2 PURPOSE AND RECITALS

2 1 On June 30, 1999, the City and the County entered into an agreement entitled "Interlocal Agreement Between the City of Marysville and Snohomish County Concerning Annexation and Urban Development Within the Marysville Urban Growth Area," hereinafter "Agreement "

2 2 Section 6 of the Agreement relating to records transfer and, specifically, paragraph 6 1 of the Agreement provides that transfer of County records will be subject to an interlocal agreement between the City and County relating to records retention and standards

2 3 Consistent with statutory requirements, the City and County wish to fully cooperate in the transfer, retention and access to public records when the City annexes areas within unincorporated Snohomish County

RECORDS TRANSFER

3.1 Records to be Transferred Prior to and following annexation of unincorporated area into the City, County records relevant to jurisdiction and provision of government services within the annexation area which may be transferred to the City, upon the City's request, shall include, but are not limited to, the following records from the Department of Public Works, the Department of Planning and Development Services, and the Business Licensing Department of the Snohomish County Auditor's office: all permit records and files, inspection reports and approved plans, approved zoning files, code enforcement files, fire inspection records, easements, plats, data bases for land use, drainage, street lights, streets, regulatory and animal license records, records relating to data on the location, size and condition of utilities, and any other records pertinent to the transfer of services and jurisdiction from the County to the City. Provided, the County reserves the right to withhold confidential or privileged records, but in such cases where the County opts to withhold such records, it shall provide the City with a list identifying the record(s) withheld.

3.2 Procedure for transfer or copying Following a written request by the City for identifiable records, the County shall have a reasonable time to collect, copy, and prepare for transfer of the requested records. When practical, the appropriate County department or office may provide the City with an index or list of the available files or records in its custody in response to the City's request. From said index or list, the City shall select the records it requires and that are affected by the annexation and request their transfer as set forth herein. Any copying costs associated with this process shall be borne by the City.

Original documents may be transferred to the City only if the County determines (i) that the records are not required by law to be maintained by the County and (ii) the County no longer has an ongoing need for the original record or file because of continuing jurisdiction, ownership, or responsibility relating to the subject of the record or file. When such conditions are found to exist, original records may be retained by the City and a copy provided to the County. If County staff determine they have a need to maintain a copy of any original records transferred to the City, a copy shall be prepared for the County, at the City's expense, prior to transfer.

When the records are available for transfer to the City, the County shall notify the City and the City shall arrange for their delivery. Once the records are out of the possession of the County, the City shall be deemed the custodian thereof in accordance with Section 4 of this agreement.

3.3 Temporary Custody of Records As an alternative to the County preparing copies of requested records for the City, the County may allow the City temporary custody of said files and records so that the City may make copies of the same. In cases where the City takes temporary custody of files for purposes of making copies, a check-out and return process shall be established administratively to ensure the security of said records. The County shall agree on any third-party copy services to be used.

3.4 If, after the transfer of original files or records, the County determines it needs copies thereof, the City may allow the County temporary custody of said files and records so that the County may make necessary copies. A check-out and return process shall be established administratively to ensure the security of said records.

3.5 In the event that electronic data or files are requested by the City, the City shall be responsible for acquiring any software licenses that are necessary to use the transferred information.

4 CUSTODY OF RECORDS The transfer of any original County records to the permanent custody of the City will be fully documented by itemized receipts signed by both the original County custodian of the records and the City Clerk. For all original records transferred from the County to the City, the City shall be deemed the custodian thereof. Until physical transfer of such original records from the County to the City, the County shall be the custodian of said records. The designated custodian of original records shall be responsible for compliance with all legal requirements relating to public records, including, but not limited to, records retention and destruction, as more specifically described below.

5 RECORDS RETENTION AND DESTRUCTION All original records and files transferred to the City shall be retained and destroyed in accordance with the applicable provisions of Chapter 40.14 RCW and consistent with the rules and regulations of the Secretary of State, Division of Archives. Similarly, the County agrees to retain and destroy all public records that are retained by it pursuant to this agreement consistent with the applicable provisions of Chapter 40.14 RCW and the applicable rules and regulations of the Secretary of State, Division of Archives and Records Management.

6 PUBLIC RECORDS REQUESTS Any requests for copying and inspection of public records shall be the responsibility of the party receiving the request. Requests by the public shall be processed in accordance with Chapter 42.17 RCW and other applicable law.
