21% of the HOME funds received each year by the Snohomish County Consortium are set aside for City of Everett affordable housing projects. These projects are selected through the City of Everett, with final approval by the County. For additional details on the City of Everett’s application and project selection process for these funds, contact Ms. Kembra Landry, Community Development Specialist at KLandry@everettwa.gov or by phone at 425-257-7155.
### APPENDIX 1 to AP-12: 2021 Annual Action Plan - Public Comments

<table>

<tr>
<th>#</th>
<th>Comment</th>
<th>Human Services Division (HSD) Response</th>
</tr>
</thead>
</table>
| 1 | Gretchen Bennett: “I looked at the County website for an appropriate contact for my concern and saw you shown as the contact for comments relating to community development needs and use of federal funds. The federal money aspect is the most salient from my position. The terrible events last year near Harvey’s Lounge involving Black kids and threat of violence, the county’s decision not to prosecute, and a shut out of the families have remained top of mind, defining Snohomish County for me and thousands of North King County residents. Think, please, of your businesses and services. Your official actions suggest that Snohomish County has no interest in equality for minorities. Neither protection of the law, nor even decent behavior. To see a County that condones and perpetuates racially motivated behavior receive federal money is further upsetting. Will the federal money be used to advance beyond this seemingly systemic racial problem, to improve community justice for minorities? One notes the "services" component in your announcement. In your reply, please include substantive information, not a citation of vague policies.” | Ms. Bennett’s comments were in response to a Public Notice announcing a public hearing and inviting comments on:  
- Program performance for the 2019 program year, and  
- Planning for the 2021 Annual Action Plan.  
Federal funding referred to in the Public Notice is received by Snohomish County Consortium (Consortium), an entitlement community. The Consortium is a partnership between Snohomish County and most of the cities and towns within the County. The partnership is established through an Interlocal Agreement and allows the Consortium, as an Urban County, to receive approximately $5 million dollars in federal funding each year as formula grants under Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), and Emergency Solutions Grant (ESG) programs. The Department of Housing and Urban Development (HUD) awards annual grants to entitlement communities and states throughout the United States, to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. To receive these funds, the Consortium is required to develop a five-year consolidated plan to guide investment of the funds on an
<table>

</thead>
</table>
| 2 | Deb Fulwiler: Deb submitted a written comment after the December 20, 2020, public hearing in response to a request for public comment on affordable housing in Snohomish County. Commenter indicated that she had been a single mother and was now a retired person and was never able to afford a home of her own. After applying to several purchase assistance programs, found it frustrating when hearing about, or being informed of, potential homeownership opportunities, but then later finding that they fell through or were no longer available. Commenter stated “I was told by both HomeSight and Parkview services that I can purchase a mobile home under a certain age in good condition, but it cannot be in a park. With one exception which is Thomas Place at $450/mo. I cannot afford the monthly cost of the mobile (which would have been around 700/mo) plus the pad rent. I only make around $1700/mo and have insurance, gas, utilities (W/S/G are sometimes part of a pad fee....not always) phone, doctor bills and food, etc. to pay out of that. Why is it that I can be approved for a condo/townhouse that has annual basis, which is implemented through five one-year annual action plans. Funding for public services is primarily targeted to low- and very low-income households, families and individuals experiencing or at risk of homelessness, and non-homeless persons with special needs. For example, in the 2021 program year, the types of public service projects proposed for funding include emergency shelters, rapid rehousing programs, senior housing support, food and nutrition services, and fair housing counseling and education. The County acknowledges that homebuyer assistance and down-payment assistance programs utilizing federal CDBG and HOME funds requires adherence to strict federal requirements which can be frustrating for homebuyers. Assisted homes must be in good condition, meet specific federal standards for safety, etc., and pass a home inspection. Homebuyer programs utilizing federal funds must navigate between the amount a homebuyer can afford to pay for housing costs, the amount of purchase assistance available, and the cost of housing in the area. CDBG and HOME funded homebuyer programs are intended to assist low- and moderate-income first-time homebuyers to purchase a home they can afford, which typically requires paying no more than 30% of the household’s income for housing costs. The amount of subsidy required to reduce the housing cost to an amount the homebuyer can afford, has increased substantially in the last several years, especially for households with incomes at or below 50% and 30% of the area median income. In some cases,

<td>monthly dues (which I probably can’t afford either) but not a mobile home park. Some of the mobiles that look decent in their photos are under $100,000 and perhaps I could afford that payment plus the pad fee. I am approved for $228,000 with Downpayment assistance in Snohomish County but can’t find anything within that price range or the various entities guidelines of: No mobiles unless they are on their own land; No mobiles under a certain age; Mobiles must be in good condition; No foreclosure houses; and Stick home must be in good condition. I use a walker and would like to purchase a home within my income (not pay more than 30% of my income which is what Habitat offers). I need a garage, not only for extra storage, but for safety as well when taking things in and out of my car. I am an easy target since I move very slowly and cannot get around easily. An ideal situation would be for a subsidized mobile home park for seniors in Monroe or close by since you know their income is not going to change. The individuals could buy their own mobile homes and have them placed in this park and know that they can afford to live within their means instead of relying on their families or other entities to care for them. Finding affordable housing in Snohomish County has been an impossible task for me. I hope by telling my story you can see the pitfalls and hoops low income (especially seniors) are being asked to achieve.”</td>
<td>there is not enough funding available to make the home affordable to the homebuyer. The County appreciates the input provided and will continue to explore additional ways to improve and increase affordable housing options in our community.</td>

<td>Steve McGraw, Homage Senior Services: “Homage has collaborated with Snohomish County for many years to assist our senior population and adults living with a disability, to live independently and with dignity in their homes. This partnership not only provides necessary resources to some of our most vulnerable community members; our services and programs help keep these families safe in their homes, while maintaining their affordability. One way to increase affordable housing options is with public service programs, such as Homage Home Repair. We assist low-income elderly and disabled homeowners by providing health, safety, and accessibility related repairs that they cannot perform on their own. Offering needed home repairs for these low-income residents not only sustains the integrity of the existing stock, but also mitigates the need to create costlier new housing and keeps existing housing affordable. Additionally, CDBG funding can assist low income community members, like our clients, with services that address food insecurity, mental health issue and general health and well-being. Our meal programs alone help seniors and people with disabilities across the county by providing access to food and chance to connect to their community. Our partnership with Snohomish County, allows us to be able to help our clients stay proactive in maintaining their health and independence. Through our nutrition programs, social service programs, and our health and wellness programs we assist community members with reliable transportation for doctor’s appointments, congregate meals, even peer counseling. Access to these services is invaluable to the older adults and adults.</td>
<td>The County thanks Mr. McGraw for his comments and acknowledges the need for more resources to maintain existing affordable housing and to provide essential programs for vulnerable populations. The 2021 Annual Action Plan includes proposed funding for two Homage Senior Services programs: 1. Homeowner Minor Home Repair: An affordable housing program which provides health and safety repairs to homes owned and-occupied by low-income elderly persons and persons with disabilities. 2. Food and Nutrition Services: A public Service project which provides home delivered meals for home-bound seniors and people with disabilities, and freshly prepared hot meals at nine sites. The County appreciates the many years of partnership and collaboration with Homage Senior Services and values their continued commitment and service to Snohomish County’s most vulnerable populations.</td>

Appendix 1 to AP-90: Snohomish County HOME Homebuyer Program
Guidelines for Recapture
June 5, 2020

I. Recapture Provisions

Recapture provisions apply to the use of HOME funds for homebuyer assistance programs. Snohomish County will allow for the use of recapture provisions, as appropriate.

HOME funds are limited to gap financing. Subsidy layering and/or underwriting must demonstrate that there are no more HOME funds invested, alone or in combination with other funds, than are necessary to provide quality, affordable, and financially viable housing for at least the duration of the affordability period. The Maximum HOME subsidy per household may not exceed $50,000.

To be considered an eligible property, the homes acquired must have a purchase price that does not exceed 95% of the median purchase price for single family housing in the area. HUD establishes the median purchase price limits and these limits can be found on their website: https://www.hudexchange.info/resource/2312/home-maximum-purchase-price-after-rehab-value/. The County will provide current and updated limits.

Homebuyers assisted with HOME funds must qualify as low-and moderate-income at the time of purchase.

Recapture provisions are triggered when, during the period of affordability, the housing ceases to be the principal residence of the buyer who was assisted with HOME funds. These provisions are imposed for the duration of the period of affordability on all HOME-assisted homebuyer projects through a written agreement with the homebuyer, and are enforced via lien, deed restrictions, or covenants running with the land.

Under recapture, the period of affordability is based on the direct HOME subsidy that enabled the homebuyer to purchase the unit. The recapture period of affordability is outlined in the following table:

<table>
<thead>
<tr>
<th>Homeownership assistance HOME amount per-unit</th>
<th>Minimum Period of Affordability in years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Under $15,000</td>
<td>5 years</td>
</tr>
<tr>
<td>$15,000 to $40,000</td>
<td>10 Years</td>
</tr>
<tr>
<td>Over $40,000</td>
<td>15 Years</td>
</tr>
</tbody>
</table>
The County must be notified of any possible foreclosures or transfers in lieu of foreclosure during the period of affordability to ensure that recapture provisions are followed. The County will recoup any net proceeds from available funds due to foreclosure.

Applicants for HOME funding will need to propose recapture provisions at the time of application for funding and demonstrate how the provisions are consistent with the recapture guidelines.

II. Recapture Guidelines as referenced in 24 CFR 92.254 (5)(ii).

Recapture provisions will be used when the home, purchased using HOME funds as financial assistance that reduces the purchase price for the homebuyer, or as gap financing, is no longer the homebuyer’s principal residence during the period of affordability.

The County has selected the following options for recapture of funds under the HOME program:

- Recapture of the entire direct HOME subsidy;
- Reduction in the amount recaptured based on the amount of time during the period of affordability in which the buyer has occupied the home;
- Share of net proceeds (sales price minus loan repayments, other than the HOME loan, and closing costs).

A. Recapture Entire Direct HOME Subsidy Method

The **direct HOME subsidy** is the amount of HOME assistance, including any program income that enabled the homebuyer to buy the unit. The direct subsidy includes down payment, closing costs, interest subsidies, or other HOME assistance provided directly to the homebuyer.

The County will be responsible for the enforcement of the recapture provisions and will require the subrecipient to obtain the recaptured funds from the homeowner. Recaptured funds must be used by the subrecipient for other eligible HOME activities or returned to the County. The subrecipient is responsible to monitor that the homeowners continue to use the home as their primary residence.

In the event of recapture, Snohomish County or subrecipient shall collect from net proceeds all HOME funds, including outstanding principal, plus interest, plus shared appreciation (as defined in Section II (C)). **Net proceeds** are defined as the sales price minus superior loan repayment (other than HOME funds) and any closing costs.

In the event that net proceeds are insufficient to repay the HOME funds, the amount to be recaptured shall be any funds remaining after payment of all superior non-HOME debt and closing
costs that are subtracted from the sale price of the home. In no event shall the borrower be required to use funds other than net proceeds to repay the HOME Funds.

B. Reduction During Affordability Period

In the event that the homebuyer transfers the property either voluntarily or involuntarily during the period of affordability, the direct HOME subsidy will be reduced on a pro-rata basis for the time the homebuyer has owned and occupied the housing, measured against the required affordability period. The resulting ratio will be used to determine how much of the direct HOME subsidy would be recaptured. The pro-rata amount recaptured cannot exceed what is available from net proceeds. The formula is as follows:

\[
\text{Recapture Amount} = \frac{\text{# of Years Occupied}}{\text{Period of Affordability}} \times \text{Total Direct HOME Subsidy}
\]

C. Shared Net Proceeds (shared appreciation)

If the net proceeds are not sufficient to recapture the entire HOME investment or a reduced amount as described above, plus enable the homebuyer to recover the amount of the down payment and any investment in the form of capital improvements made by the homebuyer since purchase, the County or subrecipient may share the net proceeds:

1. To calculate the amount of net proceeds (or shared appreciation) to be returned:

   \[
   \text{HOME Recapture} = \frac{\text{Direct HOME Subsidy}}{\text{Direct HOME Subsidy} + \text{Homebuyer Investment}} \times \text{Net Proceeds}
   \]

2. To calculate the amount of net proceeds (or shared appreciation) available to the homebuyer:

   \[
   \text{Amount to Homebuyer} = \frac{\text{Homebuyer Investment}}{\text{Direct HOME Subsidy} + \text{Homebuyer Investment}} \times \text{Net Proceeds}
   \]

III. Special Considerations for Single-Family Properties with More Than one Unit

A. If HOME funds are used to assist a HOME eligible homebuyer to acquire one unit in single family housing containing more than one unit, recapture affordability requirements listed on Page 1, apply only to the assisted unit.
B. If the HOME funds are used to help a HOME eligible homebuyer purchase or acquire one or more rental units along with the homebuyer unit, the HOME rental affordability requirements at 24 CFR 92.252 apply to the rental units.

C. HOME funds may be used to assist HOME eligible homebuyers through lease-purchase programs for existing housing and for housing to be constructed, but the homebuyer must qualify as a low-income family at the time the lease-purchase agreement is signed.

D. If HOME funds are used to acquire housing that will be resold to a homebuyer through a lease-purchase program and the housing is not transferred to the homebuyer within forty-two months after the project completion, the rental housing affordability requirements at 24 CFR 92.252 will apply.
